December 9, 1975

MEMORANDUM FOR THE PRESIDENT

FROM:

BO CALLAWAY

SUBJECT:

Weekly Report #21, Week Ending December 5, 1975

#### GENERAL CAMPAIGN ORGANIZATION

The second edition of <u>The Inside News</u> was mailed to 20,000 Republican households throughout the country.

Fred Slight, Research Coordinator, prepared a fact sheet high-lighting your accomplishments as President for use by State PFC leadership. Additional information will be provided in the coming weeks to keep all PFC offices up to date and informed on Administration policy and action.

Copies of The Inside News and the Fact Sheet are attached at Tab A.

#### STATE CAMPAIGN ORGANIZATIONS

The appointment of Chairmen in Colorado, Connecticut, Hawaii, Missouri and Minnesota bring to 37 the number of state organizations established. A current list is provided at Tab B.

COLORADO -- Steve Duncan, a Denver lawyer and member of the Colorado Republican Central Committee, accepted the Chairmanship for that State. Steve is a Naval Academy graduate who served for six years in Vietnam. In 1972 and 73 he served as Assistant U.S. Attorney for Colorado and is presently in private practice in Denver.

CONNECTICUT -- Joe Burns, the former President and Board Chairman of the Fuller Brush Company has accepted the PFC Chairmanship for Connecticut. Burns, 58, is presently a Hartford attorney and is Chairman of the Budget and Control Committee of the Connecticut GOP.

HAWAII -- Vern Brye of Honolulu was named Chairman for Hawaii. Vern is Vice President of Foremost Dairies and is currently President of Hawaii Goodwill and a Director of the Honolulu Chamber of Commerce.

MISSOURI -- Gene McNary, County Commissioner from St. Louis County was named Chairman for Missouri. Although he ran against Kit Bond in the Gubernatorial primary, Bond endorsed him as PFC Chairman. He is a young and aggressive lawyer and was formerly City Prosecutor.

MINNESOTA -- Hap LeVander, the former GOP Governor's son, has agreed to serve as Campaign Chairman along with Ancher Nelson who is Chairman of the Steering Committee. A convention state, Minnesota reports no Reagan activity at this time.

Other state activity of interest includes:

ALASKA -- Mike Colletta reports your visit was well received and definitely will help with their organizational efforts. However, the Reagan forces are active and have recently mailed an effective support letter. Mike believes we can overcome this, but we have our work cut out for us.

ARIZONA -- Keith Brown, former GOP Chairman who has been very supportive of you and helpful in setting up our organization, announced last week that he now will be neutral pending your decision on common situs legislation.

Other problems in the state evolve from newly elected GOP officials, including State Chairman Jim Colter, who have publicly vowed to change Arizona Party politics. They have gone so far as to state that if they can embarrass Goldwater and Rhodes through a Ford defeat, then that is their aim. On the other hand, of course, Goldwater and Rhodes still have a strong following, although it is not now representative of the State GOP organization.

Maricopa County (Phoenix) represents two-thirds of the delegate votes, with the County organization leaning toward Reagan. It would definitely be helpful here to have John Rhodes take a visible stand to counteract the Reagan movement. Pima County (Tucson) is better organized than Maricopa for the PFC with Barbara Janoff, the PFC State Co-Chairman being an aggressive, smart politician who is helping organize that County. Don Hall, the County Chairman, is also being very cooperative. Being a convention state, Arizona could go either way right now.

GEORGIA -- The first PFC State Executive Committee meeting was held on Friday. Forty-two people attended, including District and "Red" County Chairman and members of the Key State Official Group. The latter is comprised of nine officials who have agreed to send letters to their personal friends urging their support. Former Congressman Fletcher Thompson has already mailed 640 letters, and Bob Shaw, former GOP Chairman, is due to mail several hundred within the next few weeks. The second edition of the Georgia "Inside News" will be mailed this week to 3,000 people. Eight of the ten District Chairmen have been selected, as well as eight of the sixteen "Red" County Chairmen (representing 72% of the Republican vote).

During the Executive Committee meeting  $\underline{all}$  42 State leaders strongly urged the veto of the Common Situs legislation, and considered it the major issue in Georgia.

A political newcomer from DeKalb County, Sam Tate, was named Reagan Chairman. He's a "nice", non-controversial individual but has few State contacts. However, Carl Gillis, a well-thought of Republican from Adrian in the 1st District is the Southern Georgia Coordinator which is a real coup for the Reagan forces.

ILLINOIS -- At its meeting on Monday, December 1, the Illinois Republican State Central Committee voted overwhelmingly in favor of running four delegate candidates per Congressional District (96) and the remainder at-large (5). The Committee's logic for this was that it conformed with Illinois law and that it would preclude legal challenges (from Reagan supporters).

The PFC representatives at the meeting pointed out that RNC's General Counsel Bill Cramer had written an opinion in favor of three delegates per Congressional District (72) and 29 at-large, and that any other formula was subject to challenge at the National Convention. In essence, we reserved our position to challenge.

The State Central Committee's decision means that PFC/Illinois will have to run the strongest possible candidates in every Congressional District, i.e., Dick Ogilvie will run for delegate in the 9th District. It also means that the Republican State Convention will appoint only five delegates, these going to Senator Percy, GOP National Committeeman and Committeewoman, GOP State Chairman, and one other of statewide significance.

Though we might have preferred the 3 and 29 formula, this can in no way be construed as a defeat for PFC. It will cause us to work harder at the Congressional District level and to depend less on winning delegates at the State Convention.

PFC/Illinois has selected 21 of 24 Congressional District Chairmen and 37 of 101 County Chairmen. Target date for completion of Chairmen selection is December 15. Ogilvie reports that all except one (Phil Crane) Illinois Congressmen are for or leaning for the President.

IOWA -- Ed Terrill and Dave Owen met with Governor Bob Ray and his AA. The Governor is working hard and whole-heartedly for you, utilizing all the resources available to him and he's doing an excellent job. A full-time Coordinator recommended by the Governor has been hired. A mailing will go to all precinct committeemen and women prior to the precinct caucuses on January 19.

