To Archives
10/7

Attached for your consideration is House bill, H.R. 15404, which appropriates a total of \$5,289,785,600 in 1975 budget authority for the activities of the Departments of State, Justice, and Commerce; the Judiciary; the Small Business Administration; the United States Information Agency; and other related agencies and commissions.

The total new budget authority presented would be \$163 million less than the Administration requested, thus reducing 1975 outlays by an estimated \$113 million.

Roy Ash recommends approval and states, "the reductions in this bill can be accommodated both in total and individually." Additional background information is provided in his enrolled bill report (Tab A).

We have checked with the Counsel's office (Chapman), the NSC, and Bill Timmons who concur.

MEMORANDUM FOR THE PRESIDENT

Subject: Enrolled Bill H.R. 15404 - Departments of State,
Justice, and Commerce, the Judiciary, and
Related Agencies Appropriation Bill, 1975
Sponsor - Representative Rooney (D), New York

Last Day for Action

October 8, 1974 - Tuesday

Purpose

Appropriates a total of \$5,289,785,600 in 1975 budget authority for the activities of the Departments of State, Justice, and Commerce; the Judiciary; the Small Business Administration; the United States Information Agency; and other related agencies and commissions.

Agency Recommendations

Office of Management and Budget	Approval
Affected Agencies	Approval (informally)

Discussion

The total new budget authority provided in this bill--\$5,289.8 million--is \$163 million less than the \$5,452.8 million requested. The net effect of Congressional action is to reduce 1975 outlays by an estimated \$113 million.

While smaller reductions are spread widely throughout the bill, nearly half of the total reduction is in four accounts:

- ° Congress reduced the \$27.7 million request for the State Department's International Commission of Control and Supervision in Vietnam by \$22.1 million. The reduction denies an

\$11.2 million reimbursement to the Agency for International Development for money advanced in fiscal year 1974 to pay the United States contribution to the Commission. For fiscal year 1975 contributions, the appropriation of \$5.6 million will provide only the U.S. share of the Commission cost. It fails to provide requested funds for the shares of North Vietnam and the Peoples' Revolutionary Government which are not being met by those countries.

- Requests for the Federal Prison System's buildings and facilities account was reduced by \$25.5 million. This reduction will prevent construction of a Northeastern United States youth correctional facility. The conference report indicated a willingness to reconsider the construction request when a site has been selected.
- The appropriation for the National Oceanic and Atmospheric Administration's operations, research, and facilities account is \$15.2 million less than requested, but no significant reduction in program level is expected.
- The Judiciary's space and facilities account was reduced by \$12.4 million. The original budget estimate was informally reduced by the Judiciary by \$5.9 million. A 10 percent reduction in the standard level user charges paid to the General Services Administration accounts for the remainder of the cut. This 10 percent reduction has been applied to all agencies in this year's appropriation bills.

The net reductions to the requests for the major agencies are as follows:

Department of State, - \$38.3 million

The major reduction is for international organizations and conferences of which \$22.1 million is the International Commission of Control and Supervision in Vietnam cut discussed earlier and \$8.2 million is for contributions to international organizations (contributions to the World Health Organization; the United Nations Educational, Scientific, and Cultural Organization; and the International Civil Aviation Organization were reduced).

Department of Justice, - \$57.9 million

Major reductions include \$25.5 million for the Federal Prison System discussed earlier, \$8.2 million for the Immigration and Naturalization Service, \$6.4 million for the Law Enforcement Assistance Administration, \$5.9 million for legal activities and general administration, and \$5.8 million for salaries and expenses of the Drug Enforcement Administration.

Department of Commerce, - \$40.4 million

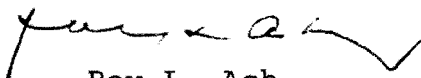

Reductions of \$15.2 million for the National Oceanic and Atmospheric Administration; \$7 million for the National Bureau of Fire Prevention's operations, research, and administration; and \$5.5 million for the Social and Economic Statistics Administration are the largest components of the net reduction.

Judiciary, - \$15.7 million

The reductions of \$12.4 million for space and facilities, as discussed earlier, account for most of the decrease.

Recommendation

The reductions in this bill can be accommodated both in total and individually. I recommend that you sign this bill.

BUDGET ESTIMATES

The estimates contained in the 1975 budget for the departments and agencies included in the bill have been amended by House Documents Numbered 93-221 and 93-305. Some of the requests contained in House Document No. 93-305 were not acted on by the Committee because the estimates were submitted too late for proper consideration.

SUMMARY OF THE BILL

The following table summarizes the amounts recommended in the bill compared with the budget estimates for fiscal year 1975 and the appropriations for fiscal year 1974.

¹ Includes amounts in second supplemental appropriation bill, 1974. In addition, the bill includes an indefinite appropriation for certain prior-year pay cost increases.

The total amount recommended in the accompanying bill in new obligational authority is \$5,304,972,100 which is a reduction of \$106,837,500 from the total amount of the budget estimates. The amount recommended is an increase of \$586,974,800 above the total appropriated for the current fiscal year including funds contained in

the Second Supplemental Appropriation Bill, 1974. The increase above the total appropriations for the current fiscal year is attributable largely to the following—

approximately \$170,000,000 in rental charges for space and services imposed by the General Services Administration under new legislative authority;

additional capital for the Business Loan and Investment Fund (\$103,000,000) and the Disaster Loan Fund (\$91,000,000) of the Small Business Administration; and

additional construction costs approximating \$42,000,000 for the Federal Prison System and the United States Information Agency, including alteration and maintenance of existing facilities.

The remainder of the increase recommended over fiscal year 1974 appropriations is due to mandatory increases and increased workload over which the departments and agencies concerned have very limited control, and selected program increases in certain areas.

SPACE AND SERVICES

The Public Buildings Amendments of 1972 (P.L. 92-313) gave the General Services Administration authority to impose a system of charges on the various departments and agencies for space and building services, the receipts from which are to be deposited in a fund operated by GSA. Appropriation requests for this purpose, which appear for the first time in the budget of virtually every governmental organization, reflect charges significantly in excess of the total estimated costs for operation, maintenance, protection, cleaning, repair, rental, and other expenses associated with provision of space and services to Federal agencies.

The Committee explored this matter in considerable detail during the appropriations hearings and has questioned the validity of the amounts requested. In this connection, the Committee recommends a reduction of ten per cent from the amounts requested by the departments and agencies in this bill for payment of the "standard level user charge" to the General Services Administration. By making such a reduction the Committee intends that payments from the agencies more closely approximate the estimated cost of the services to be provided. Accordingly, there should be no curtailment of the services for fiscal year 1975.

REDUCTION IN EXPENDITURES

The action of the Committee as set forth in the bill will reduce estimated expenditures for these departments and agencies for fiscal year 1975 by approximately \$85,000,000.

TITLE I—DEPARTMENT OF STATE

The total amount recommended in the bill for the Department of State is \$698,784,000. This is a decrease of \$17,485,000 from the total amount of the budget estimates and is an increase of \$19,832,000 over the total amount appropriated for the current fiscal year.

Under the general heading "Administration of Foreign Affairs" a total of \$401,419,000 is recommended. For "International Organizations and Conferences" the bill includes \$220,903,000. The total

recommended for "International Commissions" is \$16,262,000 and for "Educational Exchange" the total is \$60,200,000.

The action of the Committee on each of the appropriation items for the Department of State is hereinafter set forth.

ADMINISTRATION OF FOREIGN AFFAIRS

SALARIES AND EXPENSES

The sum of \$349,650,000 is included in the bill to provide the necessary funds for the formulation and execution of the foreign policy of the United States, including the conduct of diplomatic and consular relations with foreign countries, diplomatic relations with international organizations, and related activities.

The amount allowed is a decrease of \$2,350,000 from the total amount requested and is an increase of \$27,470,000 over the total appropriated for the current fiscal year. The increase allowed is largely for annualization, within-grade salary increases, wage increases for foreign local employees, price increases, increased consular workload overseas, payment to the General Services Administration for space and services, and other nondiscretionary increases.

The decrease from the amount requested is due in part to reductions in the passport workload from the level reflected in the budget presentation.

REPRESENTATION ALLOWANCES

The bill includes \$1,350,000 for representation allowances as authorized by section 901 of the Foreign Service Act of 1946, as amended. While this amount is \$150,000 less than the budget request, it is \$150,000 more than the current year appropriation.

These funds are used to partially reimburse Foreign Service officers for expenditures which they incur in their official capacities abroad in establishing and maintaining contacts with local government officials and prominent members of local groups.

ACQUISITION, OPERATION, AND MAINTENANCE OF BUILDINGS ABROAD

The bill provides a total of \$27,784,000 for the acquisition, operation, and maintenance of buildings abroad. Of this amount \$4,870,000 is contained in the special foreign currency appropriation which provides for payments in foreign currencies which the Treasury Department determines to be excess to the normal requirements of the United States. The total amount recommended is the same as the amount requested and is a decrease of \$36,000 from the current year appropriation.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

The sum of \$2,100,000, the full amount of the budget estimate, is included in the bill to provide relief and repatriation loans to American citizens abroad and for emergencies in the Department. This is the same amount as that provided for the last four fiscal years.

PAYMENT TO FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

The full amount of the budget request, \$20,535,000, is recommended for payment to the Foreign Service Retirement and Disability Fund. Legislation which liberalizes benefits or extends benefits to new groups of employees, or increases salaries on which benefits are computed, requires appropriation to the Fund to finance, in thirty equal annual installments, the unfunded liability created by the legislation. The amount recommended includes \$4,935,000 for installments related to salary increases since 1970, and \$15,600,000 related to the inclusion in the Fund of career Foreign Service employees of the Agency for International Development, as authorized by law.

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

A total of \$205,903,000 is included in the bill to meet the annual obligations of membership in certain international organizations pursuant to conventions, treaties or specific acts of Congress. The amount included is \$12,634,000 less than the total appropriation for the current fiscal year and is \$8,176,000 less than the amount requested.

As required by law, the contribution to the United Nations and a number of the specialized agencies is now limited to 25 percent of the total assessments of such organizations. This is the first budget to which the 25 percent ceiling for those organizations applied, and the Committee expected to see considerable reductions. However, the only reduction of any consequence shown in the budget request was in the assessment for the United Nations. The budget requested exemption of the International Civil Aviation Organization, the United Nations Educational, Scientific and Cultural Organization, and the World Health Organization from the 25 percent ceiling. In accordance with existing legislation, the amount requested for each of these organizations has been reduced to the 25 percent level of assessment.

The total budgets of most of these organizations continue to escalate. Every effort should be made to hold down the overall budgets and thus our contribution to them.

The following table shows the amount provided for contribution to each of the organizations covered in this appropriation item:

MISSIONS TO INTERNATIONAL ORGANIZATIONS

There is included in the bill \$6,600,000 to provide for the expenses of United States missions to seven international organizations and the expenses of delegations to four international parliamentary groups.

The budget included \$22,000 for a proposed increase in the rental of quarters at the Waldorf Astoria in New York. This request is specifically denied.

INTERNATIONAL CONFERENCES AND CONTINGENCIES

Also included in the bill is the sum of \$6,400,000 to finance United States participation in multilateral intergovernmental conferences and contributions to new or provisional international organizations. This amount is an increase of \$200,000 over the appropriation for the current fiscal year.

INTERNATIONAL TRADE NEGOTIATIONS

The bill includes \$2,000,000 for participation in international trade negotiations being conducted under the sponsorship of the contracting parties of the General Agreement on Tariffs and Trade (GATT). The amount included, although \$465,000 below the amount requested, is \$256,000 more than the fiscal year 1974 appropriation for this purpose.

INTERNATIONAL COMMISSIONS

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

A total of \$10,932,000 is recommended for the two appropriation items under the International Boundary and Water Commission, United States and Mexico. \$4,701,000 of that amount is for the "Salaries and Expenses" item and \$6,231,000 is for "Construction."

The Commission has a United States section headquartered at El Paso, Texas, and a Mexican section headquartered at Ciudad Juarez, Chihuahua. Its purpose is to solve boundary problems which require joint engineering action.

The construction item includes \$5,950,000 for the Lower Rio Grande Flood Control Improvement Program and \$281,000 related to settlement of boundary disputes.

Since there are still some problems on rights of way which have delayed the Tijuana River Flood Control Project for several years, the additional funds requested for that project have not been allowed.

The Committee deferred consideration of the request of \$94,575,000 for the Colorado River Salinity Control Project, since the legislation authorizing that project is still under consideration by the Congress.

AMERICAN SECTIONS, INTERNATIONAL COMMISSIONS

The Committee recommends \$1,300,000 for financing the United States share of expenses of the International Boundary Commission and the International Joint Commission. This amount, which is \$297,000 more than the total appropriation for the current fiscal year, includes \$344,500 for the International Boundary Commission and \$955,500 for the International Joint Commission.

The International Boundary Commission maintains United States-Canadian boundary markers in accordance with existing treaties and establishes and preserves boundary vistas by periodic tree cutting and vegetation control.

The International Joint Commission conducts investigations of boundary waters for the regulation of water level and flow, pollution abatement and water quality control, and related matters of mutual concern to both countries.

INTERNATIONAL FISHERIES COMMISSIONS

The sum of \$4,030,000 is provided in the bill to cover the United States share of the expenses of ten international fisheries commissions in which it participates, as well as the expenses of the United States Commissioners. These commissions determine and undertake or recommend measures necessary for the preservation and expansion of fishery stocks.

EDUCATIONAL EXCHANGE

MUTUAL EDUCATIONAL AND CULTURAL EXCHANGE ACTIVITIES

The sum of \$53,000,000 is included in the bill for educational and cultural exchange programs carried out by the Department of State under authority of the Mutual Educational and Cultural Exchange Act of 1961. This amount is an increase of \$2,413,000 compared with the current year appropriation.

In addition to the funds provided in the accompanying bill, activities are financed from other sources such as foreign currency reserves on hand in the binational educational foundations and commissions abroad, and contributions of foreign governments under cost-sharing arrangements. The amount estimated to be available from these other sources in fiscal year 1975 is \$2,881,436.

CENTER FOR CULTURAL AND TECHNICAL INTERCHANGE BETWEEN EAST AND WEST

The bill provides \$7,200,000 for the Center for Cultural and Technical Interchange Between East and West, a national educational institution located in Hawaii. This is an increase of \$275,000 over funds appropriated for the current fiscal year.

Through cooperative programs of research, study, and training, the Center promotes better relations and understanding between the

United States and the Asian and Pacific nations. The program is carried out by grant to the University of Hawaii, which operates the Center and administers the program through grants made to qualified persons for study or training at the Center.

TITLE II—DEPARTMENT OF JUSTICE

The total amount recommended in the accompanying bill for the Department of Justice is \$2,111,430,000. This is an increase of \$192,233,000 over the total funds appropriated for the Department for fiscal year 1974.

LEGAL ACTIVITIES AND GENERAL ADMINISTRATION

The bill provides a total of \$241,080,000 for the several appropriation items under this general heading. The budget proposed the consolidation of appropriations for the "Antitrust Division" and the "United States Attorneys and Marshals" with the "General Legal Activities" appropriation. The Committee feels that these are distinctly different activities and that the funds therefor should be maintained in separate appropriation accounts.

GENERAL ADMINISTRATION

The bill includes \$21,850,000 for this item which includes funds for program direction and policy coordination, administrative review and appeals, support of legal activities, and the Watergate Special Prosecution Force. This is an increase of \$4,516,000 over the appropriation for fiscal year 1974 and will provide for five additional positions for the Board of Immigration Appeals, as well as all of the uncontrollable increases requested. The total amount included for General Administration reflects a transfer of the judicial examination function to the Administrative Office of the U.S. Courts.

GENERAL LEGAL ACTIVITIES

A total of \$59,000,000 is provided for salaries and expenses of the Office of the Solicitor General, the Tax Division, the Criminal Division, the Controlled Substances Division, the Civil Division, the Land and Natural Resources Division, the Office of Legal Counsel, and the Civil Rights Division. The amount provided is an increase of \$5,639,000 over the appropriation for the current fiscal year. This allows funds for uncontrollable increases plus 16 of the additional positions requested. Twelve of the additional positions are for the Civil Division, two for the Office of Legal Counsel, and two for the Office of the Solicitor General.

The total amount of funds provided reflects the transfer in 1974 of certain enforcement activities to the Equal Employment Opportunity Commission.

ANTITRUST DIVISION

The Committee recommends \$15,680,000 for salaries and expenses of the Antitrust Division. These funds are for the enforcement of antitrust, consumer protection and kindred laws. The amount allowed, which is \$890,000 over appropriations for fiscal year 1974, will provide for 20 new positions plus funds for uncontrollable increases.

UNITED STATES ATTORNEYS AND MARSHALS

A total of \$126,600,000 is recommended for expenses of the offices of United States attorneys and marshals. These offices are maintained in each of the 94 judicial districts of the United States. The amount recommended is an increase of \$18,550,000 over the current year funds. The increase will provide for 44 additional positions for the U.S. marshals and 120 additional positions for the U.S. attorneys (56 attorneys and 64 support personnel).

FEES AND EXPENSES OF WITNESSES

The sum of \$14,200,000 is included in the bill in order to pay fact and expert witnesses who appear on behalf of the Government in all cases to which the United States is a party. In addition, this item provides funds for the protection of witnesses in certain cases, as authorized by the Attorney General.

COMMUNITY RELATIONS SERVICE

The bill includes \$3,750,000 for necessary expenses of the Community Relations Service, which was established by the Civil Rights Act of 1964, to provide assistance to communities in resolving disputes, disagreements and difficulties arising from discriminatory practices which disrupt peaceful relations among citizens, and also where efforts are being made to eliminate disparities between groups, to achieve compliance with the Civil Rights Act, and to reduce and prevent racial disorders.

The amount included is \$199,000 more than the funds available during the current fiscal year and will provide for ten additional positions.

FEDERAL BUREAU OF INVESTIGATION

The Committee recommends \$433,100,000 for the Federal Bureau of Investigation. This is an increase of \$40,806,000 over the appropriation for the current fiscal year, but is a reduction of \$2,500,000 from the total amount requested. The reduction is due largely to the general decrease of ten percent in the request for rental costs to be paid to the General Services Administration.

The increase of \$40,806,000 over the fiscal year 1974 appropriation includes funds for 25 additional clerks, the cost of moving to the J. Edgar Hoover FBI Building, increased costs for the FBI Academy at Quantico, Virginia, and additional equipment costs, as well as uncontrollable increases such as annualization of mandatory pay increases.

The Committee also recommends bill language to permit the FBI to purchase, lease, hire, maintain, operate and store aircraft. The language will enable the Bureau to acquire aircraft for surveillance in certain criminal investigations.

IMMIGRATION AND NATURALIZATION SERVICE

For expenses necessary for the administration and enforcement of laws relating to immigration, naturalization, and alien registration, the

Committee recommends \$175,350,000, an increase of \$21,646,000 over the total funds for the current fiscal year.

The increase will provide funds for 50 additional personnel (lapsed 50%), certain equipment purchases, increased detention and deportation costs, construction and repairs, as well as annualization of 300 additional positions provided in fiscal year 1974, and other uncontrollable increases.

FEDERAL PRISON SYSTEM

The Committee recommends a total of \$246,900,000 for the Federal Prison System.

SALARIES AND EXPENSES, BUREAU OF PRISONS

The sum of \$169,000,000 is provided for the administration, operation and maintenance of Federal penal and correctional institutions. This consists of custody, care and treatment of prisoners, inmate education, maintenance and operation of institutions, medical services, narcotic addict treatment, technical assistance to State and local governments, and general administration.

The sum provided for fiscal year 1975 is \$25,626,000 more than the funds available for the current fiscal year. The increase includes funds for the activation of four new facilities—the San Diego Metropolitan Correctional Center, the Chicago Metropolitan Correctional Center, the Miami Youth Center, and the San Diego Youth Center. Other major items of increase include per capita care increase, narcotic addict treatment programs and education programs.

The decrease of \$3,500,000 from the budget estimate is due to slippage in the activation of the new facilities and the general reduction of ten percent in the request for rental costs to be paid to the General Services Administration.

BUILDINGS AND FACILITIES

The amount of \$53,200,000, the full amount of the budget estimate, is provided for construction and improvement of facilities in the Federal Prison System. The amount provided is for planning and site acquisition for an adult complex to be located in the Northeast, construction of youth complexes in the Northeast and the Southeast, and for repair, improvement and rehabilitation of existing facilities. The amount provided for improving existing facilities includes funds for the construction of two dormitories at the prison camp at Eglin Air Force Base in Florida.

SUPPORT OF UNITED STATES PRISONERS

The Committee recommends \$24,700,000, the full amount requested, for the support of United States prisoners in non-Federal institutions.

The Bureau of Prisons contracts with approximately 900 approved State and local jails to board Federal prisoners for short periods of time, such as before and during trial, during commitments and short sentences, or while awaiting transfer to Federal institutions.

LAW ENFORCEMENT ASSISTANCE ADMINISTRATION

The Committee bill provides \$880,000,000 for grants, contracts, loans, and other law enforcement assistance authorized by title I of the Omnibus Crime Control and Safe Streets Act of 1968, as amended. This agency is charged with the responsibility of assisting State and local governments in reducing crime and improving the quality of the criminal justice system.

The amount provided is an increase of \$9,325,000 over the current year appropriation. This includes an increase of \$5,000,000 for planning grants.

DRUG ENFORCEMENT ADMINISTRATION

The Committee recommends \$135,000,000 for necessary expenses of the Drug Enforcement Administration, an increase of \$22,336,000 over the appropriation for the current fiscal year. The amount recommended includes funds for uncontrollable increases and more than \$10,000,000 of the program increases requested. Funds have not been allowed for a new training facility, and the request for the space and services assessment by the General Services Administration has been reduced by 10 percent.

This agency, created on July 1, 1973, by Reorganization Plan No. 2 of 1973, is the investigative, intelligence, law enforcement, and regulatory agency responsible for suppression of illicit traffic in narcotics and dangerous drugs. The reorganization consolidated the drug investigative activities of the U.S. Customs Service in the Treasury Department and a number of programs in the Department of Justice; namely, the Bureau of Narcotics and Dangerous Drugs, the Office for Drug Abuse Law Enforcement, the Office of National Narcotics Intelligence, and the drug research activities of the Law Enforcement Assistance Administration.

TITLE III—DEPARTMENT OF COMMERCE

The budget requests considered by the Committee for the Department of Commerce for fiscal year 1975 total \$1,406,817,000 in new budget authority, for which the Committee recommends a total of \$1,377,828,000. In addition, the sum of \$242,800,000, the full amount requested, is recommended in order to liquidate contractual obligations incurred in the operating subsidy program of the Maritime Administration.

GENERAL ADMINISTRATION

The bill includes \$9,800,000 for "Salaries and Expenses" to provide for the immediate Office of the Secretary and Assistant Secretaries, and the departmental staff offices, which assist in formulation of policy and in general management and administration of the Department of Commerce. The amount included is \$1,175,000 more than the funds available in fiscal year 1974 and is \$973,000 less than the budget request.

SOCIAL AND ECONOMIC STATISTICS ADMINISTRATION

A total of \$70,977,000 is included in the bill to provide for the activities and programs of the Social and Economic Statistics Administration.

SALARIES AND EXPENSES

The sum of \$47,977,000 is recommended for collecting, compiling and publishing economic, demographic, and social data, and for preparing, interpreting and projecting measures of economic activity. This amount is \$6,977,000 more than the current year appropriation. The increase is to cover highest priority needs including funds to complete and implement the industrial directory, improvement of bilateral foreign trade statistics, and improvement of balance of payments data.

PERIODIC CENSUSES AND PROGRAMS

The Committee recommends \$23,000,000 for periodic censuses and programs of the Social and Economic Statistics Administration. This amount, which is \$3,900,000 more than the appropriation for the current fiscal year, will provide for completion of the 1972 Economic Censuses, the collection of data and the initial processing on the 1974 Census of Agriculture, initiation of work on the 1977 Census of Governments, continuation of developmental work on the twentieth decennial census, geographic support programs, and funds for purchase and rental of data processing equipment.

ECONOMIC DEVELOPMENT ADMINISTRATION

The Committee considered budget requests for the Economic Development Administration totalling \$201,987,000, including \$31,987,000 related to Indian economic development requested in House Document Numbered 93-305. The Committee recommends \$201,825,000 for these programs.

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The bill includes \$184,200,000, the full amount of the budget request, for economic development assistance as authorized by titles I, II, III, and IV of the Public Works and Economic Development Act of 1965, as amended. The amount provided in the bill includes \$157,000,000 for public works grants, \$3,000,000 for public works loans, \$15,000,000 for industrial development loans and guarantees, and \$9,200,000 for planning, technical assistance and research.

Following is a distribution of the Committee recommendation by title:

Title I.....	\$134,622,000
Title II.....	17,500,000
Title III.....	9,200,000
Title IV.....	22,878,000

ADMINISTRATION OF ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The bill provides \$17,625,000 for expenses associated with administering the economic development assistance programs. The reduction of \$162,000 from the amount requested is due solely to the overall decrease of 10 percent in funds requested for the assessment by the General Services Administration for space and services.

REGIONAL ACTION PLANNING COMMISSIONS

REGIONAL DEVELOPMENT PROGRAMS

The sum of \$34,995,000 is included in the bill to provide for regional development programs as authorized by Title V of the Public Works and Economic Development Act of 1965, as amended. The programs are carried out by regional commissions which serve the Atlantic Coastal Plains of the southeast, the Four Corners of the southwest, the New England area, the Upper Missouri River region (Old West), the Ozarks, the Pacific Northwest region, and the Upper Great Lakes region.

The reduction of \$13,000 from the amount requested is due entirely to the 10 percent reduction in funds requested for the assessment by the General Services Administration for space and services.

DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION

OPERATIONS AND ADMINISTRATION

The bill includes \$58,500,000 for expenses of domestic and international business activities of the Department of Commerce. The amount included is an increase of \$4,800,000 over the current year funds and will permit program increases for the highest priority items, especially the request for field operations.

MINORITY BUSINESS ENTERPRISE

MINORITY BUSINESS DEVELOPMENT

The Committee recommends \$53,000,000 for necessary expenses of the Department of Commerce in fostering, promoting, and developing minority business enterprise. The total request of \$94,901,000 for this program included \$39,527,000 for the Community Development Corporation program, now a part of the Office of Economic Opportunity. The Committee has deferred action on that portion of the request since legislation transferring the program to the Department of Commerce has not yet been enacted.

UNITED STATES TRAVEL SERVICE

The amount of \$11,500,000 is included in the bill to develop plans and carry out programs to stimulate and encourage travel to the United States by residents of foreign countries. This amount, which is \$400,000 more than the total appropriated for such purpose for the current fiscal year, will permit the agency to continue the program at the current level.

The travel promotion programs are now concentrated in the six foreign countries with the greatest potential for producing tourism revenue for the United States. These countries are Canada, Mexico, the United Kingdom, France, West Germany, and Japan.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

A total of \$452,298,000 is included in the bill for the four appropriation items under the National Oceanic and Atmospheric Admin-

istration. This is \$69,273,000 more than the total appropriated for these programs for the current fiscal year.

OPERATIONS, RESEARCH, AND FACILITIES

The Committee recommends \$436,300,000 for the various activities carried out under this appropriation. This amount, which is \$69,299,000 more than the appropriation for the current fiscal year, will provide for the existing program level plus more than \$25,000,000 of the program increases requested and \$1,300,000 for construction, operation and maintenance of rearing ponds for the propagation of salmon and steelhead fish.

The \$25,000,000 covers increases requested for the sea grant program, the automation of nautical charts, modernization of the geodetic control system, replacement of obsolete weather radars, the environmental satellite service, public weather services, and procurement of aircraft for the weather modification program, as well as other high priority items.

With respect to the funds for rearing ponds, the Committee recognizes that new pressures have been placed on salmon and steelhead fisheries in the Columbia River, and recognizing that this major source of protein is almost unlimited, the committee has added \$1,300,000 to promote the propagation of these species as follows:

To make operational the Cascade Park Pond and the Wahkeena Pond (near Bonneville) \$330,000, plus the sum of \$70,000 for capital construction modification.

\$300,000 for construction of a new rearing pond on the Sandy River and \$150,000 for operation and maintenance.

\$300,000 for construction of a new rearing pond on the Clackamas River and \$150,000 for operation and maintenance.

The committee expects future budgets to include funds for the full operation and maintenance of each of these four ponds.

COASTAL ZONE MANAGEMENT

The bill includes \$12,000,000, the full amount requested, for carrying out the provisions of Public Law 92-583, the Coastal Zone Management Act of 1972. This appropriation provides for developmental and estuarine sanctuary grants to the States for the planning and management of their coastal areas. The amount included is the same as the appropriation for the current fiscal year.

ADMINISTRATION OF PRIBILOF ISLANDS

The sum of \$3,937,000 is recommended for administration of the Pribilof Islands. These funds, which are derived partially from the sale of sealskins, are for management of the fur seal herd, for schooling and other community services for natives of the islands, for buildings and roads, and for maintenance and operation of a supply vessel.

FISHERMEN'S GUARANTY FUND

The amount of \$61,000 is contained in the bill for payment to the Fishermen's Guaranty Fund. These funds, plus fees from vessel

owners, provide for payment to vessel owners and crews for certain financial losses sustained as a result of seizure of fishing vessels by foreign countries.

NATIONAL BUREAU OF FIRE PREVENTION

The bill includes \$7,000,000 for fire service education and training programs, operation of a National Fire Data System, and a research and development program on fire prevention and flammability.

PATENT OFFICE

The sum of \$76,300,000 is recommended for salaries and expenses of the Patent Office, to administer the laws governing the granting of patents for invention and the registration of trademarks. This sum is an increase of \$4,318,000 over the funds available for the current fiscal year, which were included in the appropriation for scientific and technical research and services. The increase will provide funds for about half of the 51 additional positions requested.

Since the Committee feels that the functions of the Patent Office are not sufficiently similar to the scientific and technical research responsibilities of the National Bureau of Standards, the Office of Telecommunications, and the National Technical Information Service to warrant continuation of the present joint appropriation, a separate appropriation is provided for fiscal year 1975.

SCIENCE AND TECHNICAL RESEARCH

The bill includes \$60,400,000 for "Scientific and technical research and services". This item includes funds for the National Bureau of Standards, the National Technical Information Service, and the Office of Telecommunications. Funds for the Patent Office were included in this item in the fiscal year 1974 appropriation, however, a separate appropriation item for the Patent Office is carried in the bill for fiscal year 1975.

The amount included in the bill is \$4,832,000 less than the comparable appropriation for the current fiscal year. However, a carryover of unobligated funds estimated at \$6,797,000 will permit a program level of \$67,197,000 for these activities. This will provide program increases of more than \$2,200,000. About half of the 60 additional positions requested for the National Bureau of Standards have been allowed.

MARITIME ADMINISTRATION

The Committee recommends a total of \$584,033,000 for the four appropriation items under the Maritime Administration. This total includes \$341,233,000 in new budget authority and \$242,800,000 for funds to liquidate obligations incurred under contract authority.

SHIP CONSTRUCTION

The sum of \$275,000,000 is included in the bill for construction subsidies for shipyards in the United States. This amount, which is the same as the current year appropriation, will provide subsidies for four tankers, four very large crude carriers, and four liquefied natural gas carriers.

OPERATING-DIFFERENTIAL SUBSIDIES

(LIQUIDATION OF CONTRACT AUTHORITY)

The bill includes \$242,800,000, the full amount requested, for the payment of obligations incurred for operating-differential subsidies to American ship operators. These subsidies enable American flag vessels to compete successfully on a comparable operating cost basis with vessels of foreign steamship companies.

RESEARCH AND DEVELOPMENT

The Committee recommends \$25,900,000 for the research and development program of the Maritime Administration. This amount is \$6,900,000 more than the fiscal year 1974 appropriation, but is a reduction of \$2,000,000 from the amount requested. The objective of this program is to explore and find ways to make the U.S. merchant fleet and the U.S. shipbuilding fleet more efficient and competitive.

OPERATIONS AND TRAINING

The sum of \$40,333,000 is included in the bill for administration and direction of the various maritime programs, as well as the cost of officer training at the U.S. Merchant Marine Academy and Federal financial support to State marine schools. This sum is \$3,506,000 more than the funds available for the current fiscal year. The increase is primarily for mandatory items and the facilities modernization program at the Merchant Marine Academy.

TITLE IV—THE JUDICIARY

The budget requests for the Federal Judiciary total \$313,238,600. These requests are submitted to the Congress without revision by the Office of Management and Budget, as directed by the Budget and Accounting Act of 1921, as amended.

The bill includes \$292,173,100 for these items, an increase of \$78,163,800 over the funds appropriated for fiscal year 1974. These appropriations provide funds for operating the Federal courts, including salaries of judges, judicial officers and employees, and other expenses of the Federal Judiciary.

SUPREME COURT OF THE UNITED STATES

The bill provides a total of \$6,777,100 for the six appropriation items under the Supreme Court. Although this amount is a decrease of \$144,200 from the total appropriations for the current fiscal year, it will provide for ten additional positions (lapsed at 25 percent); annualization of mandatory pay increases, within-grade salary increases, increased printing costs, continuation of the computer system now being installed, and other miscellaneous increases. The decrease is due to non-recurring costs in the fiscal year 1974 budget for care of the Supreme Court building.

The following table shows the amount recommended for each of the Supreme Court items:

Salaries.....	\$4, 450, 000
Printing and binding Supreme Court reports.....	565, 000
Miscellaneous expenses.....	642, 000
Automobile for the Chief Justice.....	16, 300
Books for the Supreme Court.....	63, 000
Care of the building and grounds.....	1, 040, 800
Total.....	6, 777, 100

¹ Includes reappropriation of \$371,500.

COURT OF CUSTOMS AND PATENT APPEALS

The sum of \$782,000 is included in the bill for salaries and expenses of the Court of Customs and Patent Appeals. This amount is an increase of \$105,000 over the current year appropriation and will permit the hiring of five additional technical advisors, one for each judge. The budget request included the additional positions on a full year basis. The amount allowed reflects a more realistic figure, lapsing those positions by 25 percent.

CUSTOMS COURT

The bill provides \$2,479,000 for salaries and expenses of the Customs Court, \$55,000 more than the funds provided for the current fiscal year.

COURT OF CLAIMS

The full amount of the budget estimate, \$2,341,000, is included in the accompanying bill for the salaries and expenses of the Court of Claims. This is an increase of \$147,000 over the funds appropriated to the Court for the current fiscal year.

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

The total amount recommended for the nine appropriation items under this heading is \$208,619,000. This amount is \$8,177,000 less than the budget requests of \$216,796,000, but is an increase of \$8,899,000 over the total appropriated for the current fiscal year.

SALARIES OF JUDGES

The bill includes \$27,975,000, the full amount requested for this item, which covers the salaries and benefits of all active circuit and district judges, and all justices and judges retired or resigned in pursuance of law, as well as annuities paid to widows of Supreme Court Justices.

SALARIES OF SUPPORTING PERSONNEL

The bill also includes \$96,400,000 to provide for supporting personnel required to assist judges in the conduct of hearings, trials, and other judicial functions and to staff the component offices of the courts, including the Federal Probation System.

The amount included will provide an increase of \$6,400,000 over the fiscal year 1974 appropriation. The increase is for annualization of

salary increases and additional personnel provided in fiscal year 1974, an extra compensable day, within-grade salary advancements, promotion plan for probation officers, reclassification of deputy clerks and assistant librarians, conversion of a part-time library assistant to full-time status, establishment of supervisory positions in the Courts of Appeals as requested, and half of the amount requested for salary adjustments for court reporters. Also included are funds for additional personnel as follows:

- 59 deputy clerks for district courts
- 320 probation officers

- 8 positions for the Fifth Circuit, plus conversion of 22 positions to permanent status
- 3 positions for Judicial Panel on Multidistrict litigation
- 24 positions for senior judges

REPRESENTATION BY COURT-APPOINTED COUNSEL AND OPERATION OF DEFENDER ORGANIZATIONS

The Committee recommends \$15,700,000 for the compensation and expenses of court-appointed counsel and for the operation of defender organizations.

This appropriation contains no funds for counsel appointed by judges of the District of Columbia Court of Appeals or by judges of the Superior Court of the District of Columbia. The District of Columbia budget for fiscal year 1975 includes a request of \$2,300,000 for counsel appointed by those courts. The request is now pending before the subcommittee on District of Columbia appropriations.

FEES OF JURORS

The bill includes \$18,500,000 for the payment of fees, expenses, and costs of jurors and for the compensation of jury commissioners. This sum is the full amount requested and is the same as the appropriation for the current fiscal year.

TRAVEL AND MISCELLANEOUS EXPENSES

The sum of \$15,200,000 is contained in the bill for expenses of travel and subsistence incurred by judges and supporting personnel in attending sessions of court or transacting other official business, and for equipment, lawbooks, supplies, and other expenses of operating the 94 district courts of the United States and the 11 courts of appeals.

The sum allowed is \$2,291,000 more than the amount available for the current fiscal year and includes funds for expenses associated with the new personnel in the appropriation for "Salaries of Supporting Personnel."

ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS

The bill provides \$5,090,000 for the expenses of the Administrative Office of the United States Courts, which, under the direction and supervision of the Judicial Conference of the United States, is responsi-

ble for the administration of the United States Courts, including the probation and bankruptcy systems.

The amount provided is \$882,000 more than the current year appropriation. It includes funds for 39 new positions as follows:

- 10 for an Office of Judicial Examination
- 3 for a Defender Unit
- 2 for the Office of the General Counsel

- 10 for the Business Administration Division

SALARIES AND EXPENSES OF UNITED STATES MAGISTRATES

SALARIES OF REFEREES

The sum of \$6,990,000 is included in the bill for the salaries of referees. These referees are appointed by the United States district courts, which are the courts of bankruptcy and are vested with original jurisdiction in proceedings brought under the bankruptcy statutes.

EXPENSES OF REFEREES

The bill includes \$14,000,000 for the expenses of referees, including compensation and benefits of clerical employees.

FEDERAL JUDICIAL CENTER

The bill provides \$2,400,000 for expenses of the Federal Judicial Center, which is charged with the responsibility for furthering the development and adoption of improved judicial administration in the courts of the United States. This amount is \$327,000 more than the appropriation for the current fiscal year.

SPACE AND FACILITIES, THE JUDICIARY

The bill provides \$66,100,000 for the rental of space, utilities, alterations, maintenance, and other tenant services for the United States Courts of Appeals and District Courts, the Court of Customs and Patent Appeals, the Customs Court, the Court of Claims, the Administrative Office of the United States Courts, and the Federal Judicial Center.

The original budget estimate for this purpose was informally reduced by the Judiciary from \$78,500,000 to \$72,600,000. The amount provided reflects a further reduction of ten percent in the standard level user charge levied by the General Services Administration.

The bill includes language authorizing the transfer of these funds to the General Services Administration, which would be responsible for administering the appropriation.

EXPENSES, UNITED STATES COURT FACILITIES

The sum of \$2,675,000 is included in the accompanying bill for the procurement of furniture and furnishings for United States court facilities.

The bill includes language authorizing the transfer of this appropriation to the General Services Administration, which would procure the furniture and furnishings as they have in the past.

TITLE V—RELATED AGENCIES

The Committee recommends a total of \$824,757,000 for the thirteen related agencies included in this title. This is \$227,580,000 more than the amounts appropriated to these agencies for fiscal year 1974. The increase is due primarily to the appropriation of additional capital to the revolving funds of the Small Business Administration.

ARMS CONTROL AND DISARMAMENT AGENCY

GENERAL STATEMENT

The bill provides a total of \$5,262,502,000 in new budget (obligational) authority for the fiscal year 1975, including \$40,990,000 in budget amendments not considered by the House. This sum is a decrease of \$190,297,600 (3.5 percent) under the amended budget estimates for 1975, is \$48,952,100 under the House allowance, and is \$544,504,700 over the adjusted appropriations for fiscal 1974. This increase is distributed as follows:

Impounded 1973 funds used to fund 1974 programs	\$60,181,000
Space rental and tenant charges imposed by GSA under new legislative authority	168,747,680
Nonrecurring 1974 costs	47,783,000
Uncontrollable increases	123,026,200
Subtotal	304,171,880
Controllable increases	240,332,820
Less: New capital for the SBA revolving funds	192,000,000
Net program increases 1975 over 1974	48,332,820

SPACE RENTAL CHARGES

The Committee concurs with the House in imposing a 10 percent reduction in the "standard level user charge" paid to the General Services Administration for space rental and other tenant services. In concurring in this reduction the Committee intends that payments from the agencies more closely approximate the estimated cost of the services to be provided. Accordingly, there should be no curtailment of services in fiscal 1975.

TITLE I--DEPARTMENT OF STATE

SUMMARY

1974 appropriation (adjusted)	\$678,952,000
1975 amended estimate	1,743,995,000
House allowance	698,784,000
Committee recommendation	706,726,000

ADMINISTRATION OF FOREIGN AFFAIRS

SALARIES AND EXPENSES

1974 appropriation (adjusted)	\$322,180,000
1975 estimate	352,000,000
House allowance	349,650,000
Committee recommendation	349,650,000

The Committee recommends a total of \$349,650,000, the House allowance, and \$2,350,000 under the budget, and an increase of \$27,470,000 over the adjusted appropriation for 1974. Almost one-half of the \$27,470,000 or approximately \$12,853,600 of this increase is for

payment to the General Services Administration. The balance is largely for annualization of positions previously allowed, within-grade salary increases, wage increases for foreign local employees, price increases due to inflation at home and abroad, increased consular workload overseas and other uncontrollable increases.

REPRESENTATION ALLOWANCES

1974 appropriation-----	\$1,200,000
1975 estimate-----	1,500,000
House allowance-----	1,350,000
Committee recommendation-----	1,350,000

For Representation Allowances, the Committee recommends \$1,350,000, the House allowance. The sum recommended is \$150,000 over the 1974 appropriation. The Committee was advised that this increase is due in part to the impact of inflation overseas on the costs of representational functions particularly with regard to food prices.

ACQUISITION, OPERATION, AND MAINTENANCE OF BUILDINGS ABROAD (Regular Program)

1974 appropriation (adjusted)-----	\$22,358,000
1975 estimate-----	22,914,000
House allowance-----	22,914,000
Committee recommendation-----	22,914,000

The Committee recommends \$22,914,000, the House allowance and budget estimate for the acquisition, operation and maintenance of buildings abroad. This sum is \$556,000 over the 1974 appropriation.

ACQUISITION, OPERATION, AND MAINTENANCE OF BUILDING ABROAD (Special Foreign Currency Program)

1974 appropriation (adjusted)-----	\$5,462,000
1975 estimate-----	4,870,000
House allowance-----	4,870,000
Committee recommendation-----	4,870,000

The Committee recommends \$4,870,000 for this item, the House allowance and budget estimate. The recommendation is \$592,000 below the 1974 appropriation.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

1974 appropriation-----	\$2,100,000
1975 estimate-----	2,100,000
House allowance-----	2,100,000
Committee recommendation-----	2,100,000

For this appropriation, the Committee recommends \$2,100,000 the same as the House allowance, the budget estimate and the same as the 1974 appropriation. This fund is used to provide relief and repatriation loans to American citizens abroad and for emergencies in the Department. The sum recommended is the same amount provided in the last four fiscal years.

PAYMENT TO FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

1974 appropriation (adjusted)-----	\$20,535,000
1975 estimate-----	20,535,000
House allowance-----	20,535,000
Committee recommendation-----	20,535,000

For Payment to the Foreign Service Retirement and Disability Fund the Committee recommends \$20,535,000 the full amount of the budget estimate. This sum is the same as approved by the House and the 1974 appropriation.

Included in the amount recommended is \$15,600,000, as required by law, to cover costs related to Agency for International Development career Foreign Service employees who are now covered under the Foreign Service Retirement Fund. This annual payment is required to cover the unfunded liability created in the Fund due to the transfer of AID employees.

The Committee believes that payments related to employees of the Agency For International Development should be included in the budget request for AID. However, for fiscal 1975, the Committee believes that the \$15,600,000 should be appropriated under this head since the sum was not requested in the budget for AID.

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

1974 appropriation (adjusted)-----	\$218,537,000
1975 estimate-----	214,079,000
House allowance-----	205,903,000
Committee recommendation-----	205,903,000

For Contributions to International Organizations the Committee recommends \$205,903,000. This sum represents a reduction of \$12,634,000 below the fiscal 1974 appropriation and \$8,176,000 below the budget request. The amount recommended is the same as approved by the House.

In October 1972 (P.L. 92-544, Oct. 25, 1972), the Congress established a maximum United States contribution of 25 percent of the total annual assessment of the United Nations and its affiliated agencies effective January 1974. This limitation applies to all these organizations except the International Atomic Energy Agency and the joint financing program of the International Civil Aviation Organization.

The Department has requested exemptions from this 25 percent limitation for the calendar year 1974 United States contributions to the World Health Organization, the United Nations Educational, Scientific and Cultural Organization and the regular program of the International Civil Aviation Organization.

The Committee believes that adequate notice was given in October 1972 that the United States contribution had to be reduced. Therefore the Committee does not concur in the Department's request for an exception for calendar year 1975. The Committee also notes that other member nations of each of the three organizations are in arrears in their contributions. Accordingly, the Committee has not recommended restoration of the \$8.2 million House reduction.

The following table shows the amount provided for contribution to each of the organizations covered in this appropriation item:

MISSIONS TO INTERNATIONAL ORGANIZATIONS

1974 appropriation.....	\$5,951,000
1975 estimate.....	6,660,000
House allowance.....	6,600,000
Committee recommendation.....	6,600,000

For Missions to seven International Organizations the Committee recommends \$6,600,000 as well as the expenses of Congressional delegations to four international parliamentary groups in fiscal year 1975. The sum recommended is the House allowance, is a reduction of \$60,000 in the budget estimate and is an increase of \$649,000 over the sum appropriated for 1974. The Committee concurs with the House in denying the sum of \$22,000 for a proposed increase for the rental of quarters in the Waldorf Astoria in New York.

The following table sets forth the amount for each of the missions and each of the delegations funded:

United States Mission to:	
United Nations.....	\$2,422,700
International Organizations, Geneva.....	2,346,900
International Organizations, Vienna.....	669,100

INTERNATIONAL CONFERENCES AND CONTINGENCIES

1974 appropriation.....	\$6,200,000
1975 estimate.....	6,400,000
House allowance.....	6,400,000
Committee recommendation.....	6,400,000

The Committee recommends \$6,400,000 for International Conferences and Contingencies, the full amount of the budget estimate and the sum approved by the House.

As the Committee stated last year in its 1974 Report, No. 93-390, the Department of State should assume responsibility for funding all official delegations to conferences under this head. During its hearings the Committee determined that other departments and agencies are still financing the expenses of delegates and observers from their appropriations. The Committee was informed that only one-half of the United States conference delegations are financed from this appropriation. This hampers the Department's ability to maintain tight conference control and guidance over these conference activities.

The Committee expects the Department to request, for fiscal 1976, full funding for United States participation in these multilateral international conferences. This will permit the Committee to evaluate the management of these activities on a government-wide basis. Increased costs to provide adequate funds for this purpose will be more than offset by reductions in other department and agency appropriations.

INTERNATIONAL TRADE NEGOTIATIONS

1974 appropriation (adjusted).....	\$1,744,000
1975 estimate.....	2,465,000
House allowance.....	2,000,000
Committee recommendation.....	2,000,000

For International Trade Negotiations, the Committee recommends \$2,000,000, the House allowance and a reduction of \$465,000 below the budget estimate, and is \$256,000 over the 1974 appropriation. The sum recommended will be used to finance United States participation in multilateral trade negotiations.

INTERNATIONAL COMMISSION OF CONTROL AND SUPERVISION

1975 budget amendment (S. Doc. 93-88).....	\$27,726,000
House allowance.....	(1)
Committee recommendation.....	5,658,000

¹ Not considered by House.

For a new appropriation, for the International Commission of Control and Supervision, Viet-Nam, the Committee recommends \$5,658,000, a reduction in the Budget amendment of \$22,068,000. Of this sum, \$11,200,000 was to reimburse the Agency for International Development by the Department of State for money advanced in fiscal 1974 by AID to pay the United States contribution to the Commission. The Committee was informed that this advance was made largely from the contingency fund available to AID, which is an annual appropriation. This request is not authorized. However, S. 3562, introduced by request to authorize the full amount, in addition to authorizing the reimbursement of fiscal 1974 funds to AID, also provides that the \$11,200,000 may be credited to applicable appropriations of AID and shall be available for the fiscal 1975. This provision in the authorizing bill, if approved, would in effect increase the budget for AID by \$11,200,000, without reference to the two subcommittees on appropriations for Foreign Operations.

The amount recommended is to provide only the U.S. share of the Commission cost. It does not include any funds for the shares of North Viet-Nam or the Peoples Revolutionary Government as requested in the amendment.

To effectuate the Committee's recommendation, the following language has been included in the bill:

For payments by the United States to meet expenses of the International Commission of Control and Supervision in Viet-Nam, \$5,658,000.

As stated above, this request is not authorized. Accordingly, the Committee has included the following proviso in the bill:

Provided, That this appropriation shall not be available for obligation except upon enactment into law of authorizing legislation.

INTERNATIONAL COMMISSIONS

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO: SALARIES AND EXPENSES

1974 appropriation (adjusted).....	\$4,595,000
1975 estimate.....	4,701,000
House allowance.....	4,701,000
Committee recommendation.....	4,701,000

The Committee recommends \$4,701,000 for Salaries and Expenses, International Boundary and Water Commission, United States and Mexico. The sum recommended is the House allowance and budget estimate and is an increase of \$106,000 over the 1974 appropriation. The purpose of the Commission is to solve boundary problems which require joint engineering action.

CONSTRUCTION

1974 appropriation.....	\$3,800,000
1975 estimate.....	7,731,000
House allowance.....	6,231,000
Committee recommendation.....	6,231,000

For the construction program of the International Boundary and Water Commission the Committee recommends \$6,231,000, the House allowance and a reduction in the budget estimate of \$1,500,000. The recommendation contains \$5,950,000 for the Lower Rio Grande Flood Control Improvement Program and \$281,000 related to settlement of boundary disputes. The Committee was informed that there are still some problems on rights of way which have delayed the Tijuana River Flood Control Project for several years. Therefore the Committee has concurred with the House in recommending deletion of funds for this project at this time. The Department did not appeal this item.

AMERICAN SECTIONS, INTERNATIONAL COMMISSIONS

1974 appropriation (adjusted).....	\$1,003,000
1975 estimate.....	1,370,000
House allowance.....	1,300,000
Committee recommendation.....	1,370,000

For American Sections, International Commissions, the Committee recommends \$1,370,000, the budget estimate and an increase over the House allowance of \$70,000. The reduction was applied by the House to the International Joint Commission.

The primary increase in the International Joint Commission's budget request is \$266,000 for their new Regional Office in Windsor, Ontario. This is a new activity and the increase will enable the Com-

mission to meet its responsibilities for administrative support of United States-Canadian agreed programs for Great Lakes water quality, data acquisition and surveillance. Because the expenses of the Regional Office are shared equally by the United States and Canada, a reduction of \$70,000 in the United States contribution results in an overall reduction of \$140,000 or 16.5 percent of the funds necessary to finance the activities of the Commission's Windsor office.

INTERNATIONAL FISHERIES COMMISSIONS

1974 appropriation (adjusted)-----	\$3, 575, 000
1975 estimate-----	4, 030, 000
House allowance-----	4, 030, 000
Committee recommendation-----	4, 030, 000

The Committee recommends \$4,030,000 for the International Fisheries Commissions, the House allowance and budget estimate. This sum is \$455,000 over the adjusted 1974 appropriation. These Commissions determine and undertake or recommend measures necessary for the preservation and expansion of fishing resources.

The following table sets forth the amount allowed for each of the Commissions:

International Pacific Halibut Commission-----	\$325, 000
International Pacific Salmon Fisheries Commission-----	653, 700
Inter-American Tropical Tuna Commission-----	709, 000
International Commission for the Northwest Atlantic Fisheries-----	9, 000

Committee recommendation-----	55, 000, 000

For Mutual Educational and Cultural Exchange Activities, the committee recommends \$55,000,000, the House allowance, a reduction in the budget estimate of \$2,500,000 and an increase of \$4,413,000 over the 1974 adjusted appropriation.

CENTER FOR CULTURAL AND TECHNICAL INTERCHANGE BETWEEN EAST AND WEST

1974 appropriation-----	\$6, 925, 000
1975 estimate-----	7, 414, 000

For the Center for Cultural and Technical Interchange between East and West, the Committee recommends \$7,414,000, the budget estimate, an increase over the House of \$214,000 and an increase of \$489,000 over the 1974 appropriation.

This sum is a reduction of \$636,000 under the budget estimate and is an increase of \$4,516,000 over the adjusted appropriation for fiscal 1974. This appropriation provides funds for program direction, policy coordination, administrative review and appeals, support of legal activities and \$2,804,000 for the Watergate Special Prosecution Force. The sum recommended will also provide five additional positions for the Board of Immigration Appeals, as well as, the uncontrollable items requested.

The Committee concurs with the House in allowing 12 additional positions for the Civil Division, 2 additional positions for the Solicitor General, and 2 additional positions for the Office of Legal Counsel. The total recommended also reflects the transfer in fiscal 1974 of certain activities to the Equal Employment Opportunity Commission.

The Committee recommends that the following language be included under this head in the bill:

not to exceed \$30,000 for expenses of collecting evidence to be expended under the direction of the Attorney General and accounted for solely on his certificate;

The Committee concurs with the House in denying the budget proposal to consolidate the appropriations for the "Antitrust Division" and "U.S. Attorneys and Marshals" with the "General Legal Activities" appropriation. The Committee agrees that these are distinctly different activities and should be carried in separate appropriation accounts.

SALARIES AND EXPENSES, ANTITRUST DIVISION

1974 appropriation (adjusted)-----	\$14,790,000

The \$120,000 reduction in the budget estimate represents a 10 percent reduction in the standard level user charge imposed by GSA for space rental and tenant services.

SALARIES AND EXPENSES, U.S. ATTORNEYS AND MARSHALS

1974 appropriation (adjusted)-----	\$108,050,000
1975 estimate-----	129,952,000

This sum, the House allowance, is a reduction of \$3,352,000 under the budget estimate and is an increase of \$18,550,000 over the adjusted appropriation for 1974. Of the reduction of \$3,352,000, the sum of \$1,212,000 represents the 10 percent reduction by the House in the standard level user charge to be transferred to GSA for space rental and other services. The Committee concurs in the House allowance of 44 additional positions for the U.S. Marshals Service and 120 additional positions for U.S. Attorneys (56 attorneys and 64 support personnel).

The Community Relations Service was established by the Civil Rights Act of 1964, to provide assistance to communities in resolving disputes, disagreements and difficulties arising from discriminatory practices which disrupt peaceful relations among citizens, and also where efforts are being made to eliminate disparities between groups, to achieve compliance with the Civil Rights Act, and to reduce and prevent racial disorders.

This increase includes funds for 25 additional clerks, the cost of moving into the new J. Edgar Hoover FBI Building, increased costs for the FBI Academy at Quantico, Virginia, additional equipment costs, and uncontrollable increases such as annualization of mandatory pay increases and a net payment to GSA for space rental and other tenant services totaling \$19,903,000.

Committee recommendation-----	176,350,000

¹ Includes \$3,700,000 contained in S. Doc. 93-101, not considered by House.

For the Immigration and Naturalization Service, the Committee recommends \$176,350,000 and 100 additional new positions (lapsed 50 percent) for the Border Patrol. The 100 positions when added to

the House allowance of 50 new positions will provide a total of 150 positions. The sum recommended is \$1,000,000 over the House allowance, \$7,750,000 under the budget and an increase of \$22,646,000 over the adjusted appropriation for 1974. This increase in addition to funding the 150 new positions, will provide for certain equipment purchases, increased detention and deportation costs, construction and repairs, as well as the annualization of 300 additional positions which were provided in the First Supplemental Appropriation Act of 1974, and other uncontrollable increases.

During its hearings the Committee was informed by the Commissioner of the Immigration Service that approximately 99 percent of the illegal aliens entering the United States do so to secure gainful employment at wages higher than those prevailing in their country of origin. To assist in curtailing this situation, the Committee urges the Senate Judiciary Committee to expedite its consideration of legislation, which has passed the House, and which would make it unlawful for an employer to knowingly employ an alien illegally in this country.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES, BUREAU OF PRISONS

1974 appropriation (adjusted).....	\$143,374,000
1975 estimate.....	172,500,000
House allowance.....	169,000,000
Committee recommendation.....	169,000,000

For Salaries and Expenses, Bureau of Prisons, the Committee recommends \$169,000,000, the House allowance, a reduction of \$3,500,000 below the budget estimate and an increase of \$25,626,000 over the adjusted 1974 appropriation. This increase will provide additional funds for per capita care, narcotic addict treatment programs, inmate education programs, mental health programs, annualization of pay increases, and annualization of positions authorized in fiscal 1974. Also included in the increase are funds for the activation of four new facilities—the San Diego Metropolitan Correctional Center, the Chicago Metropolitan Correctional Center, the Miami Youth Center, and the San Diego Youth Center.

The \$3,500,000 reduction in the budget estimate is due to delays in the activation of the new facilities and the general reduction of ten percent in the request in rental costs to be paid to the General Services Administration.

BUILDINGS AND FACILITIES

1974 appropriation.....	\$14,800,000
1975 estimate.....	53,200,000
House allowance.....	53,200,000
Committee recommendation.....	13,850,000

For Buildings and Facilities the Committee recommends \$13,850,000 a reduction of \$39,350,000 below the budget estimate and House allowance and a reduction of \$950,000 below the 1974 appropriation.

The reduction in the budget estimate of \$39,350,000 is comprised of the following items: planning and site acquisition of a Northeast adult facility, \$2,550,000; construction of a Northeast youth complex, \$25,510,000; and construction of a Southeast youth complex \$11,290,000. During its hearing the Committee heard extensive testimony from concerned citizens on the need for a moratorium on funding new prison construction by the Federal Government so as to determine the possibilities of placing greater emphasis on rehabilitation of prisoners rather than incarceration. The Committee recognizes that some prisoners cannot be rehabilitated for a variety of reasons. However the Committee was informed that approximately 75 percent of the prison population at any one time can be rehabilitated, if the prison system uses existing and newly developing methods and techniques. For these reasons the Committee is recommending that the \$39,350,000 contained in the budget for planning, site acquisition and construction be deleted.

SUPPORT OF U.S. PRISONERS

1974 appropriation.....	\$21,500,000
1975 amended estimate.....	¹ 26,200,000
House allowance.....	24,700,000
Committee recommendation.....	¹ 26,200,000

¹ Includes \$1,500,000 contained in S. Doc. 93-89, not considered by House.

For Support of U.S. Prisoners, the Committee recommends \$26,200,000, the amended budget estimate, an increase over the House allowance of \$1,500,000 and an increase of \$4,700,000 over the 1974 appropriation. The increase over the House is due to a budget amendment, not considered by the House, to cover a deficit incurred in 1974. In connection with this matter, the Committee recommends the following language for inclusion in the bill:

: Provided, That not to exceed \$1,500,000 shall be available for expenses incurred in the fiscal year 1974.

The Committee was informed that the average daily per capita cost for detention of prisoners was originally estimated at \$9.38 but that local jurisdictions that provide facilities for temporary detention of U.S. prisoners are negotiating increases between 15 and 90 percent over the level originally projected.

LAW ENFORCEMENT ASSISTANCE ADMINISTRATION

SALARIES AND EXPENSES

1975 estimate.....	886,400,000

Committee recommendation.....	880,000,000

For the Law Enforcement Administration the Committee recommends \$880,000,000, the House allowance, a reduction of \$6,400,000 in the budget estimate but an increase of \$9,325,000 over the 1974 appropriation. This increase includes \$5,000,000 additional for planning grants. Following is a distribution of the House allowance:

3. Aid for correctional institutions and programs (part E) -----	113,000,000
4. Technical assistance -----	14,000,000
5. Technology analysis, develop, and dissemination -----	42,500,000
6. Manpower development -----	44,500,000

8. Management and operations -----	21,000,000
Total -----	880,000,000

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

1974 appropriation (adjusted) -----	\$112,664,000
1975 estimate -----	140,775,000
House allowance -----	135,000,000
Committee recommendation -----	135,000,000

For the Drug Enforcement Administration the Committee recommends the House allowance of \$135,000,000 which sum is a reduction of \$5,775,000 below the budget estimate but an increase of \$22,336,000 over the 1974 adjusted appropriation. This increase includes funds for uncontrollable increases such as annualization of positions, increased pay costs and a net transfer of \$6,330,000 to GSA for space rental and other tenant services.

