MEMORANDUM FOR THE PRESIDENT
FROM: JIM CANNON *Jane*
SUBJECT: Enrolled Bill H.R. 6387 - 90-day
Extension of Federal Insecticide
Authority

Attached for your consideration is H.R. 6387, sponsored by Representatives Foley and Wampler, which extends the Federal Insecticide, Fungicide, and Rodenticide Act for three months by authorizing appropriations of \$11,967,000 for the period July 1 - September 30, 1975.

Additional information is provided in OMB's enrolled bill report at Tab A.

OMB, Max Friedersorf, Phil Buchen (Lazarus), Bill Seidman and I recommend approval of the enrolled bill.

RECOMMENDATION

That you sign H.R. 6387 at Tab B.

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

JUN 27 1975

MEMORANDUM FOR THE PRESIDENT

Subject: Enrolled Bill H.R. 6387 - 90-day extension of
Federal Insecticide Authority
Sponsors - Rep. Foley (D) Washington, and
Rep. Wampler (R) Virginia

Last Day for Action

July 7, 1975 - Monday

Purpose

Extends the Federal Insecticide, Fungicide, and Rodenticide Act for three months by authorizing appropriations of \$11,967,000 for the period July 1 - September 30, 1975.

Agency Recommendations

Office of Management and Budget	Approval
Council on Environmental Quality	Approval
Department of Agriculture	Approval (Informally)
Environmental Protection Agency	No objection (Informally)

Discussion

The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) is the basic authority under which the Environmental Protection Agency regulates the production and use of pesticides. The enrolled bill would authorize appropriations of \$11,967,000 to implement the Act from July 1 to September 30, 1975.

The Administration sponsored legislation to extend the Act to September 30, 1977, by authorizing appropriations of \$47,868,000 for fiscal 1976 and \$47,200,000 for fiscal 1977. The amount that would be authorized by the enrolled bill is exactly one-fourth of the amount requested by the Administration for all of fiscal year 1976.

For many years, the Department of Agriculture was responsible for national regulation of pesticides, but this function was transferred to EPA in 1970. In 1972, the FIFRA was amended to give EPA new authority to register or reregister pesticides, classify their uses, enable States to certify the competency of persons who would apply certain restricted chemicals and control experimental uses. Regulations to cover those matters are either in effect or being proposed, but, under the terms of the Act, will not become fully effective or enforceable until October 1976.

Several issues with regard to EPA's interpretation of the Act were raised in hearings held in May by the Agriculture committees of both Houses. A number of amendments to the Act were proposed by members of the House committee, but, finding that it would not be possible to give adequate consideration to the issues before the Act expired on June 30, that committee reported out the enrolled bill instead, and the Senate committee concurred with that action.

This Office and the two concerned Departments will monitor developments in those two committees during the next 90 days. We anticipate having sufficient support for a simple two year extension, but will take into account any concerns identified in Congressional deliberations.

James F. C. Hyde, Jr.

Attached is the EPA views letter on H.R. 6387. Please have included in the enrolled bill file. Thanks.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

July 1, 1975

OFFICE OF THE
ADMINISTRATOR

Dear Mr. Lynn:

This is in response to your request for a report on enrolled bill H.R. 6387, "To extend the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for three months."

The bill would authorize the appropriation of \$11,967,000 to carry out the provisions of the Act from July 1 to September 30, 1975.

The Environmental Protection Agency recommends that the President sign the enrolled bill into law.

While the enrolled bill does not provide the two years' extension contained in the Administration bill sent to the Congress on April 17, 1975 and introduced as H.R. 6387 and S. 1629, it authorizes appropriation of a sum which is equivalent to a quarter of the amount requested for the next fiscal year, enabling us to continue at full strength while the Congress completes its evaluation of our program.

Sincerely yours,

A handwritten signature in cursive script that reads "John R. Quarles, Jr.".

MEMORANDUM FOR THE PRESIDENT

Subject: Enrolled Bill H.R. 6387 - 90-day extension of
Federal Insecticide Authority
Sponsors - Rep. Foley (D) Washington, and
Rep. Wampler (R) Virginia

Last Day for Action

July 7, 1975 - Monday

Purpose

Extends the Federal Insecticide, Fungicide, and Rodenticide Act for three months by authorizing appropriations of \$11,967,000 for the period July 1 - September 30, 1975.

