Bill*

93<sup>d</sup> CONGRESS  
1<sup>st</sup> SESSION

# S. 2038

IN THE SENATE OF THE UNITED STATES

JUNE 20 (legislative day, JUNE 18), 1973

Mr. JACKSON (for himself, Mr. ABOUREZK, and Mr. FANNIN) introduced the following bill; which was read twice and referred to the Committee on Interior and Insular Affairs

## A BILL

To authorize grants for Indian tribal governments, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*  
3 That this Act may be cited as the "Indian Tribal Govern-  
4 ment Grant Act".

### DECLARATION OF POLICY

6 SEC. 2. (a) The United States repudiates any policy or  
7 purpose aimed at terminating its Indian trust responsibilities.

8 (b) It is the policy of the United States to promote  
9 Indian self-determination and to achieve the greatest possible  
10 degree, consistent with the United States trust responsibil-

ities, of control in the planning and administration by Indian tribes of federally funded programs serving their reservations.

(c) It is the policy of the United States to assist the elected governments of Indian tribes in their efforts to promote the welfare and economic well-being of their members by the provision to tribes of financial assistance such as that provided for under this Act.

#### DEFINITIONS

SEC. 3. For the purposes of this Act—

(a) The term "tribe" means the governing body of an Indian tribe, band, nation, pueblo, colony, rancheria, or community (including Alaskan Native village as defined in the Alaska Native Claims Settlement Act (85 Stat. 688), recognized as eligible for the special programs and services provided by the Secretary for Indians because of their status as Indians. For purposes of receiving grants other than under an entitlement basis as described in section 4 (b), the term also includes regional corporations established in accordance with the provisions of the Alaska Native Claims Settlement Act.

(b) The term "reservation" includes any reservation, former reservation in Oklahoma, pueblo, colony, rancheria, or community under the jurisdiction of a tribe together with any tribal or individually owned Indian land held in trust by

the United States or subject to a restriction against alienation imposed by the United States.

(c) The term "Alaskan Native land" means land selected by Alaskan Natives or Alaskan Native organizations under the Alaska Native Claims Settlement Act.

(d) The term "Secretary" means the Secretary of the Interior or his delegate.

(e) The term "plan" means the plan required in section 6 for the conduct of those programs or activities and the related expenditure of funds which a tribe is to receive as an entitlement under section 4 (b). Such plans shall set forth the specific programs and activities which, subject to section 7, are proposed to be undertaken or continued with such funds and shall take into consideration the varying needs and development and growth potentials of the tribe's reservation or Alaskan Native land and the possible integrated use of natural and other resources of such reservation or land. Such plans may include a proposal for a grant or grants under section 4 (a) and for a nonentitlement grant under section 4 (b).

(f) The term "programs and activities" includes planning, administration (including but not limited to the establishment of a tribal personnel merit system), operation,

1 technical assistance, maintenance, improvement, and con-  
2 struction or portions thereof.

### 3 GRANT AUTHORIZATION

4 SEC. 4. (a) From the funds appropriated to the Secre-  
5 tary pursuant to the Act of November 2, 1921 (42 Stat.  
6 208), or any other Act (except this Act) authorizing ap-  
7 propriations for the administration of Indian affairs, upon the  
8 request of tribes the Secretary is authorized to make grants  
9 and contract to make grants to tribes subject to such terms  
10 and conditions as may be mutually agreed to and which will  
11 accomplish the general purposes for which the funds were  
12 appropriated.

13 (b) From the amounts appropriated pursuant to this  
14 Act for any fiscal year, the Secretary shall make grants and  
15 contract to make grants to tribes under regulations which he  
16 shall prescribe pursuant to section 13. Such regulations may  
17 provide (1) for part or all of such amounts to be appor-  
18 tioned among the tribes on an entitlement basis and (2) for  
19 part or all of such amounts to be granted to tribes based  
20 upon an evaluation of their plans and needs.