MONTANA -- Both Bob Flanigan, the Regional Coordinator, and Ken Neill, State PFC Chairman, recommend that Montana be treated as a convention state, even though a primary is scheduled for June 1, as the primary is not binding and the actual delegates are selected at the State Convention on June 30. Also, there is no party registration in Montana, which makes the outcome difficult to predict.

NEW HAMPSHIRE -- Stu Spencer spent two days in New Hampshire last week reviewing the progress of the campaign plan and organization. To date they have recruited about 600 volunteers and the organization is beginning to come together. Contingency plans are also being developed for a telephone bank which will probably be needed.

Stu will be meeting with Congressman Cleveland on Tuesday, December 9, to discuss a number of items, including the best way to use research materials on the Reagan record. I will be visiting the state for a media tour and meeting with organization people on the 16th.

NEW MEXICO -- All but 2 of the 32 County Chairmen have been named for our PFC organization. Pete Domenici and Manny Lujan have sent letters to 700 Republican activists announcing their position and requesting support. A press conference held last week announcing their role in the campaign was well covered in the State.

OKLAHOMA -- Governor Holshouser addressed the State GOP Central Committee meeting on Saturday. Paula Unruh, the State Chairman, had also invited Paul Laxalt to speak for Reagan. At the last minute, Laxalt cancelled and the Reagan people sent former State Chairman Clarence Warner to speak in their behalf. Warner read a Reagan speech (verbatim) -- even to the extent of quoting "We in California". Needless to say, it was not well received and that, coupled with Governor Holshouser's very positive remarks,

were a definite plus for you. Oklahoma will always be hard-core conservative, but Reagan strength seems to have peaked.

OREGON -- Nola Haerle, Regional Coordinator, has met with PFC Chairman Craig Berkman; John Mason, '72 Campaign Chairman; Senator Vic Atiyeh; National Committee Members Bun Stadelman and Mrs. Collis Moore. They assess the state at this time at 50-50, with several issues being key ..... 1) Common Situs picketing, against which people have extremely strong feelings; and, 2) the grain deal over which many people are confused. \*\* Bun Stadelman recommends that Secretary Butz attend the National Wheat Meeting in Billings, Montana, in mid-January as he is well liked by this group and can help clarify the issue.

There has been some negative reaction to our naming Craig Berkman as PFC Chairman, as he is an aggressive and ambitious individual and has stepped on some toes in previous organization work. However, we are going to need aggressive leadership and Nola does not see this as a problem.

Reagan was in Portland for a GOP fund-raising lunch which flopped. A \$250-a-head reception prior to the luncheon was cancelled at the last minute with only 10 checks received, and 289 people attended the \$25-per-person lunch. A dinner that evening in Eugene, however, was very successful. Jim Stern, a rancher, and John Graham, a real estate developer from Portland, are the Reagan Chairmen. Both are apparently nice people, but not known politically in the State. No elected leadership have come out for Reagan to date.

TENNESSEE -- Howard Baker has accepted the Honorary Chairmanship for Tennessee. In individual meetings with Baker and Bill Brock they approved Jack Craddock of Memphis for West Tennessee Chairman, Ann Tuck of Nashville for Mid-Tennessee, and former Mayor Kyle Testerman of Knoxville for East Tennessee. We are waiting on acceptances from these three before an official announcement is made. Brock was also asked to serve as an Honorary Chairman, but declined due to his Senate race.

WASHINGTON -- We are waiting a decision from Norton Clapp, whom Governor Evans has asked to be PFC Chairman. In the interim, State GOP Chairman Ross Davis and Jack Gordon, Executive Vice President of the Washington Restaurant Association and a staunch supporter, are lining up PFC County Chairmen. You have solid support from the GOP leadership, and Spokane Mayor Dave Rogers is ready to help.

#### ISSUES

Regional Coordinators have reported a generally favorable reaction on your New York City announcement and a unanimously positive response to the Supreme Court appoint of Judge Stevens.

On New York City, some still seem confused and consider it a bail-out. This attitude was expressed particularly in the Great Plains States of Kansas, Missouri and Nebraska.

#### LEGAL

Documents have been prepared to incorporate "Campaign '76, Inc." and The President Ford Committee as non-profit corporations in the District of Columbia. These Articles of Incorporation will be filed on Monday, December 8, with the Recorder of Deeds.

The certification letter requesting matching funds from the U.S. Treasury was filed with the FEC on December 1.

#### TREASURER'S REPORT

A total of \$1,287,788 has been raised to date with \$36,733 raised during the week ending December 5. Total disbursements for the week were \$118,060, which is unusually high due to two large disbursements for direct mail lists and postage. The Treasurer's Report is attached at Tab C.

Ronald Reagan qualified during the week for matching funds by meeting the necessary goal in 21 States. Approximately \$500,000 is eligible for the matching amount.

#### FINANCE COMMITTEE

Bob Mosbacher was officially announced as Finance Chairman on Wednesday, December 3, and has been working full time since Tuesday. He plans to make several changes in the Finance organization and will make a report on these changes next week.

C. William Verity, Jr., Chairman of the Board of Armco Steel Corporation, has joined the Executive Committee. Thirty-nine states, plus the District of Columbia and Puerto Rico, have Finance organization.

Alaska now leads in percentage of quota raised with 48%, followed by Georgia (47%) and Kansas (43%).

The Finance Executive Committee and State Chairmen lists are attached at Tab B, along with State PFC Chairmen.

#### MISCELLANEOUS

PRESS BRIEFING -- On Friday, Peter Kaye initiated the first of a series of briefings for Stu Spencer and me with representatives of the media. Included in this first meeting were:

Dean Fisher TIME Magazine
Hal Bruno NEWSWEEK Magazine
Bob Boyd Knight Newspapers
Marty Plissner CBS
Bill Boyarsky Los Angeles Times
Jack Germond Washington Star
Jules Witcover Washington Post

During the  $1\frac{1}{2}$  hour meeting we discussed our general organization concentrating on New Hampshire, Florida, and Illinois. The meeting was frank and open and seemed to be well received. However, the meeting was aimed at long term benefits rather than immediate results.