Agency Recommendations

Office of Management and Budget	Approval
Council on Environmental Quality	Approval
Department of Agriculture	Approval (Informally)
Environmental Protection Agency	No objection (Informally)

Discussion

The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) is the basic authority under which the Environmental Protection Agency regulates the production and use of pesticides. The enrolled bill would authorize appropriations of \$11,967,000 to implement the Act from July 1 to September 30, 1975.

The Administration sponsored legislation to extend the Act to September 30, 1977, by authorizing appropriations of \$47,868,000 for fiscal 1976 and \$47,200,000 for fiscal 1977. The amount that would be authorized by the enrolled bill is exactly one-fourth of the amount requested by the Administration for all of fiscal year 1976.

For many years, the Department of Agriculture was responsible for national regulation of pesticides, but this function was transferred to EPA in 1970. In 1972, the FIFRA was amended to give EPA new authority to register or reregister pesticides, classify their uses, enable States to certify the competency of persons who would apply certain restricted chemicals and control experimental uses. Regulations to cover those matters are either in effect or being proposed, but, under the terms of the Act, will not become fully effective or enforceable until October 1976.

Several issues with regard to EPA's interpretation of the Act were raised in hearings held in May by the Agriculture committees of both Houses. A number of amendments to the Act were proposed by members of the House committee, but, finding that it would not be possible to give adequate consideration to the issues before the Act expired on June 30, that committee reported out the enrolled bill instead, and the Senate committee concurred with that action.

This Office and the two concerned Departments will monitor developments in those two committees during the next 90 days. We anticipate having sufficient support for a simple two year extension, but will take into account any concerns identified in Congressional deliberations.

Washington, D.C. 20503

Dear Mr. Lynn:

In reply to the request of your office, the following report is submitted on the enrolled enactment, H.R. 6387, "To extend the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for three months."

This Department recommends that the President approve the bill.

The bill would permit the Environmental Protection Agency to carry out its functions under FIFRA while the House Committee on Agriculture and the Senate Committee on Agriculture and Forestry consider changes in the Act that have been proposed by their members.

Sincerely,

A handwritten signature in cursive script that reads "J. Phil Campbell".

No. 94-212 }

INTERIM EXTENSION OF FIFRA

June 19 (legislative day June 6), 1975.—Ordered to be printed

Mr. TALMADGE, from the Committee on Agriculture and Forestry, submitted the following

REPORT

[To accompany H.R. 6387]

The Committee on Agriculture and Forestry, to which was referred the bill (H.R. 6387) to extend the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for 3 months, having considered the same, reports favorably thereon without amendment and recommends that the bill do pass.

SHORT EXPLANATION

H.R. 6387 provides an authorization of appropriations in the sum of \$11,967,000 to carry out the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) during the three-month period, July 1, 1975, through September 30, 1975.

BACKGROUND AND NEED

The authorization for appropriations under the Federal Insecticide, Fungicide, and Rodenticide Act expires on June 30, 1975.

To provide for the continuation of the authorization for appropriations, companion bills S. 1629 and H.R. 6387 were introduced at the request of the Environmental Protection Agency (EPA) to extend the authorization period to September 30, 1977, at the levels of \$47,868,000 for fiscal year 1976 and \$47,200,000 for fiscal year 1977.

At hearings on May 20, 1975, the Committee on Agriculture and Forestry received testimony on S. 1629 from the Environmental Protection Agency; the U.S. Department of Agriculture; representatives of the State departments of agriculture of a number of States; and representatives from farm organizations, trade associations, industry, and public interest groups. There was virtually unanimous agreement among the witnesses that the basic features of FIFRA are appropriate and that the authorization of appropriations should be extended.

However, several issues did emerge in regard to the administration and interpretation of the act.

Serious questions were raised in reference to the procedures and timeliness of pesticide registration, applicator certification, experimental use permits, cancellation and suspension procedures, the indemnity provision, and the interpretation of "inconsistent" uses.

A parallel situation developed in the hearings conducted on H.R. 6387 by the House Committee on Agriculture. As a result of the House hearings, a number of amendments were proposed by members of the House Committee on Agriculture in an effort to resolve many of the issues. According to its report on H.R. 6387, the House Committee on Agriculture determined in its deliberations that it would be impossible to consider adequately all the issues involved and still meet the June 30 deadline. Therefore, the House Committee on Agriculture amended H.R. 6387 to provide for a three-month extension with a funding authorization at one-fourth of the amount for fiscal year 1976 in the bill as introduced.