21 (c) Any provision of law to the contrary notwithstand-  
22 ing, the Secretary may, at the request or with the consent  
23 of the tribe, revise or amend any grant or contract for a grant  
24 made pursuant to this Act as he finds necessary to carry out  
25 the purposes of this Act: *Provided, however,* That the Secre-

1 tary shall not make a grant or contract to grant or any  
2 amendment thereto which would impair his ability to per-  
3 form his trust responsibilities.

4 (d) In the event that a tribe receives a grant for any  
5 programs and activities which prior to such grant had been  
6 performed by the Secretary, the tribe shall have the right  
7 to end the grant arrangement upon one hundred and twenty  
8 days notice or such lesser period as the Secretary may agree  
9 to and return the balance of the funds remaining to the Sec-  
10 retary. When a grant arrangement is so ended, the Secretary  
11 shall resume operation of the program and activity involved  
12 and there shall be no prejudice against any future grant to the  
13 tribe for those or any other program and activity because of  
14 such action.

### 15 ENTITLEMENT NOTIFICATION

16 SEC. 5. As soon as possible following submission of a  
17 request for appropriation of funds authorized by this Act,  
18 the Secretary shall advise the tribes of the estimated amount  
19 of any entitlement grants which they are to receive from  
20 the requested appropriation pursuant to section 4 (b).

### 21 TRIBAL DEVELOPMENT PLANS

22 SEC. 6. As a condition precedent to receiving a grant  
23 pursuant to section 4 (b) each tribe shall publish and sub-  
24 mit to the Secretary a plan for the use of the funds. Amend-

1 ments to such plans may be submitted to the Secretary at  
 2 any time prior to the end of the fiscal year to which they  
 3 relate.

#### 4 AUTHORIZED EXPENDITURES

5 SEC. 7. (a) Any tribe receiving a grant pursuant to sec-  
 6 tion 4 (b) of this Act is authorized to expend such money  
 7 for programs and activities as set out in their plan and relat-  
 8 ing to any of the following purposes:

9 (1) strengthening tribal government including ex-  
 10 penditures for executive direction, comprehensive and  
 11 other planning, and financial management;

12 (2) developing natural resources and the construc-  
 13 tion, improvement, maintenance, and operation of com-  
 14 munity facilities, utilities, and other public works and  
 15 facilities;

16 (3) economic development, employment assistance,  
 17 work experience, and training to provide jobs and in-  
 18 come for Indians including special youth programs in  
 19 support of these activities; and

20 (4) the acquisition of land in connection with items

21 (1) through (3) above: *Provided*, That in the case of  
 22 land within reservation boundaries (excluding former  
 23 reservations in Oklahoma) which adjoins on at least two  
 24 sides land held in trust by the United States for the  
 25 tribe or for individual Indians, the Secretary may (upon

1 the request of the tribe) acquire such land in trust for  
 2 the tribe.

3 (b) Each tribe is only authorized to expend funds re-  
 4 ceived pursuant to section 4 for programs and activities which  
 5 directly benefit reservation residents and which either (1)  
 6 are undertaken on a reservation or on Alaskan Native land  
 7 or (2) are certified by the tribe in their plan as directly bene-  
 8 fitting the residents of such reservation or land.

9 (c) The provisions of any other Act notwithstanding,  
 10 any grant funds made available under this Act may be used  
 11 by the tribe as matching shares for any other Federal grant  
 12 programs which contribute to the development of the reserva-  
 13 tion or Alaskan Native land and the welfare of the residents  
 14 thereon.

#### 15 PAYMENTS TO TRIBES

16 SEC. 8. The amounts appropriated and allocated pursuant  
 17 to this Act shall be paid to tribes at such intervals and in such  
 18 installments as the Secretary may determine, taking account  
 19 of the objective that the time elapsing between the transfer  
 20 of funds from the United States Treasury and the disburse-  
 21 ment thereof by a tribe shall be minimized.

#### 22 RECORDS, AUDITS, AND REPORTS

23 SEC. 9. (a) All funds granted to tribes under this Act  
 24 shall be properly accounted for in the accounts of such tribes.

25 (b) In order to assure that funds granted under this title

1 are used in accordance with the provisions of this Act, each  
2 tribe shall—

3 (1) use such fiscal and accounting procedures as  
4 may be necessary to assure (A) proper accounting for  
5 payments received, and (B) proper disbursement of  
6 such amounts;

7 (2) provide to the Secretary and the Comptroller

8 General of the United States on reasonable notice, ac-  
9 cess to, and the right to examine, any books, documents,  
10 papers, or records as he may reasonably require; and

11 (3) make such reports to the Secretary as he may  
12 reasonably require and make available such reports to  
13 the members of the tribe in a manner which is satisfac-  
14 tory to the Secretary.

#### 15 FAILURE TO COMPLY

16 SEC. 10. (a) If the Secretary determines after giving  
17 reasonable notice and opportunity for hearing that a tribe  
18 has failed to comply substantially with the provisions of this  
19 Act, he shall notify the tribe of corrective action to be taken  
20 and if such corrective action is not taken within sixty days  
21 from the date of such notification, (1) funds granted to the  
22 tribe will be reduced in the same or succeeding fiscal year  
23 by an amount equal to the amount of funds which were not  
24 expended in accordance with the provisions of this Act, (2)  
25 payments to such tribe under this Act shall terminate, or (3)

1 payments under this Act shall be limited to programs and  
2 activities not affected by such failure to comply. In the event  
3 that payments are terminated with respect to any program or  
4 activity which had been performed by the Secretary prior  
5 to a grant under this Act, the Secretary shall resume opera-  
6 tion of such program or activity.

7 (b) (1) Any tribe which received notice under subsec-  
8 tion (a) of this section of the reduction, termination, or  
9 limitation of grants or payments may, within sixty days  
10 after receiving such notice, file with the United States court  
11 of appeals for the circuit in which such tribe is located or  
12 in the United States Court of Appeals for the District of  
13 Columbia Circuit, a petition for review of the Secretary's  
14 action. The petitioner shall forthwith transmit copies of the  
15 petition to the Secretary and the Attorney General of the  
16 United States, who shall represent the Secretary in the  
17 litigation.

18 (2) The Secretary shall file in the court the record of  
19 the proceeding on which he based his action, as provided in  
20 section 2112 of title 28, United States Code. No objection  
21 to the action of the Secretary shall be considered by the court  
22 unless such objection has been urged before the Secretary.

23 (3) The court shall have jurisdiction to affirm or modify  
24 the action of the Secretary or to set it aside in whole or in  
25 part. The findings of fact by the Secretary, if supported by

1 substantial evidence on the record considered as a whole,  
 2 shall be conclusive. The court may order additional evidence  
 3 to be taken by the Secretary, and to be made part of the  
 4 record. The Secretary may modify his findings of fact, or  
 5 make new findings, by reason of the new evidence so taken  
 6 and filed with the court, and he shall also file such modified  
 7 or new findings, which findings with respect to questions of  
 8 fact shall be conclusive if supported by substantial evidence  
 9 on the record considered as a whole, and shall also file his  
 10 recommendations, if any, for the modification or setting aside  
 11 of his original action.

12 (4) Upon the filing of the record with it, the jurisdiction  
 13 of the court shall be exclusive and its judgment shall be final,  
 14 except that the same shall be subject to review by the Su-  
 15 preme Court of the United States upon writ of certiorari or  
 16 certification as provided in section 1254 of title 28, United  
 17 States Code.

#### 18 APPLICATION OF INDIAN CIVIL RIGHTS ACT

19 SEC. 11. The actions of tribes in connection with the use  
 20 of grants made pursuant to this Act shall be considered as an  
 21 exercise of powers of self-government within the meaning of  
 22 section 202 of the Act of April 11, 1968 (82 Stat. 77).