NATIONAL LEAGUE OF CITIES CONVENTION -- Republican Mayors hosted a meeting in Miami during the National League's Convention, which was attended by Leo Thorsness of the PFC. Leo addressed the Republican group, calling for their support and asking them to join a "Mayors for Ford" group. Several mayors have offered their help in setting up this group, including Pat Kramer of Patterson, Dave Rogers of Spokane, Pete Wilson of San Diego, Ralph Perk of Cleveland, and Tom Moody of Columbus. A rough sampling indicated approximately 80% of the sixty attending in support of you. Jack Jordan, a former Chairman of the Mayor's Association and former GOP Chairman for Pennsylvania, has volunteered to help Leo and the mayors with this program.

#### SCHEDULE --WEEK OF DECEMBER 8

Monday, December 8 Callaway in Florida for meeting with

Hillsborough, Pasco and Pinellas County

organizations.

Tuesday, December 9 Mayor Vincent Cianci of Providence, R.I.

Wednesday, December 10 Cabinet Members briefing

Meeting with Gil Carmichael (Mississippi)

Friday, December 12 PFC coffee reception for Republican

legislators attending Intergovernmental Relations meeting (at Headquarters)

Friday and Saturday December 12 and 13

Callaway/Spencer and several other staff members in Houston for Southern Regional Conference. Secretary Butz is Saturday's

luncheon speaker. Butz and Morton available for meetings Saturday

afternoon.

Copy to:

Dick Cheney

MEMORANDUM FOR:

PFC LEADERSHIP

FROM:

BO CALLAWAY

SUBJECT:

Fact Sheets on the President's Accomplishments

Attached are a set of issue fact sheets concerning Presidential actions and accomplishments.

These items have been produced by our Director of Research as resource material to assist you in reviewing significant decisions and actions taken by the President during his fifteen months in office. Updates on these issues as well as the inclusion of additional subjects will be forthcoming over the next several weeks.

Let me emphasize that the attached materials are for your personal guidance and have not been designed as literature for mass distribution. Our advertising arm, Campaign '76, Inc., has begun the development of campaign materials and you will be receiving the first of a series of issue pamphlets prior to Christmas. A fuller array of advertising pieces will become available after the first of the new year.

#### President Ford Committee

1828 L STREET, N.W., SUITE 250, WASHINGTON, D.C. 20036 (202) 457-6400

November 25, 1975

MEMORANDUM FROM:

FRED SLIGHT

SUBJECT:

President Ford's Actions and Accomplishments in Office

Gerald R. Ford, 38th President of the United States, received the oath of office from Chief Justice Warren E. Burger at noon on Friday, August 9, 1974. The national experience was new for the American people, coming at a time when the country was gravely troubled by problems at home and abroad.

At his swearing in, the President stated:

". . . I assume the Presidency under extraordinary circumstances. . . . This is an hour of history that troubles our minds and hurts our hearts.

Therefore, I feel it is my first duty to make an unprecedented compact with my countrymen. Not an inaugural address, not a fireside chat, not a campaign speech -- just a little straight talk among friends. And I intend it to be the first of many."

The President reaffirmed his responsibility to America, and vowed to "be the President of all the people," as we "go forward now together."

President Ford has lived up to his promises. The high respect for his honesty and forthrightness transcends both state boundaries and party lines. His courageous decisions have demonstrated the quality of leadership so necessary in a complex world.

The attached fact sheets briefly review significant actions taken by the President during his fifteen months in office. These items should be helpful to you in communicating the reasons why Gerald Ford is deserving of the support of his fellow Americans.

Attachments

#### PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS IN AGRICULTURE

President Ford has created a farm policy that aims to balance the real interests of the American farmer and those of the American consumer. Earlier this year, he said: "This Administration is determined to act in support of the American farmer and his best interests. (But) it will not act to distort the market." To carry out this program, he has:

- \* Signed into law an expansion of the Emergency Livestock Credit Act, broadening eligibility and providing guarantees for loans by private lenders to farmers and ranchers for livestock, while at the same time reducing the aggregate level of Federal loan guarantees by \$.5 billion.
- \* Concluded and signed an agreement with the Soviet government committing them to purchase a minimum of six million metric tons of wheat and corn annually from the U.S. This agreement further allows the Soviet government to purchase an additional two million tons annually without Government-to-Government consultation, and provides that the U.S. Government will facilitate Soviet purchases under the agreement, except where the U.S. grain supply is less than 225 million tons in a given crop year, in which case the U.S. may reduce the quantity to be sold.

This long-term grain sale contract benefits the American economy in several important ways. Benefits include the fact that it has:

- \* Assured the American farmer that the Soviet Union will be a more consistent buyer for grain at market prices -they have fluctuated too much over the last decade.
- \* Facilitated the hiring of labor, the purchase of new farming machinery, and generally stimulated agriculture and business, thus providing more jobs for Americans.
- Neutralized a great de-stabilizing factor in recent years -- changes in yearly production of wheat in the Soviet Union have accounted for nearly 60 percent of the annual fluctuations in world wheat production over the last decade -- and buying of American wheat to make up for the crop differences by the Soviets have contributed significantly to fluctuations in wheat prices in the United States. This agreement should bring stability to the American grain market and to the American consumer, as well as minimize fluctuation.

The President is also concerned about farmers who have suffered severe financial difficulties because of the cost price squeeze. To aid this financially beset group of farmers, President Ford has:

- \* Directed the Secretary of Agriculture to increase the 1976 wheat acreage allotment by 8 million acres to 61.6 million acres (this provides wheat farmers additional target price and disaster protection).
- \* Increased crop cotton price support loan rate by 9 cents per pound.
- \* Announced an increase in the price support level for milk.
- \* Negotiated successfully with the European Community for the removal of export subsidies on industrial cheese coming to the U.S.
- \* Directed the conclusion of agreements with twelve countries limiting their 1975 exports of beef to the U.S.

#### PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS ON BUSING

The President has stated that he is firmly opposed to the use of court-ordered busing as a means of achieving an artificial racial balance in our schools. Nonetheless, he has repeated his intention to enforce the laws of the country and the order of the Courts as is his Constitutional duty.

The President has stated that "... without any hesitation or qualification... if the Court says something has to be done, it will be done, as far as this Administration is concerned." He is most concerned that all Americans receive a quality education.

To help alleviate some of the burden imposed by court-ordered busing, and to explore better ways to bring a quality education while upholding the law and the courts, the President has:

- \* Proposed the Desegregation Assistance Act of 1975 to target to school districts in the process of desegregation support on the basis of need.
- \* Ordered the Department of Justice and Health, Education and Welfare, to undertake an extensive review of the effect of busing.

#### PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS ON COMBATTING CRIME

The rate of serious crime -- murder, forcible rape, robbery, aggravated assault, burglary, larceny and auto theft -- was 18 per cent higher in 1974 than in 1973. This is the sharpest increase in the forty-four years that the F.B.I. has collected and reported crime statistics. Since 1960, the crime rate has more than doubled, despite the billions of dollars which have been spent on law enforcement programs. More significantly, the number of crimes involving the threat of violence or actual violence has also increased.

The personal and social toll that crime exacts from our citizens is enormous. Yet, the law continues to center its attention more on the rights of the criminal defendant than on the victims of crime.

President Ford believes that it is time for law to concern itself more with the rights of the people it exists to protect. The victims of crime are his primary concern.

The President believes that the Federal government can and must play an important role in combatting crime by:

- \* Providing leadership to State and local governments by enacting a model criminal code and improving the quality of the Federal criminal justice system;
- \* Enacting and vigorously enforcing laws covering criminal conduct within the Federal jurisdiction that cannot be adequately regulated at the State or local level; and
- \* Providing <u>financial</u> and technical assistance to State and <u>local governments</u> and law enforcement agencies, thereby enhancing their ability to enforce the law.

To accomplish these objectives, President Ford has:

- \* Addressed to the Congress a comprehensive special message on crime, calling for the enactment of laws (1) establishing mandatory minimum sentences for persons committing violent Federal crimes, particularly crimes involving the use of a dangerous weapon, (2) prohibiting the domestic manufacture or sale of so-called "Saturday Night Specials" that have no apparent use other than against human beings, (3) extending for an additional five years the Law Enforcement Assistance Administration and authorising up to \$6.8 billion of Federal assistance to State and local governments to fight crime; and (4) providing for economic compensation to the victims of Federal crimes.
- \* Initiated at the national level a policy review committee on drug abuse to develop a better program for dealing with the national drug abuse problem and the costs, criminal and social, it exacts from our society.

- \* Directed the Department of Justice to develop enforcement priorities in the area of white collar crime -- which in 1974 cost the public more than \$40 billion -- and crime involving official corruption.
- \* Endorsed the recommendation of the Judicial Conference of the United States for the creation of fifty-one additional Federal District Court judgeships throughout the country. This, coupled with the enactment of legislation expanding the criminal jurisdiction of U.S. magistrates, will enable the relatively small number of Federal District Court Judges to focus their attention on the most significant criminal cases.

#### PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS ON ENERGY INDEPENDENCE

President Ford has said that he will not sit by and watch the Nation continue to talk about an energy crisis and do nothing about it.

Nor will he accept half-way measures which fail to change the direction that has made our nation vulnerable to foreign economic interests.

The President has proposed firm, but necessary measures designed to achieve energy independence for the U.S. by 1985, and to regain our position of world leadership in energy. His policies will accomplish this by: (1) increasing domestic energy production, (2) promoting the conservation of scarce domestic energy supplies, and (3) promoting the development and efficient utilization of new domestic energy resources, including fossil, nuclear, solar and geothermal energy sources.

If Congress will adopt the President's energy program we can look forward to stable energy prices in the future, because we would be less vulnerable to the threat to a disruptive embargo or to the excessive prices set by a foreign oil cartel.

To meet his objectives, the President has:

- \* Recommended to the Congress the <u>first comprehensive national</u> energy program specifically designed to <u>reduce dependence</u> on foreign oil by cucting back U.S. imports of oil by 3-5 million barrels of oil per day by 1985, and then to regain U.S. world energy leadership.
- \* Submitted to the Congress proposals calling for energy conservation taxes, and the Energy Independence Act of 1975, which provides specific measures to increase energy supply, reduce demand, and establish national strategic petroleum reserves. Other specific proposals include:
  - A tax credit for home owners for energy conservation investments and a program for home insulation for low-income families.
  - Production from the Naval Petroleum Reserves.
  - Commercialization of synthetic fuels technologies.
  - Thermal efficiency standards for new buildings.
  - Deregulation of new natural gas prices to spur domestic production.
- \* Signed into law an act creating the Energy Research and Development Administration, and presented a \$2.3 billion energy research and development budget for FY '76.
- \* Launched a voluntary automobile efficiency program to increase gasoline mileage, and a voluntary energy conservation program in industry.

- \* Taken administrative steps to accelerate <u>leasing of the Outer Continental Shelf</u> to find and develop oil and gas reserves while providing, at the same time, protection for the environment.
- \* Reduced energy use by the Federal Government.
- \* Increased international cooperation in the energy field through our support of the International Energy Agency.

# PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS ON FISCAL RESPONSIBILITY

The President has repeatedly asserted his intention to make the Federal Government fiscally responsible:

". . . To put it simply, we must decide whether we shall continue in the direction of recent years -- the path toward bigger Government, higher taxes, and higher inflation -- or whether we shall now take a new direction -- bringing to a halt the momentous growth of Government, restoring our prosperity, and allowing each of you a greater voice in your own future."

To accomplish this, the President believes that (1) the Federal government must make a substantial and permanent cut in Federal taxes, and (2) make a substantial reduction in the growth of Federal spending. President Ford called upon the Congress to join him in restraining Federal spending by placing a \$395 billion limit on FY 1977 expenditures -- some \$28 billion below projected spending for that year. Specific actions that he has taken include:

- \* Setting a one-year 5% limit on Federal pay increases and in government programs tied to the consumer price index.
- \* Using the Presidential veto power to save the taxpayer some \$7.6 billion in the 94th Congress and \$1.6 billion in the 93rd. The Congress has overridden 6 of President Ford's 39 vetoes, costing the American taxpayer an additional \$4.4 billion.

In his speech to the nation on October 6, 1975, President Ford said:

". . . If we cut only taxes but do not cut the growth of Government spending, budget deficits will continue to climb, the Federal Government will continue to borrow too much money from the private sector, we will have more inflation, and ultimately we will have more unemployment. . . In 1962, the Federal budget for the first time in our history ran over \$100 billion. In only 8 years, the budget doubled in size. In the coming fiscal year, unless we act, it doubles again to over \$400 billion. . . (M) uch of the increase in each year's budget is required by programs already on the statute books. . . If we don't slow it down, Federal spending could easily jump to more than \$420 billion -- without a single new Federal program."

The President has pointed to the financial experience of our biggest and richest city -- New York -- as a profound lesson to all Americans about the dangers of living beyond our means:

". . . Though we are . . . the richest Nation in the world, there is a practical limit to our public bounty, just as there is to New York City's. . . If we go on spending more than we have, providing more benefits and more services than we can pay for, then a day of reckoning will come to Washington and the whole country just as it has to New York City. . . When that day of reckoning comes, who will bail out the United States of America?"

#### PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS FOR HOUSING INDUSTRY

The President has indicated that the health of the housing industry is of critical importance to the Nation's economic well-being. He has made a strong commitment to assist the recovery of the housing industry by:

- \* Authorizing an unprecedented \$15.5 billion of mortgage purchases by the Government National Mortgage Association over the past 22 months, including the release of \$2 billion in Federal funds to purchase home and project mortgages at below-market interest rates.
- \* Authorizing the Department of Housing and Urban Development (HUD) to activate a revised home-ownership subsidy program (Section 235) that provides \$264.1 million to subsidize the construction or substantial rehabilitation of more than 250,000 new or substantially rehabilitated units of single-family housing for low and moderate-income families.
- \* Curtailing the excessive Federal spending that has required heavy borrowing from the private sector in order to reduce interest rates for home mortgages.

# PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS IN MIDDLE EAST RELATIONS

President Ford believes that peace in the Middle East is a matter not only of preference, but of vital national interest -- because of our historical friendship with the 150 million people of the Arab world and our moral commitment to the survival and security of Israel -- and also because the economic repercussions of an upheaval in the Middle East could disrupt the world's economic recovery, undermining living standards in all of the industrial nations and the hopes of the developing world. In addition, perpetual conflict in the Middle East could strain our ties with our most important allies in Europe and Japan and increase the danger of direct U.S. - Soviet involvement with its risk of nuclear confrontation.

Because President Ford believes that this nation can make a decisive contribution to world peace, he has:

- \* Consulted with Prime Minister Rabin of Israel, President Sadat of Egypt, King Hussein of Jordan, and Syrian Deputy Prime Minister Khaddam, to bring about the September Sinai agreement between Egypt and Israel, and made advances in the cause of peace that are unprecedented in 30 years of hostilities.
- \* Directed the Secretary of State to intensify the effort to bring a just, lasting and comprehensive settlement to the Arab-Israeli conflict and to undertake a series of missions to the Middle East to pursue a second-stage agreement in the Sinai, working towards an overall peace settlement.
- \* Initiated a strong effort to bring about new and more durable economic arrangements with countries of the Middle East, to serve the interests of both producers and consumers of oil.

#### PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS FOR REGULATORY REFORM

One of the major goals President Ford has set for himself is to cut big government down to size, ". . . to make it more manageable, more responsive, more efficient, and less costly."

The President has been particularly concerned over the need for reform of regulatory agencies which over the years have intruded to an increasing degree into the lives of the individual and of businessmen. There are now more than 5100 Federal forms that have to be filled out by individuals and businesses at all levels, from the small businessman to the large corporation. President Ford believes that:

". . . Although most of today's regulations affecting business are well-intentioned, their effect, whether designed to protect the environment or the consumer, often does more harm than good. They can stifle the growth of our standard of living and contribute to inflation. . "

To curb the growth, the cost and the time-burden of Federal regulation, to assess the impact of new Federal regulations, and to evaluate the usefulness of existing regulations, the President has:

- \* Met with Commissioners of the 10 independent regulatory agencies, directing them to improve regulatory procedures through the use of improved cost-benefit analysis of regulations, to reduce delays and backlogs in the regulatory process, to become more responsive to consumer interests, and to eliminate unnecessary regulations.
- \* Created a White House Domestic Council Review Group on Regulatory Reform to work with the Congress and the regulatory agencies to assess the impact of Federal regulations on individuals, consumer prices and inflation, and on the efficiency of the market place.
- \* Directed executive branch departments and agencies of the Federal government to evaluate the inflationary impact of major proposed legislation, rules and regulations.
- \* Initiated a major program to modernize Federal economic regulation of U.S. transportation. These proposals -- The Aviation Act of 1975, The Motor Carrier Reform Act, and The Railroad Revitalization Act -- are designed to eliminate antiquated regulations, improve customer service, and increase competition in those industries.

To assist him in carrying out his regulatory reforms, President Ford has already appointed new chairmen for six of the ten independent regulatory agencies -- Civil Aeronautics Board, Federal Power Commission,

Equal Employment Opportunity Commission, Federal Maritime Commission, National Labor Relations Board, and the Securities Exchange Commission -- and charged each with the task of revitalizing and modernizing the procedures of their agencies.

#### PRESIDENT GERALD R. FORD ACTIONS AND ACCOMPLISHMENTS ON REVENUE SHARING

President Ford believes that the General Revenue Sharing program, initiated in 1972, has been a resounding success, as it supports and embodies his belief in the concept of Federalism -- that unique aspect of the American system which permits and promotes creativity and freedom of action simultaneously at three levels of government. He has said that "Federalism enables our people to approach their problems through the governments closest to them, rather than looking to an all-powerful central bureaucracy for every answer."

While revenues over the last decade have grown faster at the Federal level, needs were growing fastest at the State and local levels. For this reason, President Ford has sent to the Congress for action the State and Local Fiscal Assistance Act Amendments of 1975 which authorize the extension and revision of General Revenue Sharing. The principal elements of the renewal legislation that he has proposed include:

- \* Retention of the basic revenue sharing formula now in use.
- \* Authorization of funds for almost six years.
- \* Continuation of the current level and method of funding, with annual increases of \$150 million.
- \* Increased public participation in determining the use of shared revenues.
- \* Improved enforcement of the civil rights provisions to insure that revenue sharing funds are not used in a discriminatory manner.

## FORD SHOWS BROAD SUPPORT IN POLLS

#### FORD WILL ENTER ALL 31 STATE PRIMARIES

BOSTON – President Ford has announced his intention to be on the ballot in all states that are holding primary elections next year. The President's determination to run in all primary states was made public in front of a large fund raising rally here.

Stuart Spencer, Deputy Chairman and Political Director for the President Ford Committee, said the decision is a positive step for the President's campaign. Spencer explained that the President's announcement will provide an incentive for state campaign leaders vare now assured the President's will appear on their primary's ballots.

Presidential responsibilities and new campaign spending restrictions may not permit the President to campaign actively in all primary states. However, he has expressed little sympathy for those candidates who selectively enter the primaries and therefore deny many voters a real voice in the election process.

Efforts on behalf of the President are already underway in early primary states. Republican leaders in both New Hampshire and Florida have given the President's campaign massive support. William C. Cramer, Florida's GOP National Committeeman, reports that "the President is strong and getting stronger" and that Florida voters would continue to support the President "when he is doing a fine job, as Ford is."

# PRESIDENT LEADS OPPONENTS IN BOTH PARTIES

WASHINGTON — Several recent nationwide polls show widespread support for President Ford's campaign. These independent surveys reveal the President to be the voter's choice to win not only the Republican nomination but next year's Presidential election as well.

In the latest Gallup survey, President Ford was selected by 45% of the Republicans as their top choice for the nomination. Former California Governor Ronald Reagan received 19% of the vote. Others were undecided of for other candidates.

The President also was the favorite for the nomination among independent voters, who constitute more than one-third of the American electorate. The independents also chose Mr. Ford by an overwhelming 64 to 29% margin against Hubert Humphrey, the leading Democratic contender.

The most recent Harris poll confirms the President's overall strength against the entire field of potential Democratic candidates. The results show that the President currently would defeat all the declared Democratic hopefuls, as well as undeclared Democrats Sen. Edward Kennedy, D-Mass., and Governor Edmund G. Brown, Jr. of California.

#### **CONTRIBUTIONS GO OVER \$1.1 MILLION**

WASHINGTON — Contributions for the President's election have gone over the \$1 million mark.

bout half the \$1.1 million collected comes from donors giving less than

The top five states, in order are Georgia, Kansas, Alaska, Alabama and Nevada. Georgia, which already has reached 42% of its quota, has been utilizing a "Make Georgia First" campaign under the leadership of State Finance Chairman Julian LeCraw, Assistant Finance Chairman Bob Redfearn, and Susan Tucker and Sidney Adamson of the PFC staff in the state.

Although its quota is only 1.1% of the national goal, Georgia to date has accounted for 6% of all money raised.

"I think it's great," said PFC Chairman Bo Callaway, a Georgian. "If all states could meet quotas early we could use our fund raisers' talents in other important areas."

Forty states have appointed finance chairmen and contributions have been received from 49. Where are you, Wyoming?

Dear Friends,

#### 50-STATE FORD CAMPAIGN DESCRIBED

WASHINGTON - A 50-state PFC organizational effort was outlined at this month's meeting of the PFC Advi-

ick Mastrangelo, Northeast, said ryanizational and fund-raising efforts already are underway in the early primary states of New Hampshire and Massachusetts. The bulk of Mastrangelo's convention state activity has centered to date in Maine, Vermont, Delaware, Rhode Island, New Jersey and the District of Columbia.

Mastrangelo also predicted the President would do very well in the Pennsylvania and New York primary elec-

B. Oglesby said the PFC organizational effort is being accelerated in key Florida counties and that the West Virginia delegation is being put together with the help of Gov. Arch Moore.

Bruce Ladd, Midwest, gave an optimistic report on upcoming primaries in the big industrial states of Ohio, Michigan, Illinois, Indiana and Wisconsin.

David Owen, Great Plains, said Minnesota, Iowa, South Dakota, Kansas and Missouri all have strong organizations poised to attract convention dele-

Al Zapanta, Southwest, said Texas is the best organized state in his area. Strong support from party leaders and d officials make New Mexico a at spot," he added.

Bob Flanigan, Rocky Mountain, described Wyoming and Montana as

the states with the best organizational effort where he has responsibility.

Mrs. Nola Haerle, Northwest, said Hawaii is solid for the President and that Oregon, Washington and Alaska also look good.

David Liggett said a widespread organizational effort in all 58 California counties is being undertaken to complement the President's popularity in ex-Gov. Reagan's home state.

Reporting for Brad Hays, who was attending a North Carolina political convention, Skip Watts and Ed Terrill said the South will be a political battleground - particularly North Carolina which has an early primary. Both North Carolina and Georgia benefitted from the President's recent visit, Chairman Bo Callaway said.

REVENUE SHARING: The President told the Chairman and other members of the House Government Operations Committee that he wants early enactment of his proposal to extend the general revenue sharing bill

#### FLORIDA PFC SHINES

ORLANDO, FLA. - Four of Florida's five Republican congressmen support the President's nomination and election. The fifth is neutral.

Rep. Lou Frey, R-Fla., PFC campaign chairman, reports three field directors and 26 chairmen in key counties are organizing the effort among Republican voters for the March 9 primary,

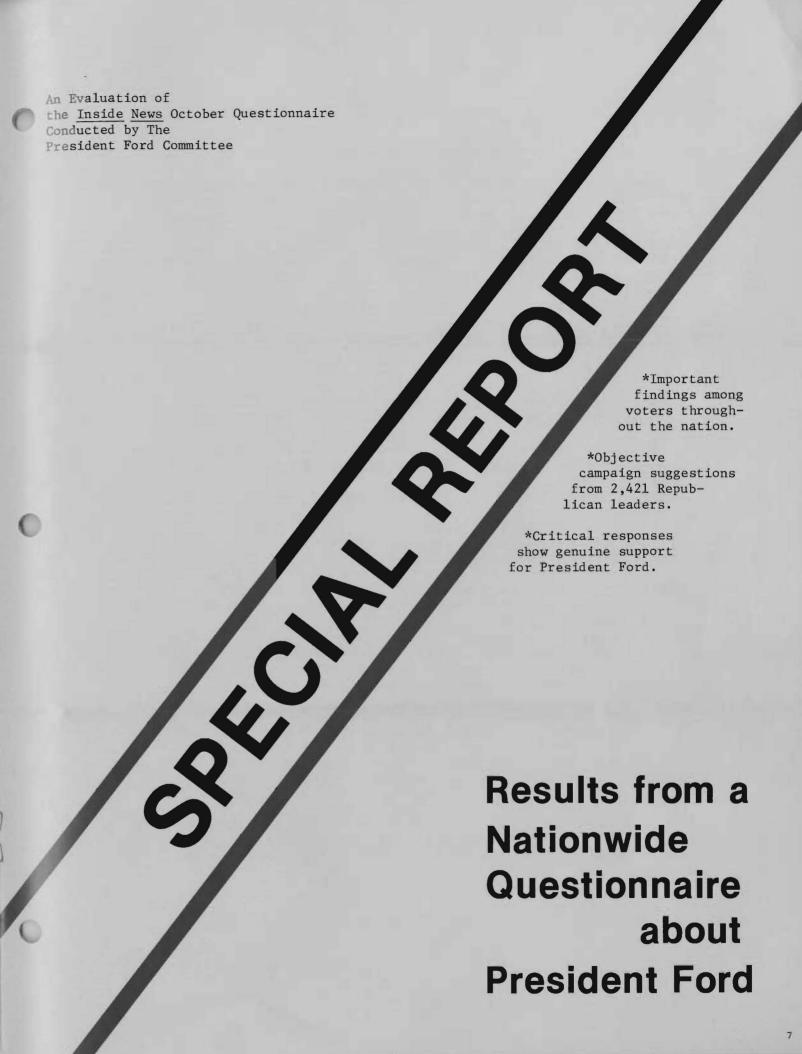

While the Ford campaign will be waged throughout the state, the concentration is in heavily Republican areas across central Florida and the south coast area

#### N.H. SNOWBALLS

CONCORD, N.H. - Rep. James Cleveland, R-N.H., State PFC Chairman, reports a grassroots field organization is being set up for the Feb. 24 primary.

Cleveland helped open the Committee's New Hampshire office here at 150 N. Main Street, Former Sen, No. Cotton, R-N.H., also spoke.

The state PFC campaign manager is John Michael. Fund raising, polling and press activities are already underway, and canvassing will start early next year

#### SPECIAL REPORT

#### PFC Questionnaire Results

Responses to a recent survey conducted by The President Ford Committee are continuing to come into the National PFC offices. In just four weeks 2,421 questionnaires have been returned, which adds up to an almost 25% return of the original 10,000 pieces mailed in October. In addition, over five hundred of those who responded have volunteered their services to the President's campaign in their respective states.

The first INSIDE NEWS Questionnaire asked leading Republicans to answer some very basic questions of critical concern to both the President and the nation.

Those questions were:

- 1) What do you consider to be President Ford's greatest asset among the voters in your state?
- 2) What do you feel is President Ford's biggest problem among the voters in your state?
- 3) What solution would you recommend to this problem?

All of the returns to date reveal both an objective evaluation of the questions as well as many valuable suggestions for the President. The general results were as follows:

- 1) An overwhelming majority (80%) of respondents felt the President's strongest asset to be his honesty and integrity.
- The voters' top three concerns were the economy, inflation and unemployment, followed closely by the crime and energy issues.
- 3) These responses contained a broad variety of suggestions. The most frequent comment was that President Ford is doing a good job and that by continuing his demonstrated capacity for strong leadership, the United States will be able to solve the problems mentioned in Question Two.

On the opposite page is a new questionnaire which we feel will help us further understand your thoughts and suggestions. Please take a few minutes to fill in the Questionnaire and return it to us in Washington.

PLEASE TAKE A FEW MINUTES TO FILL IN QUESTIONNAIRE NUMBER 2 BELOW AND RETURN IT TO:

### NEW GUIDELINES SET ON FINANCING

PFC Chairman Bo Callaway speaks to Republican group in Florida. Since his appointment in July, Mr. Callaway has visited 14 States where PFC activities are underway.

#### WOMEN TAKE LEADING ROLE IN PFC CALIFORNIA CAMPAIGN

LOS ANGELES -- The California President Ford Committee has announced the appointment of three prominent Republican women to head key posts in the state. They are:

Mrs. Nita Ashcraft of San Francisco, a former Vice-Chairwoman of the State Republican Central Committee and of Ronald Reagan's gubernatorial campaigns. She was a delegate to the 1968 and 1972 national conventions. Mrs. Ashcraft is coordinating the Ford effort in Northern California.

Mrs. Rosemary Ferraro, who has developed an outstanding precinct organization in the southeastern portion of Los Angeles County, has been selected to coordinate volunteer efforts in that area for President Ford. Mrs. Ferraro has been a member of the party's State Executive Committee, and she also was a key leader in Governor Reagan's gubernatorial campaigns.

Mrs. Alice N. Ogle, who also will be a coordinator in Los Angeles County, is co-chairwoman of the state Republican precinct operation and another former Rangan campaign aide. Mrs. Ogle will be working in a county that contains almost f the statewide Republican vote.

As campaign activity for next year's elections gets underway around the country, a great many questions have arisen with regard to the Federal election campaign laws. This is a list of guidelines from the laws which you may find helpful in your own efforts in the upcoming campaign.

You may volunteer your time to participate in the campaign, provided you do not do so while on someone else's payroll. Executives, professional people and others may do so on company time as long as they compensate the company by using their own time for work later, and if they keep records of such activities.

You may spend up to \$500 of your own money for travel expenses incurred in campaign efforts and/or on such items as invitations, food and beverages in connection with campaign activites in your own home without this being considered part of the \$1,000 contribution limit.

The legal limit is \$1,000 for each contributor, but a spouse may also contribute \$1,000, as can each of their children 18 years of age or older. The spouse is not required to have separate funds or a separate checking account.

Do not accept anonymous contributions or any contributions made by one person in someone else's name.

Do not solicit any contributions from corporations or labor organizations.

Do not accept more than a total of \$100 in cash from anyone. If you do receive a cash contribution, record it on the "Cash Contribution Record Sheet."

The points mentioned here are by no means a full explanation of the new laws. Either the PFC general counsel or the Federal Election Commission will be glad to provide you with more complete information if you so desire.

# DELEGATE COORDINATORS JOIN PFC CAMPAIGN STAFF

Coordinators responsible for gathering delegates for President Ford in primary and convention states have joined PFC.

They are Norman E. (Skip) Watts, Jr., 33, who has overall responsibility for the 31 states and territories with primary elections, and Edward A. Terrill, 56, who is in charge of the 22 convention states.

Both report to Stuart Spencer, the deputy campaign manager and political director of The President Ford Committee.

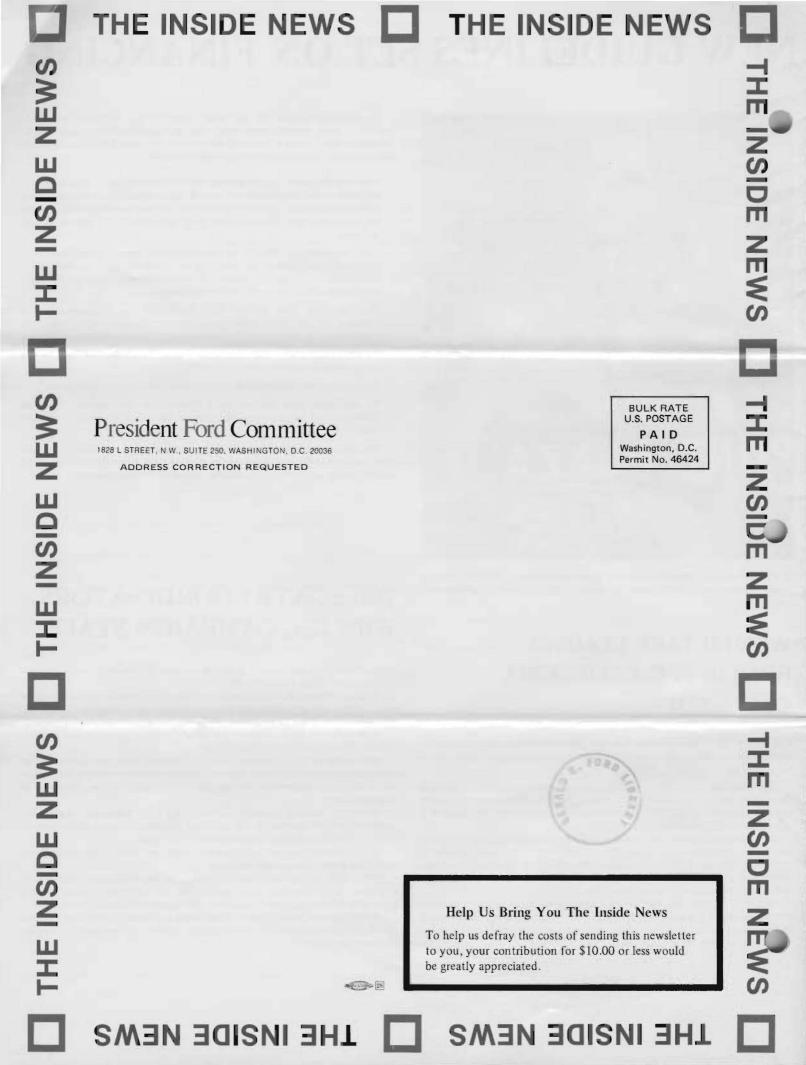

Watts came to the committee from the Treasury Department where he was special assistant to the assistant secretary. He also has been a special assistant in the Commerce Department as well as a consultant to the Secretary of Transportation.

He was an assistant regional director in the 1972 Republican presidential campaign and is a member of the California Republican Central Committee. In 1970, he was state campaign coordinator for Gov. Reagan.

As a volunteer and paid staff member, Terrill has been a Republican Party worker for more than a quarter century.

Since 1969, he has been campaign director for the Republican Congressional committee and for eight years before that was Midwest director for the Committee. He also was farm director for the Republican National Committee.

Terrill's political career began in Wisconsin as a volunteer in 1950 and included service as field organizer for the successful gubernatorial campaign of Vernon Thomson in 1956.

**Contact:** Peter Kaye (202) 457-6430

President Ford today announced the appointment of Robert Mosbacher, a Houston businessman, as finance chairman of The President Ford Committee.

In announcing the appointment, the President said:
"I am looking forward to working with Bob Mosbacher throughout this campaign. I recognize him as a competent and dynamic leader who will be able to attract financial support from hundreds of thousands of Americans."

Mosbacher, 48, presently is a member of the finance executive committee. In his new duties, he will serve as a full-time finance chairman.

"I hope to reach many people from all walks of life who are behind the President but who have not had an opportunity to become involved," Mosbacher said.

"We hope to establish a broad base of support for the President with contributions ranging from \$1 to the legal maximum of \$1,000."

Mosbacher is an independent businessman in oil and gas producing, real estate and ranching.

He has been active in Republican politics and has served as a member of the executive committee of the Republican National Finance Committee. In 1971-2, he was state chairman of that committee.

Mosbacher is a member of the National Petroleum Council.

He is board chairman of the M.D. Anderson Hospital and Cancer

Research Center in Houston, a director of the Texas Heart

Institute and a committee member of St. Luke's and Texas

Children's Hospitals.

A native of New York, Mosbacher is a graduate of Washington and Lee University. He is married and has six children. He is the winner of world sailing championships in two Olympic classes in 1969 and 1971.

The President also announced the appointment of David

Packard as honorary chairman of the finance committee and

Max Fisher as co-chairman and chairman of the finance executive

committee.

##

EDITORS AND REPORTERS: Bob Mosbacher will be available to meet with reporters at 10 a.m. Thursday at The President Ford Committee, 1828 L. St. N.W. Please contact Peter Kaye.