The Committee on Agriculture and Forestry agrees that this approach is appropriate. The three-month extension will enable EPA to continue its implementation of FIFRA without undue interruptions while providing Congress adequate time to assess the issues and consider the various alternatives proposed to remedy these issues.

ADMINISTRATION VIEWS

On May 20, 1975, Mr. James L. Agee, Assistant Administrator for Water and Hazardous Materials of EPA, testified in favor of extending the authorization for appropriations for FIFRA for 2 years as contained in S. 1629 and H.R. 6387, as originally introduced. Mr. Robert W. Long, Assistant Secretary of Agriculture for Conservation, Research and Education, of the Department of Agriculture also testified on May 20 in favor of extending FIFRA for 2 years.

Subsequently, on June 10, 1975, Mr. John Quarles, Deputy Administrator of EPA, testified before the House Committee on Agriculture that EPA had no objection to a 3-month extension.

COST ESTIMATE

In accordance with section 252 of the Legislative Reorganization Act of 1970, the committee estimates that the costs to be incurred by the Federal Government in carrying out the bill during the 3-month period July 1, 1975, through September 30, 1975, would be \$11,967,000. The bill does not provide an authorization for activities under FIFRA beyond September 30, 1975. Thus, no cost would be incurred under the bill beyond that date.

CHANGES IN EXISTING LAW

In compliance with subsection (4) of rule XXIX of the Standing Rules of the Senate, changes in existing law made by the bill are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman) :

THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

* * * * *

SEC. 27. AUTHORIZATION FOR APPROPRIATIONS.

There is authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act for each of the fiscal years ending June 30, 1973, June 30, 1974, and June 30, 1975. The amounts authorized to be appropriated for any fiscal year ending after June 30, 1975, shall be the sums hereafter provided by law. *There is hereby authorized to be appropriated to carry out the provisions of this Act for the period beginning July 1, 1975, and ending September 30, 1975, the sum of \$11,967,000.*

○

INTERIM EXTENSION OF FIFRA

JUNE 12, 1975.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. FOLEY, from the Committee on Agriculture, submitted the following

REPORT

[To accompany H.R. 6387]

The Committee on Agriculture, to whom was referred the bill (H.R. 6387), to extend the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for 2 years, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

The amendment is as follows:

Page 1, line 9, strike out lines 6 through 9 and insert in lieu thereof the following:

There is hereby authorized to be appropriated to carry out the provisions of this Act for the period beginning July 1, 1975, and ending September 30, 1975, the sum of \$11,967,000.

and amend the title to read as follows:

To extend the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for three months.

PURPOSE

H.R. 6387, as amended by the Committee on Agriculture, provides an authorization of appropriations for the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for a 3-month period at \$11,967,000, one-fourth of the rate that had been proposed for fiscal year 1976 by the bill as originally introduced.

NEED FOR THE LEGISLATION AND COMMITTEE CONSIDERATION

The authorization for appropriations under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, expires on June 30, 1975.

H.R. 6387 was introduced to extend the authorization through September 30, 1977, with an authorization of \$47,868,000 for the fiscal year ending June 30, 1976, and \$47,200,000 for the fiscal year ending September 30, 1977.

Extensive hearings were held on the bill. The hearings were held during the week of May 12 through 16, 1975, and the Committee continued its consideration of the bill on June 3, 5, 9, 10, and 11, 1975. During the hearings testimony was received from the environmental Protection Agency, U.S. Department of Agriculture, representatives of National Association of State Departments of Agriculture, and the State Departments of Agriculture of a number of States, from farm organizations, trade associations, industry and public interest groups. Many of the spokesmen at the hearings voiced complaints concerning administration of the Act. The hearings gave rise to a number of controversial issues surrounding the administration of the Act, resulting in a number of amendments being prepared by various Members of the Committee.