On August 5, 1974, the building housing the DEA Regional Office and Laboratory in Miami, Florida physically collapsed. Seven DEA employees died in this tragedy and a number of people were injured. In the aftermath, it has become necessary to relocate the Regional Office and the Regional Laboratory, first into temporary quarters to continue operations, and later this fiscal year into new permanent locations.

On August 8, 1974, the Department requested that \$2,841,000 be made available within the sum reduced by the House and not appealed. The Committee is fully aware of the need for additional funds. However, the Committee believes that this request should be processed through the normal budgetary channels and has instructed the Department to request the Office of Management and Budget to submit a supplemental budget estimate in whatever amount is finally determined to be needed. In the meantime, the budgetary apportionment process will temporarily provide funding for DEA's immediate needs.

GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

Section 203, the language of which has been carried in the bill under General Provisions for several years, requires that from moneys on deposit in the U.S. Treasury to the credit of the District of Columbia, there shall be transferred to the General Fund of the Treasury, 53 percent of the total annual cost of U.S. Attorneys and U.S. Marshals

serving in the District of Columbia, for services rendered the District. The transfer has no effect on the annual total appropriations for U.S. Attorneys and U.S. Marshals. Reimbursement to the Treasury from District funds has been made pursuant to an estimate furnished by the Department of Justice as to the dollar amount necessary to equal 53 percent. The D.C. Appropriation Act of 1975 carries a proviso limiting the amount that can be reimbursed to the United States to \$1,159,800.

Therefore, in order to bring Section 203, which carries a percentage limitation, in conformance with the dollar limitation included in the 1975 D.C. Appropriation Act, the Committee has added a proviso reading as follows:

: Provided, That notwithstanding the provisions of this section, not to exceed \$1,159,800 from any funds in the Treasury of the United States to the credit of the District of Columbia shall be available for reimbursement to the United States pursuant to this section.

The Committee has been informed that contained in the D.C. Budget was the sum of \$5,732,500. This estimate is being reduced by \$4,572,694 to offset overpayments in 1971 (\$676,803), 1972 (\$1,898,363) and 1973 (\$1,997,528) when the 75 percent requirement was in effect.

The Committee had before it Senate Amendment No. 1612 introduced on July 25, 1974, and referred to the Committee. This amendment would preclude the Department of Justice from using appropriated funds in this bill for installation and maintenance of wiretaps which do not have the prior authorization of a judicial warrant.

The Committee after discussion reached the conclusion that this amendment should be referred to the Senate for its consideration and decision.

For Administration of Economic Development Assistance Programs the Committee recommends \$17,625,000, the House allowance and a reduction of \$162,000 below the budget estimate. \$7,005,000. The reduction of \$13,000 is due entirely to the 10 percent reduction in funds requested for the assessment by the General Services Administration for space rental and tenant services. A distribution of the allowance for each commission follows:

Coastal Plains.....	\$5,155,000
Four Corners.....	5,155,000

This is \$5,300,000 over the 1974 appropriation, \$500,000 over the House, and \$521,000 under the budget. The Committee concurs with the House in not considering \$39,527,000 included in the budget for the Community Development Corporation program now a part of the Office of Economic Opportunity and scheduled for transfer to the Department of Commerce. Legislation to authorize the transfer has not been enacted.

The reduction of \$1,000,000 recommended by the Committee will be more than offset by an unplanned carryover of \$6,000,000 and available for obligation in fiscal 1975. This carryover together with the sum recommended will provide total obligational authority in 1975 of \$58,000,000 compared with a request of \$55,374,000.

The travel promotion programs are now concentrated in Canada, Mexico, the United Kingdom, France, West Germany and Japan. These are the countries which the Travel Service has determined to have the greatest potential for producing tourism revenue for the United States.

It is the intent of the Committee that none of the reduction shall be applied to the State and local matching grant program.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

1974 appropriation (adjusted).....	\$367,001,000
1975 amended estimate.....	¹ 499,507,000

The Committee recommends an appropriation of \$434,300,000. This is \$67,299,000 over the 1974 appropriation, \$2,000,000 under the House allowance and \$15,207,000 under the budget. Of the increase over 1974, \$30,584,000 is to maintain programs that were funded in 1974 with 1973 budget authority that had been impounded.

The Committee directs that \$500,000 of the amount recommended in this appropriation shall be used to initiate a marine ecosystem analysis project for Puget Sound in the State of Washington.

The Committee has included language in the bill to require NOAA to make available, not to exceed \$500,000, from available funds for use by the Atlantic States Marine Fisheries Commission, the Gulf States Marine Fisheries Commission and the Pacific Marine Fisheries Commission to conduct comprehensive research, looking toward revitalizing the commercial and sport fisheries industries. The Committee has included the following language in the bill:

: Provided further, That the sum of \$500,000 shall be made available to the following Commissions for fact gathering leading to the development of a national fisheries policy: the Atlantic States Marine Fisheries Commission, \$175,000; the Gulf States Marine Fisheries Commission, \$200,000; and the Pacific Marine Fisheries Commission, \$125,000;

The Special Energy Research and Development Appropriation Act, 1975 (P.L. 93-322, approved June 30, 1974) appropriated \$6,630,000 for "Operations, Research and Facilities". To eliminate the necessity of the Treasury maintaining two accounts, because appropriations for the same account are contained in two different general appropriation acts, the Committee has included the following proviso:

Provided further, That the amount appropriated for "Operations, Research and Facilities" in the Special Energy Research and Development Appropriation Act, 1975 (P.L. 93-322, approved June 30, 1974) shall be merged without limitation with this appropriation.

This appropriation, authorized by P.L. 92-583, approved October 27, 1972, provides for developmental grants to States for the planning and management of their coastal areas.

For the Administration of the Pribilof Islands the Committee recommends \$3,937,000, the House allowance and budget estimate an increase of \$339,000 over the adjusted 1974 appropriation. The sum recommended will provide for management of the Alaska fur seal herd, for furnishing schooling and other community services and for maintenance and operation of a supply vessel.

1974 appropriation (adjusted).....	\$101,000
1975 estimate.....	125,000
House allowance.....	61,000

The Committee recommends \$61,000 for the Fishermen's Guaranty Fund which is the House allowance and is a reduction below the budget estimate of \$64,000, and a reduction of \$40,000 below the 1974 appropriation. This appropriation plus fees collected from vessel owners provide for payment to such owners and their crews for certain financial losses sustained as a result of seizure of United States fishing vessels by foreign countries.

OPERATIONS, RESEARCH, AND ADMINISTRATION

OPERATIONS, RESEARCH, AND ADMINISTRATION

1974 appropriation (adjusted).....	\$65,232,000
1975 estimate.....	65,835,000
House allowance.....	60,400,000
Committee recommendation.....	62,150,000

The Committee recommends an appropriation of \$62,150,000 for operation of the National Bureau of Standards, the National Technical Information Service, and the Office of Telecommunications. This amount is \$3,082,000 below the 1974 appropriation, \$1,750,000 above the House allowance and \$3,685,000 below the budget. A carryover of unobligated balances estimated at \$6,797,000, together with the Committee increase of \$1,750,000 will permit a program level of \$68,947,000, a reduction of \$3,647,000 below the 1975 program level requested. The increase over the House allowance will provide for improvement of the ability of the Federal Government to better utilize computers (\$1,000,000); for the development of methods to insure safe use of radioactive materials and X-ray equipment (\$250,000); and to continue the program of replacement of general laboratory equipment (\$500,000). The allowance includes \$320,000 for computer security programs, a nincrease of \$100,000 over the amount provided in the 1974 appropriation.

1975 estimate.....	275,000,000
House allowance.....	275,000,000
Committee recommendation.....	260,000,000

For Ship Construction, the Committee recommends a total of \$260,000,000, a reduction of \$15,000,000 below the budget estimate, the House allowance and the 1974 appropriation.

The proposed reduction would be offset by an unplanned unobligated balance of \$11,470,000. The proposed appropriation of \$260,000,000, together with a planned unobligated balance of \$5,500,000 and the unplanned unobligated balance will provide a total program level of \$276,970,000 for 1975, compared with the proposed program level of \$280,500,000 and will provide subsidies for four tankers, four very large crude oil carriers and four liquified natural gas carriers.

None of these funds are authorized. H.R. 13296 passed the House on June 4, 1974. This bill is pending in the Senate Committee on Commerce. Accordingly, the Committee has included the following language under General Provisions, Department of Commerce:

Sec. 305. None of the funds appropriated in this title for the Maritime Administration shall be available for obligation for ship construction, operating-differential subsidies, research and development, nor operations and training, except upon enactment into law of authorizing legislation.

This sum is the same as the House allowance, is a reduction \$129,000 under the budget, but is an increase of \$3,506,000 over the 1974 adjusted appropriation.