#### 23 APPLICATION OF CRIMINAL LAW

24 SEC. 12. Funds made available to tribes pursuant to this  
 25 Act shall be considered as funds of the Indian tribal organiza-

1 tion for purposes of section 1163 of title 18 of the United  
 2 States Code.

#### 3 POWERS OF THE SECRETARY

4 SEC. 13. The Secretary shall prescribe such rules, regu-  
 5 lations, and standards as may be necessary to carry out the  
 6 purposes and conditions of this Act and to conduct research  
 7 and investigations to determine the effectiveness of this Act  
 8 in the development of Indian reservations. Tribes shall be  
 9 given a reasonable opportunity to review and comment on  
 10 proposed rules, regulations, and standards under this section.

#### 11 LABOR STANDARDS

12 SEC. 14. The provisions of the Act of March 3, 1931  
 13 (46 Stat. 1494), as amended, shall not apply to any con-  
 14 struction undertaken by a tribe with funds provided pursuant  
 15 to this Act: *Provided, however,* That all laborers and me-  
 16 chanics employed by a tribe's contractors and subcontractors  
 17 in any construction assisted under this Act shall be paid  
 18 wages at rates not less than those prevailing on similar con-  
 19 struction in the locality as determined by the Secretary of  
 20 Labor in accordance with said Act of March 3, 1931. With  
 21 respect to construction work to which the Act of March 3,  
 22 1931, is applicable under the terms of this section, the Sec-  
 23 retary of Labor shall have the authority and functions set  
 24 forth in Reorganization Plan Numbered 14 of 1950 (15

1 F.R. 3176; 64 Stat. 1267), and section 2 of the Act of June  
2 13, 1934 (40 U.S.C. 276C).

### 3 RELOCATION COSTS

4 SEC. 15. The Secretary shall establish standards con-  
5 sistent with those established in the implementation of the  
6 Uniform Relocation Assistance and Real Property Acquisi-  
7 tion Policies Act of 1970 (84 Stat. 1895), as amended, for  
8 relocation payments and assistance for those displaced by  
9 development activities under this Act and the full cost of  
10 such payments and assistance may be paid from the grant  
11 funds provided under this Act.

### 12 APPROPRIATION AUTHORIZATION

13 SEC. 16. There are hereby authorized to be appropri-  
14 ated without fiscal year limitation such sums as may be  
15 necessary for the purposes of this Act for each fiscal year.

### 16 TEMPORARY PROVISION

17 SEC. 17. The Secretary may waive any of the require-  
18 ments of sections 5 and 6 with respect to the first appropri-  
19 ation under this Act and the grants to be made therefrom.

FOREWORD

The American Indian is known today as the poorest segment within the population of the United States. Although the Indian tribes have a land base unlike any other ethnic group, their annual incomes are far below and their unemployment rates are far above any other group of citizens of this country.

Beginning in 1967, the Economic Development Administration developed a program with special emphasis on economic development on Indian reservations and trust lands. The direction of this program is in all fields of planning and technical assistance as well as the necessary "brick and mortar" money to make economic dreams come true. As of September 30, 1976, EDA provided funds for 42 industrial parks, 113 community, skill training and multi-purpose centers, and 62 tourism/recreation complexes. In addition, many other projects were approved in other areas of economic and community development.

A listing of all projects approved by EDA for Indian tribes and groups as of September 30, 1976, indicates the vital mission this Agency carries on in assisting the Indian tribes to develop a viable economic base on their land. It will take time for the total impact of these projects to be felt, as identified in employment opportunities, improved living conditions, and vital community activities. Meanwhile, a start has been made and results are already identified.

Legend of Project Symbols of Type of Assistance:

- IX.....Special Economic Development and Adjustment Program (Title IX)
  - X.....Job Opportunities Program (Title X)
  - PW.....Public Works
  - PWIP.....Public Works Impact Program (Special assistance for areas impacted by concentrated unemployment and low income.)
  - BL.....Business Development Assistance (Business Loan)
  - TA.....Technical Assistance
  - PG.....Planning Grant
  - DG.....District Grant (Planning)
  - TQ.....Transitional Quarter (July 1 - September 30, 1976)
  - \*.....Minimal disbursement made--project not started.
- PG and TA figures shown are for approved amounts and do not reflect actual expenditures in a given fiscal year.

Mr. Walter Dasheno  
Chairman  
Mr. Herman Agoyo  
Executive Director  
Eight Northern Indian Pueblos Council  
P.O. Box 927  
San Juan Pueblo, New Mexico 87566

Dear Messrs. Dasheno and Agoyo:

This refers to your July 16, 1976 letter to the President and the various Cabinet Secretaries, and to Bradley H. Patterson's August 27, 1976 response to you. As requested by Mr. Patterson, we are responding to topics 3 and 4 of the attachment to your letter.

You indicate that there is a continuous fallacy that "what is good for others is also good for Indians," and also recommend a redefinition of the Economic Development Administration (EDA). This gives the impression that EDA itself proposes and develops Indian projects. Therein lies the fallacy. EDA funds only those projects that are developed by Indian tribes themselves. Such projects must conform to tribal Overall Economic Development Programs (OEDPs) that are formulated and endorsed by the tribes. We have not and will not process an application from a tribe for a project that does not conform to a tribal OEDP.

As you know, EDA's Indian program calls for a specific set-aside of funds to assist in financing various projects on Indian reservations. This set-aside has historically consisted of from 10 percent to 12 percent of the Agency's budget. When considered in conjunction with the fact that the population of Indians eligible to participate in EDA's programs amounts to only one percent of the total eligible population, this would appear to reflect a genuine concern by this Agency for the expressed needs of Indian people.

In Fiscal Year 1976, for example, EDA approved nearly \$42 million in Indian projects through our regular programs. The Agency's total budget for Fiscal Year 1976 (including Title IX) amounted to \$360 million; thus, about 11 percent of the Agency's Fiscal Year 1976 budget went to support Indian projects.

We fully concur with your point that the saturation of labor supply in undeveloped communities should be an inducement for the Federal Government to persuade labor-intensive industries to locate in such places. In this regard, EDA established in 1973, within the office of the Special Assistant for Indian Affairs, an industrial development office whose principal responsibility is to assist labor-intensive industries in locating facilities in Indian areas to provide employment and income opportunities for Indian people. The industrial development staff contacts various industries to determine their interest in Indian locations and serves as a catalyst between the industries and the tribes in further negotiations (including financial packaging), leading to the establishment of new operations or branch plants in Indian Country.

We appreciate having your comments and look forward to continuing the good relationships we have with the Eight Northern Indian Pueblos Council.

Sincerely,

[[s) John W. Eden

SEP 22 1976

Mr. Henry Jacket, Sr.  
Tribal Treasurer  
The Ute Mountain Ute Tribe  
Towaoc, Colorado 81334

Dear Mr. Jacket:

This refers to your August 12, 1976 letter to President Ford and to Mr. Bradley Patterson's August 27, 1976 response to you. In accordance with Mr. Patterson's suggestion, we are responding directly to you on those points in your letter that relate to EDA.

Since November 1972, EDA has granted to your tribe more than \$147,000 in planning assistance funds. The planners employed by the tribe under these grants have given the tribe their own expertise in the area of economic development. Responding to tribal planning, EDA, in Fiscal Year 1974, approved a \$112,000 project that called for paving an industrial area. The area covered by the project is that occupied by the tribe's pottery operation. The application was reduced somewhat in scope from its original concept of providing a full-scale industrial park because it was not demonstrated to us at that time that the tribe had a firm, new prospect for location in the park. In April 1976, EDA joined the tribe and the Four Corners Regional Commission in funding an expansion of the pottery plant. Our participation in this project--\$125,000--was limited to 50 percent of the total project cost because of the revenue-producing nature of the project.

Following up on these earlier efforts to assist the tribe in its economic development, EDA, on August 6, 1976, six days prior to your letter to the President, authorized an application from the tribe for \$127,000 to enlarge and improve the industrial area. The tribe's application was received in the regional office on September 9 and is currently undergoing review. The principal basis for authorizing this application was the successful negotiations between the tribe and a garment manufacturer calling for a plant to be built in the tribe's industrial area and employing 100 tribal members when it gets into operation.

We can readily understand your feelings regarding EDA's reluctance to become directly involved in providing funding to this industrial prospect. However, under regulations adopted to assist in the administration of our Act, and in response to the intent of Congress as expressed in the legislative history leading to the Act's passage, we are precluded from extending "financial assistance for programs, projects, facilities, or purchases to be used by or for highly mobile, intensely competitive industries, such as the apparel or garment trades within the textile industry."

You mention that EDA "has been known to return monies back to the U.S. Treasury which were needed on Indian Reservations." Under EDA's Indian Program, all funds allocated annually have been obligated for projects in Indian areas. In Fiscal Year 1976, for example, this agency provided over \$49 million in public works, technical assistance, and planning grants to Indian tribes; this is approximately 12 percent of the entire agency's budget. From the inception of the Indian program in Fiscal Year 1966 through August 31, 1976, EDA approved for funding nearly \$275 million in Indian projects.

Further, you point out the difficulty of attracting industry to your reservation without the necessary monies to train your people. While EDA does not provide training funds, such assistance is generally available from the Bureau of Indian Affairs' (BIA) Employment Assistance Office through its on-the-job training program. We have been informed by the BIA that that program is currently funded at about \$600,000 nationally and the BIA is seeking supplemental funding to increase the total to more than \$1 million. The BIA pointed out to us that they should be advised of anticipated tribal participation in the program in advance of need so that funds properly can be programmed. If you have not already done so, we urge you to follow up on this source of training assistance.

Our regional office in Denver is most responsive to tribal needs and requirements of the reservations they serve; we suggest that you work closely with them in your economic development activities.

Sincerely,

(s) John W. Eden

RECEIVED

Dear Mr. Jacket:

The President has asked me to thank you for your letter to him of August 12. He invited follow-up comments and is glad that you took him up on his invitation.

I don't have the precise answers at my fingertips about the problems you describe with the Economic Development Administration and the Small Business Administration, but I am going to find out promptly and am asking the senior officers of EDA and SBA here in Washington to write you directly.

The President is proud of the changes made since 1970 in Indian policies and programs and appreciates your own candid observations. You will hear from us.

Sincerely yours,

Bradley H. Patterson, Jr.

August 12, 1976

President Gerald R. Ford  
President of the United States of America  
The White House  
1600 Pennsylvania Avenue  
Washington, D.C. 20500

Mr. President:

On behalf of the Ute Mountain Ute Tribe, I wish to thank you for the courtesy extended to us on our recent trip to Washington, D.C. I felt the meetings were most beneficial and quite informative.

The Ute Mountain Ute Reservation is located in the extreme corner of Southwest Colorado, with a small portion in Utah and New Mexico. We have a total Indian population of approximately 1,302 tribal members. Our unemployment rate averages 66%, compared to a region wide unemployment rate of 6%.

I responded to your invitation and I attended the meetings with the Principal Indian Leaders on July 16, 1976. The noted speakers were as follows:

The Honorable Theodore C. Marris  
The Honorable Thomas S. Kleppe  
The Honorable Morris Thompson  
The Honorable Stanley B. Thomas, Jr.  
Dr. Emery A. Johnson  
Dr. George Blue Spruce, Jr.  
Dr. S. Gabe Paxton, Jr.  
The Honorable Ben Burdetsky  
The Honorable Constance E. Newman  
The Honorable John Eden  
The Honorable Peter Taft

The various agencies that we met with in Washington, D.C., stated that they were ready to help us with our problems at any time. I was very pleased to hear this kind of support and to hear, Mr. President, of your interests in the American Indians. Mr. President, you also welcomed us to correspond directly with you, and that is the purpose of this letter. We are seeking your help.

The Ute Mountain Ute Tribe is making a sincere effort to promote economic development on the reservation and provide a better livelihood for its people.

In 1973, the Economic Development Administration funded an industrial park which is located on the reservation. The utilities for completion of the park were not completed due to a lack of funds by the E.D.A.

On July 29, 1976, we had a meeting with Mr. Paul Rinne and Mr. Robert Wilson of the E.D.A. in Denver, Colorado. We encountered a great deal of opposition, as we have many times in the past with these individuals, to the funding for the completion of the industrial park. We don't feel that their cooperation with the Ute Mountain Ute Tribe has been satisfactory. The opposition stemmed from E.D.A.'s refusal to fund a park which may provide space for a garment related industry. The Ute Mountain Ute Tribe has invested \$300,000.00 of their own monies to construct a building to provide employment for one hundred tribal members.

The only response we have received from interested manufacturers has been from garment related industries. It seems rather unfair that in the free enterprise system, we have to forego the welfare of our people in order to follow outdated government regulations.

It is difficult to attract industry to the reservation without the necessary monies to train our people. We are asked to lean towards self determination, yet we are not provided the tools to successfully accomplish the task.

The Economic Development Administration has been known to return monies back to the U.S. Treasury which were needed on Indian Reservations.

The Small Business Administration tells the American Indian that they are trying to help him, yet they fail to provide any field representatives to fulfill their promises. The only contact they have with the reservation is made by telephone or through the mail. The majority of S.B.A.'s employees don't even know what an Indian Reservation looks like.

August 12, 1976

It is not my intent to sound radical but we do need your help and your support to bring the standard of living on the reservation up to the level the rest of the American people enjoy.

Many federal programs are established in the name of the American Indian but fail to reach the people they were designed to help. Instead, the monies are spent on beaurocrats who have no concern or feeling for the Indian who lives in poverty.

Again I wish to thank you, Mr. President, for your support and I hope it will continue.

Respectfully,

Henry Jacket, Sr.  
Tribal Treasurer  
The Ute Mountain Ute Tribe  
Towaoc, Colorado 81334

EIGHT NORTHERN INDIAN PUEBLOS COUNCIL

P. O. Box 927

San Juan Pueblo, New Mexico 87566

Phone 852-4265

September 29, 1976

Mr. John W. Eden  
Assistant Secretary  
Economic Development Administration  
Washington, D.C.

Dear Mr. Eden:

Thank you for your letter of September 16, 1976 concerning our comments of July 16, 1976 on a statement of Indian problems requested by the President. However, it is apparent that our statement under the topic of Economic Development was regrettably misunderstood.

To clarify our intent we wish to state that the subject of Economic Development was not targeted at the Department of Commerce, Economic Development Administration. This outstanding agency has been most responsive to our tribal needs. For that matter our Inter-tribal Council has two planner positions under the EDA planning grant. With these planners and assistance of Mr. James Swearingen, the EDR located in Santa Fe, New Mexico the Austin regional Director, Mr. J. Swanner and Mr. Tanner of the Washington Indian Desk, the Pueblos have advanced over the past eight years by the development of over four million dollars in EDA Public Works Grants. Numerous jobs have been created, basic infrastructures in the Pueblos are being improved and new businesses are being developed. A particularly significant impact on the Pueblos has been made when EDA approved construction of the majority of our projects under force account, thereby creating a substantial number of jobs for previously unemployed and underemployed tribal members. For example at present time we have 12 funded EDA projects under construction that are employing 47 of our tribal members, therefore, we would like to see the continuation of the force labor accounts. No other Federal agency has so adequately served our needs. It was our intention to express our approval of the EDA Indian projects and to assist your agency to secure additional funds for increasing the number of Indian projects.

We hope that our explanation will better define our position and that you will understand that our Pueblos are starting from a much lower economic base than the rest of the U.S. population and need the continued cooperation and understanding of the Economic Development Administration.

Sincerely yours,

*Walter Dasheno*

Walter Dasheno