When it became apparent that the issues could not be resolved in time for adoption of a bill to cover the two-year extension, the Committee acted to provide an interim extension of three months, authorizing a funding level at one-fourth of the rate proposed for fiscal year 1976. A number of amendments were considered but rejected which would have provided for different funding authorizations for the three-month extension. One would have reduced the authorization to \$10,000,000. This lost by a vote of 8 yeas—24 nays. Another would have increased the authorization to \$24,900,000, the level recommended by EPA. This would have provided an authorization which would have enabled EPA to provide assistance to the States on an expedited basis to carry out State plans for certification of private applicators. The amendment lost by a unanimous vote. Another amendment would have provided an authorization at \$9,795,000, which was one-fourth of the amount appropriated for EPA in the fiscal year ending June 30, 1975. This lost by a vote of 12 yeas—21 nays. Finally, another amendment would have increased the authorization provided for in the earlier \$9,795,000 amendment by ten percent, to a total of \$10,700,000 to take into account inflation. This also lost by a vote of 8 yeas—21 nays.

It is the consensus of the Committee in approving the Committee amendment that a three-month extension would enable EPA to continue to carry out its functions in an orderly manner while the Committee considers the various proposed changes which have been suggested by its Members. The increased authorization for funding provided over the amount used in the comparable period in fiscal year 1975 should not be construed as Committee approval of any significant expansion of the Federal Insecticide, Fungicide, and Rodenticide Act. In particular, it was the Committee's intent that EPA should not use amounts appropriated pursuant to this authorization to begin an expanded program for certification of private applicators. The Committee wishes to review this program along with other matters in connection with the authorization for extension of FIFRA beyond September 30, 1975.

The amount authorized to be appropriated for the three-month period covers the authorization for all activities under FIFRA including the amount necessary for environmental research, development and demonstration activities under section 20. The Committee has also been working with the Committee on Science and Technology in an attempt to better coordinate EPA's overall research effort. Thus, under this authorization there would be available for such activities (but in no event for purposes relative to enforcement of the Act), an amount not to exceed \$3,511,975, as provided for in H.R. 7108, reported by the House Committee on Science and Technology.

ADMINISTRATION POSITION

On May 12, 1975, Mr. John Quarles, Deputy Administrator of EPA, testified in support of H.R. 6387, as originally introduced which would have extended the appropriation authority of FIFRA for a 2-year period. At the conclusion of the hearings on June 10, he was asked whether he would support a 3-month extension and indicated that he had no objection to such an extension. H.R. 6387 as reported by the Committee provides an authorization for expenditure of \$11,967,000, a level of funding authorized for the 3-month period at the same rate as provided for the bill as originally introduced. EPA requested for the 3-month period a funding authorization at a level of \$24,900,000 to enable it to make expenditures at the outset of the fiscal year on an accelerated basis, principally for grants in aid to the States under the applicator certification program. The Committee rejected this proposal.

CURRENT AND 5 SUBSEQUENT FISCAL YEAR COST ESTIMATE

Pursuant to Clause 7 of Rule XIII of the Rules of the House of Representatives, the Committee estimates the cost to be incurred by the Federal Government during the next three-month period ending September 30, 1975, would be \$11,967,000. The bill does not provide an authorization for activities under FIFRA beyond September 30, 1975, and thus there would be no cost incurred under this bill beyond that date.

INFLATIONARY IMPACT STATEMENT

Pursuant to clause 2(1)(4), Rule XI of the Rules of the House of Representatives, the Committee estimates that enactment of H.R. 6387 will have no inflationary impact on the national economy. While the level of funding authorized is slightly in excess of the rate of funding for fiscal year 1975, the differences are accounted for largely by increases in technical support activities to meet regulatory requirements of the Act.

BUDGET ACT COMPLIANCE (SECTION 208 AND SECTION 403)

The provisions of clause 1(3)(B) and clause 1(3)(C) of Rule XI of the House of Representatives, and section 308(a) and section 403 of the Congressional Budget Act of 1974 (relating to estimates of new

budget authority on new or increased tax expenditures and estimate in comparisons prepared by the Director of the Congressional Budget Office), are not considered applicable because the level of authorized spending proposed by the bill is within existing estimates for fiscal year 1976.

OVERSIGHT STATEMENT

No summary of oversight findings and recommendations made by the Committee on Government Operations under clause (2) (b) (2) of Rule X of the Rules of the House of Representatives was available to the Committee with reference to the subject matter specifically addressed by H.R. 6387, as amended.

No specific oversight activities, other than the hearings accompanying the Committee's consideration of H.R. 6387 and related bills were made by the Committee, within the definition of Rule XI of the House of Representatives.

CHANGES IN EXISTING LAW

In compliance with clause 3 of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in *italic*, and existing law in which no change is proposed is shown in roman) :

THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT
