Gged Glenn, Viola B. re: past haspital mursing home care

January 3, 1974

Mrs. Viola B. Glenn 13251 State Road Nunica, Michigan 49448

Dear Mrs. Glenn:

dis

This is in regard to your recent letter expressing your views relating to the problem of obtaining post hospital nursing home care.

Although the Vice President is away from the city at the present time, he has asked me to express his thanks for writing.

You may be assured your letter has been carefully read, and Mr. Ford appreciates that you have taken the time to write in this connection.

Sincerely,

A. B. Schram Assistant to the Vice President

Date Nov. 26-1973

From: Mrs Viola Glenn 13251 State Rd. Munica, Michigan 49448 Zip Code

To: Hon Gerald Ford U.S. Senate Senate Office Building Washington, N. C-205-10 Zip Code

I, as a Senior Citizen, and a participant in the Medicare Program, am writing concerning the problem of obtaining post hospital , nursing home care.

Our present Medicare Program provides for nursing home care after hospitalization. However, in our area no nursing home will accept Medicare patients.

They will accept Medicaid patients and those who have sufficient money to afford a prolonged stay in their facilities.

It appears that only the very poor and very wealthy can obtain nursing home care in this area. Those of us who do not fit in either of the above categories, i.e., who have too much income to qualify for Medicaid and not sufficient money to pay for a prolonged stay, can not obtain nursing home care and benefits.

I pay \$6.80 per month for Medicare, and according to my policy am entitled to this care. I, as a Senior Citizen and a participant in the Medicare Program, wish to go on record as protesting this inequity.

Thank-you for your help.

Sincerely yours,

Mrs Viola B. Glenn

re: CAP

February 13, 1974

Mr. Thomas L. Schley Executive Director EIGHTCAP, Inc. P.O. Box 435 Stanton, Michigan 48888

Dear Mr. Schley:

Thank you very much for your recent letter and the enclosed copy of your Title VII Proposal.

Although I will be unable to comment in detail on this proposal, I was pleased to review your plans for Montcalm County. This information was of interest to me and I am pleased that you took the time to provide me with a copy.

I want to wish you every success in your endeavors.

With kind regards.

Sincerely,

()

Gerald R. Ford

GRF:t

EIGHTCAP, INC.

P.O. BOX 435 - Stanton, Michigan 48888 - Phone (517) 831-4747

December 26, 1973

Vice President Gerald R. Ford Suite 720 Federal Building Grand Rapids, Michigan 49502

Dear Vice President Ford:

As the Executive Director of Eight-CAP, Incorporated, I felt you would appreciate an opportunity to comment on the attached Title VII Proposal which has been submitted to the Department of Social Services for funding consideration.

I am sure you will agree that the aged population residing in Montcalm County should be provided those programs and services which will allow them to live in dignity and health. This program is designed to provide them with nutritious meals and a cordially stimulating atmosphere. Your support will be appreciated by myself and the senior population.

This program would help insure a happy 1974 for many Montcalm County Senior Citizens.

Yours truly Monaf

Thomas L. Schley Executive Director

RR JBRARL

PART II: PLAN FOR THE PROJECT

The applicant agency must set forth a detailed plan for the delivery of meals and related social services for the proposed project area. This plan must address, at a minimum, the items identified in the outline below. The plan set forth by the applicant agency must also follow this outline and be numbered accordingly. All instructions for Part II are contained in the application itself.

1. Applicant Agency

Attach a chart which describes the organizational structure of the agency.
 Also, indicate where in the organization of the agency, responsibility
 for the conduct of the proposed project is to be placed.

The applicant agency for the Montcalm County Nutritional Program for the Aged is the Governing Board of Eight CAP, Inc. a private nonprofit corporation duly recognized and chartered by the State of Michigan. The responsibility for the conduct of the proposed project will be vested in the Governing Board of the aforementioned private nonprofit corporation. See attachment A.

- b. Set forth the agency's qualifications, including personnel and physical facilities to undertake the proposed project. In addition, describe in detail the agency experience in:
 - provision of services to the elderly with specific reference to low income and minority group elderly:

Eight CAP, Inc. has been designated by the four political entities which it has served since February 1966 as the recipient of all

Office of Economic Opportunity 221 funds distributed in the geographical area. During the eight years of this corporation's existence, it has planned, programmed, maintained and evaluated \$14,151,884.00 of programs directed at the disadvantaged population existing within its geographical boundaries.

-4-

b. 1 con:

Eight CAP, Inc. provides a multitude of services for the elderly population. These services include:

- a. Information and referral
- b. Transportation
- c. Legal Assistance
- d. Friendly home visitors (volunteers)
- e. Telephone reassurance
- f. Monthly Chat and Chow
- g. Free furniture and clothing
- h. Senior Nutrition Program
- i. Outreach
- k. Informational speakers

In addition to these direct services which are currently being provided on an ongoing basis, Eight CAP has undertaken many short term projects directed at serving or organizing the aged population.

These projects included: The coordination of Project Find, a special effort directed at identifying and qualifying that segment of the aged population in need of but not receiving food stamps distributed by the Department of Social Services.

A pilot project in cooperation with Community Education awareness of the aged population's needs and the expansion and creation of programs to specifically serve the aged population.

-5-

In the past 12 months Eight CAP, through community organization techniques, has successfully encouraged local senior citizens groups to unite and organize for the purpose of establishing and operating a Title III direct service program in Ionia County. As a result of an effort there now exists an Ionia County Commission on Aging and a proposal currently before the funding agent for Title III of The Older American Act.

(2) Operation of meals program on behalf of the elderly. A pilot program has been in operation in Lakeview since April 19, 1973. The meals were prepared and served at Lakeview High School until the school term ended. Subsequently the Lakeview Hospital prepared the meals which were then served at the nearby United Church of Christ. After a three month trial period, Lakeview Hospital terminated the arrangement due to insufficient staff.

At this time in October, the program was re-evaluated as follows:

- 1. The common goal was to provide older citizens, particularly those with low income, with low cost, nutritionally sound meals served in strategically located sites, where they can obtain other social and rehabilitative services.
- 2. The performance objective is to offer twice weekly noontime meals at five sites in Montcalm County. Besides promoting better health among the older segment of the population through

-6-

improved nutrition, the program objective is aimed at reducing the isolation of old age, offering older citizens an opportunity to live their remaining years in dignity.

- 3. Assessment of the county needs for the aged indicates the following:
 - (a) Location of the sites are designed to geographically offer convenient access throughout the county.
 - (b) The buildings were selected with attractive decor to provide a pleasant atmosphere for enhancing the personal dignity of the participants.
 - (c) Eligible individuals are those aged sixty and older who do not eat adequately because of physiological, psychological, social and economic changes that often occur with aging resulting in a pattern of living which may cause malnutrition and further physical and mental deterioration.
- 4. The October evaluation and testing of the Lakeview pilot project indicates that the program delivery system fulfills the assessed needs and common goal. Evaluation of eligible individuals indicates they include persons who:
 - (a) Cannot afford to eat adequately.

-7-

(b) Lacks the skills and/or knowledge to select and prepare nourishing and well balanced meals.

- (c) Have limited mobility which may impair their capacity to shop and cook for themselves.
- (d) Have feelings of rejection and loneliness which obliterate the incentive necessary to prepare and eat a proper meal alone.
- 5. A basic recommendation for improvement was to contract with a single catering service that would provide a consistency of well-balanced nutritional meals served in an appealing and attractive manner.

Another recommendation was to begin a weekly noon luncheon at Edmore, which began November 1, 1973 and has proven to be very successful. When this proposal is approved, there are three additional planned sites which can begin operation January 15, 1974. The sites have been contacted, outreach work has been started, menus have been planned, catering service has been contacted and will provide the additional meals required to expand the program.

The Montcalm County Nutrition Program for the Aged has been well received by the rural areas as well as by the urban areas.

The project will expand to providing meals twice a week at the two existing sites as well as twice a week at the three proposed sites. The project pr gram will be feeding twenty people at each site twice a week, averaging 200 people a week.

At present, the two sites where we have our program one day a week are averaging between 32 to 40 people.

-8--

c. Indicate whether the applicant agency is a minority agency; that is, an agency operated by and/or serving primarily the needs of minority individuals.

Eight CAP is not a minority agency if by definition we recognize service to minority races as the criteria for minority agency. Eight CAP is a minority agency if the disadvantaged segment of the population is considered a minority group.

d. If the applicant agency currently operates a meals program for the elderly, set forth the total amount of funds utilized for the program during the previous budget year.

Eight CAP, Inc. has operated a meal program for the elderly since April of 1973. The total amount of federal funds allotted for the operation of the pilot project was \$6,800.

- e. Does the applicant agency plan to enter into any subcontract (s) for the operation of meal sites, preparation of food, or the provision of meals or supporting social services? If subcontracts are proposed, set forth the agency (ies) to be contracted with; the purpose of the subcontract (s); the status (public, private non-profit, private profit making) and qualifications of the agency (ies); and the role and responsibilities of the applicant agency in carrying out the objectives of the program and in administering the subcontract (s).
 - Indicate to what extent any proposed subcontract (s) for operation of meals sites is with an agency (ies) operated by minority groups.

-9-

It is the intent of Eight CAP to subcontract only for the provision of meals for the proposed nutrition program. It is felt that the delegation of any additional responsibilities at the time would destroy the continuity and its positive affects in encouraging the aged population participation.

2. Project Area

a. Identify the geographic area for the project. Include a map indicating the boundaries of the area.

The area to be served by the proposed nutrition project is designated as Montcalm County, a 710 square mile area located in the central portion of Michigan.

The county is essentially a rural area with agriculture as its largest industry. The total Montcalm County population was 39,660 according to the 1970 United State Census.

The largest city is Greenville with a population of 7,493 and located in the southwest part of the county. Greenville is the only urban area with a population over 2,500.

The county seat is Stanton, population 1,089, and located in the geographical center of the east sixteen townships. There is a total of 20 townships which contain 26 cities and villages. Maps of these 20 townships are included in this geographical area proposed for the nutrition project with a description of each site and surrounding rural area to be covered by the program. By the United State Census categories, 19% of the county were considered to

be living in an urban environment (Greenville), while 81% were considered to be in a rural setting. The average population desity was listed as 10.5 persons per square mile.

Montcalm County is bordered to the north by Mecosta and Isabella County, to the west by Newaygo and Kent County, to the south by Ionia County, and to the east by Gratiot County. The Flat River is the major river running through Greenville and the county from the south and directly north connecting with many streams. The county has 180 lakes and numerous resorts. The two east-west paved state roads are M57 and M46 which link up with U.S. 131 out of Grand Rapids. The north-south paved state roads are M91 through Greenville, and M66 through Stanton; and both of these roads link up with the major interstate highway, I96.

Farming is extensive and diversified, with grain, potatoes, fruit and dairying as principals. The county also has one of the largest gas storage fields in the United States.

Education institutions include Montcalm Community College located at Sidney and near Stanton. It is a two year institution with an approximate enrollment of 1,100 for the fall 1973 term.

b. Describe the major characteristics of the proposed area. Give special attention to the socio-economic composition and size of the general population. Include a description of the geographic and physical conditions of the area.

Social Services and health agencies in Montcalm County include the following:

a) Hospitals total 5.

b) Nursing Care Facilities & Homes for the Aged total 5.

-11-

c) The county has 881 people per licensed physician (M. D. and D. O.)
compared to 769 people per licensed physician in the whole state.
d) Existing Senior Citizen Groups whose membership was composed
entirely or primarily of aging persons are as follows:
1. Crystal Senior Citizens Club
2. Carson City Area Senior Citizens
3. Lakeview Senior Citizens
4. Central Montcalm Senior Citizens
5. Edmore Senior Citizens
6. Greenville St. Paul's Lutheran Senior Citizens
7. Friendly Senior Citizens of Settlement Lutheran Church
8. Six Lakes Senior Citizens
9. Greenville Community Senior Citizens
10. Local 137, United Auto Worker Retirees
11. Fedders Retirement Club
12. Ionia - Montcalm Retired Teachers Association
13. Coral Senior Citizens
14. Montcalm Council on Aging
15. Greenville Housing Commission (constructing Senior Citizen
Housing)
. Describe in detail the composition of the elderly population (65 and
over) of the area.

-12-

TABLE 1

Aging Population, Montcalm County by Township and Incorporated Municipalities

d. (1) Document the extent to which the nutrition program is needed in the project area. In addition to the factors of low income, and minority group elderly (If applicable) cite other data which indicate the need of the elderly with reference to lack of mobility, isolation, and limited knowledge and/or skills and their application to adequate nutrition of the elderly.

> Data must include elderly with the following characteristics; currently participating in nutrition projects, living alone, unable to use public transportation, physically disabled, feeling unwanted, not wanting to eat alone, having expressed limitations in meal preparation.

> In addition to the demographic and economic indicator of need for a nutrition program, the Office of Community Services of Montcalm County conducted "A Study of the Needs and Interests of Aging Persons Residing in Montcalm County, Michigan."

This study was performed under a grant from the Michigan Commission on Aging to the Montcalm Council on Aging, and published in September 1972. The following is an excerpt from a portion of the nutrition section of the study:

"SURVEY DATA" (p. 16)

Number of surveys conducted: N-264

Percent of Aging Population of Montcalm County: 6% Total number of Aging Persons involved in interviews: 302 Racial composition of interviews:

Caucasoid - 264

Other -

-16-

Telephone:

Yes - 253

No - 11

96% of all persons interviewed reported having a telephone. Location of residence:

A survey question sought to determine the location of the person's residence in relationship to a city or village. For this purpose the communities considered a city or village were: Greenville, Sheridan, Stanton, Edmore, Lakeview, Carson City, and Vestaburg.

Number residing with in city - 154 Percent residing in city 62% Number residing outside city - 110 Percent residing outside city 38%

The survey sought to determine the distance the rural persons lived from the city. The following chart indicates these distances.

TABLE 2

Distance	Number of Persons
Less than 1 mile	0
$1 - 1\frac{1}{2}$ Miles	10 .
$2 - 2\frac{1}{2}$ Miles	15
3 miles	9
4 miles	26

-17-

5 miles 10 6 miles 0 7 miles 5 8 miles 1

If we judge the first two categories to be one mile, we determine the mean distance to be 3.4 miles with a median of 4 miles. For those who lived outside a city or village, the following chart indicates the number of times per week the interviewee (or spouse) "got to town".

TABLE 3

Times "Get to Town" Per Week

Times	Per Week	Number of	Persons
	0	7	
	1	20	
	2	24	
	3	15	
	4	3	
	5	5	
	6	12	

An attempt was made to determine if these was a relationship between the distance lived from a city or village and the number of times per week one "gets to town".

-18-

TABLE 4

Distance from City or Village	Mean times "Get to town" Per Week
Less than 1	1.8
$1 - l_2^2$ miles	2.0
2 miles	2.3
3 miles	1.7
4 miles	2.7
5 miles	1.0
6 miles	2.3
7 miles	2.5
8 miles	3.0

Based on these limited statistics, it does not appear that there is any relationship between distance from town and frequency of traveling there. Obviously, other factors determine this frequency.

Retirement

- (a) Retirement and Work
 - Presently retired 226

Percent retired 87%

Never "worked" housewife - 19

Not retired - 14

Percent not retired 5.4%

-19-

b)	Length	of	re	ti	remen
----	--------	----	----	----	-------

Number of Persons	Length of Retirement
0	Less than 1 year
0	l year
0	2 years
7	3 years
10	4 years
13	5 years
14	6 years
15	7 years
0	8 years
0	9 years
26	10 years
3	ll years
12	12 years
49	More than 12 years
24	"Not Sure"

Range - 1 week to 34 years.

No mean or median can be determined because of category "more than twelve years".

- 3. Administration of the Project.
 - a. Describe the proposed number and types of staff to carry out the leadership, planning, nutrition, supporting social services, volunteer activities, and financial management responsibilities of the project. Give special emphasis to (1) the qualifications of the project director; (2) plans for the employment of elderly and minority individuals in paid positions; and (3) persons responsible for nutrition or dietetic services for the project. Include the name of the project director, if known, at the time of application. Also indicate whether the project director is 60 years of age or older.

The nutrition project staff will consist of one full time project director and five part time site coordinators. The project director will assume ultimate responsibility for all aspects of the projects operations with the exception of financial management which will be the responsibility of the Central Administration of Eight CAP, Incorporated. The site coordinators will be responsible for the leadership, planning, supportive social services and volunteers activities at their respective centers and will receive directions, assistance and supervision from the director necessary to insure optinal site performance.

- (1) At a minimum the standards as set by the State agency.
- (2) Efforts will be made to give preference to persons aged60 and over when qualifications are equal.

-22-

(3) Nutrition and dietetic services will be provided by the Montcalm County Cooperative Extension Service Home Economist in cooperation with the Food Service Management at Michigan State University.

b. Describe the proposed use of volunteers in the project, with emphasis on the use of college and high school age individuals in such activities.

It is impossible at this time to expand on the innovative ways in which volunteers will be utilized in this project. At a minimum volunteers will be utilized in the following activities:

- 1. Transportation
- 2. Friendly visitors
- 3. Site maintenance
- 4. Shopping assistance
- 5. Recreational activities
- 6. Personal escort
- 7. Outreach
- 8. Community education
- 9. Legal assistance
- 10. Home maintenance

c. Describe the plans for the provision of training for project personnel.

The Project Director will attend the National Training Institute as required. This information will then be disseminated to all Site Coordinators by the Project Director. All project staff will receive

-23-

instruction regarding basic nutrition pertinent to the aged population from the Cooperative Extension Office. Additional training will be provided regarding social services available through state and local resources by those agencies and organizations which currently provide them. At a minimum, that training will include Department of Social Services, the Department of Vocational Rehabilitation, Montcalm Community College, Montcalm Community Council on Aging, Social Security Administration, Community Mental Health, County Health Department, and Eight CAP legal aid.

d. Set forth the proposed composition of the Project Council.

One member Montcalm County Extension Services One member Mid-Michigan Health Department One member Mental Health Department One member Local Minister One member Community College Outreach One member Community Education Directors One member Friendly Visitors One member Friendly Visitors One member Council on Aging One member Eight CAP, Incorporated Two members from each site.

e. Describe how potential project participants were involved in the development of this project application.

Potential project participants have been already involved in the Lakeview

-24-

and Edmore pilot projects and provided substantial input in the development of this project application: See attached sheets on Edmore and Lakeview sites.

de

The Lakeview site will service the following nearby communities: - Salar when

- a) Howard City and Reynolds Township b) Pierson, Maple Hill, and Pierson Township c) Trufant and Maple Valley Township d) Amble and Winfield Township e)Langston and Pine Township f) Cato Township

The Greenville City site will service the following nearby communities:

a) Eureka Township

.

-50-

- 4. Plan for Operation of the Project
  - a. Set forth the specific, measurable objectives which have been established for the conduct of the project. These objectives must be related to the number and characteristics of the persons to be served and the services to be provided.
  - 1. To provide 10,400 hot nutritionally sound meals to project participants between January 1, 1974 and December 31, 1974.
  - 2. To initiate a transportation system to accommodate 5,200 transportation requests from project participants requiring transportation assistance necessary for them to reach the congregate feeding centers.
  - 3. To identify 1,000 county residents 60 years of age and older and involve at least 100 eligible individuals in the Montcalm County Nutrition Project.
  - 4. To provide information regarding available county and state social services to 1,000 senior citizens residing in Montcalm County.
  - 5. To refer at least 500 older Americans to existing social service providers in Montcalm County.
  - 6. To develop and deliver a twelve hour block of nutritional education to project participants through a one hour per month presentation.
  - 7. To provide shopping assistance to project participants through the use of volunteers at least one day per week.
  - 8. To coordinate 300 hours of recreational programs incidental to the project operation to consist of at least one hour and thirty minutes recreational activities at each of the five feeding sites in the project area per week.
  - 9. To coordinate with the Mid-Michigan District Health Department and the Montcalm County Mental Health Program to provide twelve hours of Health and Welfare Counseling at each of the five feeding sites during the proposed program year.

-51-

- b. Describe the overall plan designed for the delivery of meals throughout the project area to accomplish the objectives established for the project. Include specific information on the following:
  - How target group individuals will be contacted and encouraged to participate in the project;
  - (2) Who will plan menus; and what special factors, if any, will be taken into consideration in the planning of menus such as health or religious requirements, ethnic, cultural, and regional preferences;
  - (3) The menu which has been developed for the first 30 days of the project;
  - (4) A time schedule for implementation of the provision of congregate and home delivered meals;
  - (5) The number of congregate and home delivered meals (list separately) planned to be served on a daily basis when the project is fully operational;
  - (6) The days meals are to be served (pending subsequent approval by Project Council);
  - (7) Which meals are planned to be served on a daily basis (breakfast, lunch, and/or dinner);
  - (8) Who will prepare the meals and how the meals will be transported to the congregate meals sites and/or the home delivery sites.

-52-

- Outreach work has already been done to find elderly persons who are alone, poor, or in some way in need of nutritional services. Continuing efforts will be made using volunteers and other personnel at the selected sites.
- (2) The Montcalm County Extension Service will plan the menus.
- (3) Menus for thirty days are outlined in attached sheet.
- (4) Time schedule for implementation of the provision of congregate and home delivered meals:

Lakeview and Edmore - January 1st

Carson City, Sheridan, and Greenville - January 15th

- (5) The number of congregate and home delivered meals planned to be served when the project is fully operational: 200 meals per week with 5% home delivered.
- (6) Meals will be served Monday through Friday (pending subsequent approval by Project Council).
- (7) All meals will be noontime luncheons.
- (8) All meals will be catered. Home deliveries will be handled by volunteers from the congregate site.
- c. For all congregate meals sites describe:
  - (1) The locations of the sites and types of facilities to be utilized;
  - (2) Reasons for selection of the sites;
  - (3) The number of meals planned to be served at each site on a daily basis;
  - (4) The estimated number of project participants at each site:
  - (5) The proximity of such sites to the homes of target group older persons;

(6) Steps to be taken to ensure that the meals sites provide a pleasant setting for the provision of meals.

Location	Type of Facility	Number of Meals
Edmore	United Church of Christ	40 per week
Greenville	Veterans of Foreign War Hall	40 per week
Edmore	Community Building	40 per week
Carson City	Senior Citizens Drop-in Center	40 per week
Sheridan	Veterans of Foregn War Hall	40 per week

(2) Reasons for selection of sites:

1-1

Location of the sites are designed to geographically offer convenient access throughout the county.

The buildings were selected with attractive decor to provide a pleasant atmosphere for enhancing the personal dignity of the participants.

- (3) Number of meals planned to be served at each site: 20 meals served twice a week.
- (4) The estimated number of project participants at each site: 20.
- (5) The proximity of such sites to the homes of target group older persons--see attached maps where sites are located and compared to demographic date.

-55-

- (6) Every effort will be made to arrange a pleasant atmosphere for the provision of meals. This may include decorating of sites by the participants and staff and special attention in hiring of staff and recruiting of volunteers who provide a pleasant and congenial atmosphere.
- d. For projects also planning home delivered meals describe:
  - The number of meals planned to be delivered on a daily basis - 2.
  - (2) The number of meals planned to be delivered to each home on a daily basis 1.
- e. Pending approval of this proposal by the State agency, and the subsequent approval of the policy set forth below by the Project Council, describe how the cost for meals will be handled, with special emphasis on:
  - (1) Will a suggested fixed fee or suggested fee schedule be used? If a suggested fixed fee, set forth the proposed fee. If a suggested fee schedule is to be used, set forth the proposed suggested contribution schedule. (This may differ for different sites.)
  - (2) How will fees be collected to ensure that an individual's contribution is confidential and that no indication of a means test is given or implied?

The Project Council will be responsible for setting the final guidelines on fees and fee collection. However, it is the thinking of the proposal writers that a set fee somewhere between  $25\phi$  and  $50\phi$  will be suggested with each individual responsible for contributing this amount on a daily basis. Fee collection will be arranged so as to be confidential.

#### 5. Plan for Social Services Delivery

a. Set forth a time schedule for implementation and provision of each of the supporting social services.

Outreach	January	8, 1974
Transportation	January	8, 1974
Personal escort	January	8, 1974
Information and referral	January	22, 1974
Health and Welfare counseling	January	22, 1974
Nutrition education	January	22, 1974
Shopping assistance	January	22, 1974
Recreation incidental to the project	January	8, 1974

b. Describe how the outreach activities will be conducted on an ongoing basis with special emphasis on:

- The plan to assure a complete and systematic coverage of each neighborhood in the project area to assure that the isolated, homebound and hard-to-reach elderly will be contacted and arrangements made for their participation in the program;
- (2) Indicate the sources of financial support for this effort to be utilized in addition to, or in lieu of, Title VII and non-Federal matching resources.
- (1) An informational packet regarding the Nutrition Project will be prepared by the Project Director and disseminated to:

1. All churches in the area of the meal sites

- 2. All elected officials
- 3. Social Service agencies

-57-

- 4. Hospitals and nursing homes
- 5. Health Departments
- 6. Montcalm County Council on Aging

This packet will set forth:

- 1. The purpose of the project
- 2. The criteria for participation
- 3. The services provided by the project
- 4. The days of meal provision
- 5. The home address and telephone number of Project Director
- 6. The name, address, and telephone number of Site Coordinators
- 7. The method for referring potential project participants to project staff.

Site Coordinators will:

- Obtain list of registered voters 60 years of age and older from clerk in the site area and request clerk to identify those most in need.
- 2. Obtain list of senior citizens receiving property tax exemptions from township and village officials and request identification of those most in need.
- 3. Review list secured with area clergymen requesting identification of those most in need.
- 4. Review list of potential project participants with County Council on Aging Coordinators to avoid duplication of outreach effort.
- 5. Submit list to Department of Social Services and request their obtaining release of confidential information from Old Age Assistance recipients to allow site coordinators to contact.

- 6. Conduct outreach activities on an ongoing basis for those senior citizens most in need of project's services.
- (2) Through coordination outreach efforts will be supported by local units of government, County Social Services, Montcalm County Council on Aging, and area churches. Additional outreach efforts will result from the utilization of existing volunteer groups.
- c. Describe the plan to provide transportation and escort services to project participants requiring such services.
  - Indicate the sources of financial support for this effort to be utilized in addition to, or in lieu of, Title VII and non-Federal matching resources.

The County Council on Aging in Montcalm County agreed to support this program by allowing utilization of their existing transportation vehicles whenever possible. Site coordinators and volunteers will provide the remainder of the transportation and escort services required.

- d. Describe the plan for the provision of all other supporting social services (information and referral, health and welfare counseling, nutrition education, shopping assistance, and recreation) required by project participants.
  - Indicate the sources of financial support for each service to be utilized in addition to, or in lieu of, Title VII and non-Federal matching resources.

-59-

Information and referral will be provided by the individual site coordinator with additional support from the Montcalm County Council on Aging staff. Training of Nutrition Project staff is being requested from the Department of Social Services and the Social Security representatives. These agencies will be requested to provide staff at feeding sites one hour per month.

# 6. Relationship of the Project to Other Programs

- a. Describe the activities undertaken with other community service agencies to assure maximum utilization of other public and private resources in support of the proposed project (e.g., joint planning, joint funding).
  What further efforts are planned to be undertaken in obtaining community agency financial and other support for this project?
- b. What other social services or other elements of this project for which funds are not requested in this proposal will be financed with the resources of other agencies or programs?

See attached letters of endorsement.

#### 7. Evaluation

Describe the plans for ongoing evaluation of project activities to assure the project is meeting the objectives established under 4.a. above.

A monthly evaluation of the project will be conducted by relating the objectives as stated earlier in the proposal to a monthly timetable.

- 8. Relationship with U.S.D.A. Program
  - a. Describe how the project will seek to assist older persons apply for food stamps or donated foods as members of households certified for such assistance under U.S.D.A. regulations.

The project will assist senior citizens in securing food stamp assistance by explaining eligibility, application assistance, and providing transportation to purchase food stamps and to utilize them for home food purchases.

b. Indicate whether the applicant agency has been authorized to accept food stamps for home delivered meals.

No, but an effort will be made to secure authorization to accept food stamps for home delivered meals.

c. Indicate the extent to which the applicant agency plans to use U.S.D.A. donated foods in meal preparation.

The applicant agency does not plan to use U.S.D.A. donated foods in meal preparation.

d. Indicate whether the applicant agency is a welfare agency or a governing body of an Indian reservation if it is deemed a Federal agency by the Bureau of Indian Affairs, which has been authorized for distribution of food stamps or donated foods to households certified for such assistance under U.S.D.A. regulations.

The applicant agency is a private, non-profit corporation.

-61-

## III. BUDGET AND FINANCIAL INFORMATION

 Describe the proposed plan for the management and control of the financial resources of the project. Where subcontracts are proposed, special attention should be directed to the method by which the applicant agency will disburse and account for funds to the subcontracting agency(ies).

Financial management and control will be in accordance with acceptable Federal accounting procedures and accounting requirements as outlined under 27.2 of Title VII of The Older Americans Act.

2. If the non-Federal matching proposed by the applicant agency is less than 10% of the project net costs, set forth a justification as to why the applicant agency proposes a lesser rate of non-Federal participation.

# N/A

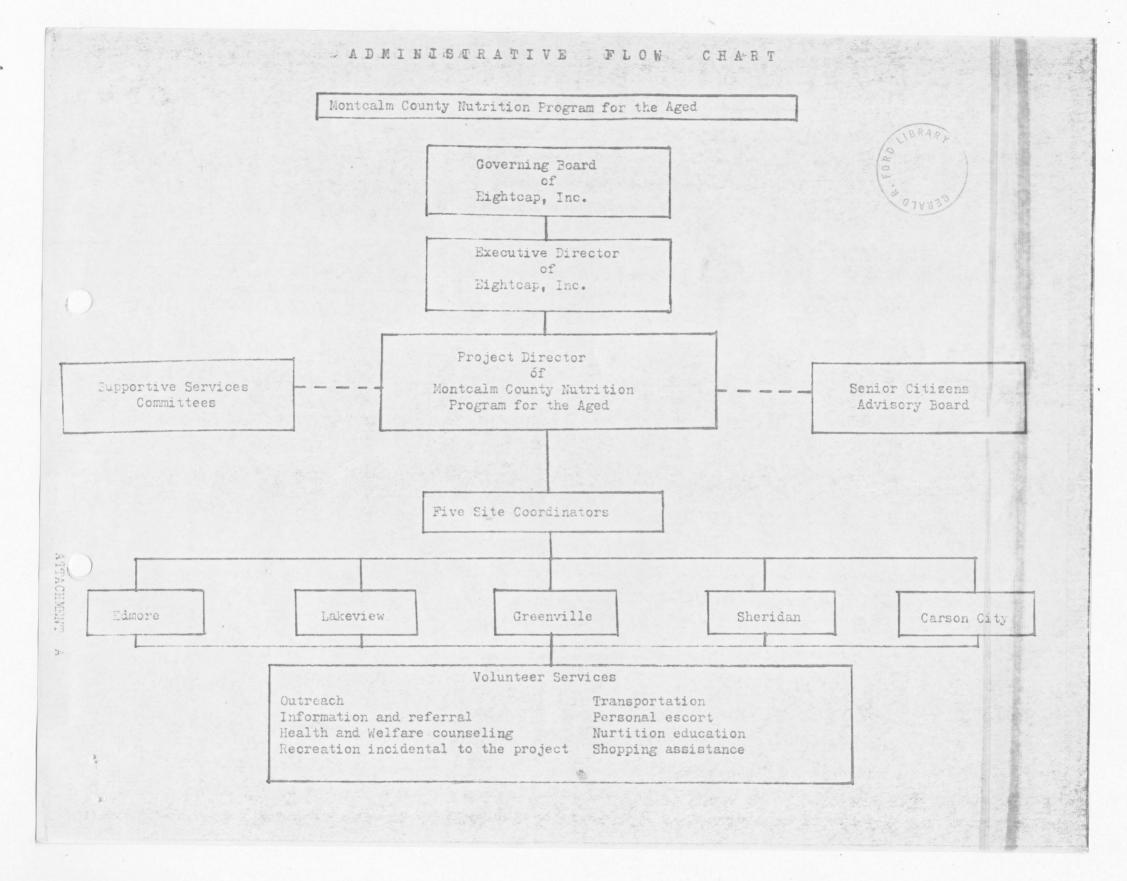

3. Set forth the amount of proposed project funds earmarked for the provision of training of paid and volunteer project personnel as agreed to in Part I of this application.

## \$600.00

4. If the services of volunteers have been included as part of the non-federal participation for the proposed project, the applicant agency must include the rate schedule used to compute such nonfederal participation.

November 19, 1973

TO WHOM IT MAY CONCERN:

de

As a Coordinator for the Montcalm County Council on Aging, I have contacted many Senior Citizens in the past few months. Many of them have need, from a financial standpoint, of a Feeding Program whereby a balanced meal would be provided for them. Many, who live alone and do not have financial need, freely admit they know they don't cook right for themselves because of lack of incentive.

I sincerely hope that our fair share of funds is allocated to Montcalm County for this program because I am sure the need is great.

Kathryn Swift

Kathryn Swift, Coordinator Central Montcalm School District

#### NUTRITION PROGRAM

To Mrs. Audry Malling C/O Community Action Program Eight Cap Inc. R. 1 Subjectiney, Mich. 48885

Dear Mrs.Malling:

I note that the National Nutritional Program for the Aging has opened centers recently in Edmore and Lakeview and I would like to urge your organization provide similar facilities in the Greenville area - and of course for all other areas of the County.

Mr. Kemp and I have been instrumental in helping hundreds of people throughout the County in the last several years and we formed Samaritans Foundation to assist in this program.

We know from our personal knowledge that there are many of the aged who really do not have enough to eat and if they were provided one good meal and a little recreation at least three times a week, it would make a great difference in their lives.

I hope you can arrange to extend this program promptly.

Yours truly

Marian & Kemp

Dear Mrs. Malling:

Our Department is very conscious of a need for some type of nutritional feeding program for the isolated elderly persons of Montcalm County. There are many elderly persons in the county who do not have an adequate diet and are socially isolated. We sincerely hope that every effort be made to continue or expand a feeding program for these people.

You may call on us for information at any time that we can be helpful in operating such a program. I assume that such a service to you would be equal to, if not in access, of one hour per month.

Sincerely,

Dear Mrs. Malling,

The Village of Edmore Council was most interested in the proposal of the Nutritional program for the aged supported by Eightcap, Incorporated which you spoke to us about at our Regular Session held November 5, 1973.

Since that time we have followed the response of the program in our area and find it most worthwhile. We are pleased the pilot program was initiated in Edmore and will continue to support the activities as a liaison in the Outreach Program associated with the above.

Yours very truly,

Jerry C. Macklin

Village Manager

"TO: Ms. Audrey Malling, Montcalm County Program Director, Eight-CAP, Inc. We feel that after participating in the Montcalm County Nutritional Luncheon Program since April of this year it should be continued. It has given us well belanced meals, information on programs that are being given in our community and surrounding areas. We have had speakers from the Dept. of Social Services in Montcalm County who gave us information of what they do such as the areas of mental health, conservation, and home economics. We've enjoyed speakers from our own community, sing-a-longs, trips to a museum--the county fair--county parks--etc. We thank you for the sociability, recreation, and referral services which this program has given and we hope it can continue.

Darsch, Jeck From: eld Ford ton D. C. To:

I, as a Senior Citizen, and a participant in the Medicare Program, am writing concerning the problem of obtaining post hospital nursing home care.

Our present Medicare Program provides for nursing home care after hospitalization. However, in our area no nursing home will accept Medicare patients.

They will accept Medicaid patients and those who have sufficient money to afford a prolonged stay in their facilities.

It appears that only the very poor and very wealthy can obtain nursing home care in this area. Those of us who do not fit in either of the above categories, i.e., who have too much income to qualify for Medicaid and not sufficient money to pay for a prolonged stay, can not obtain nursing home care and benefits.

I pay \$6.80 per month for Medicare, and according to my policy am entitled to this care. I, as a Senior Citizen and a participant in the Medicare Program, wish to go on record as protesting this inequity.

Thank-you for your help.

Sincerely yours,

Darochy Hechsel. I also am opposed to patiento being class -fiel as "basic and skilled" before onte can get Thidiare assistants in qualified medicare Homes.

"Aging" (KIMMEL, William) wheel-chari deaths

October 19, 1973

Mrs. William Kimmel 3842 Grape, N. E. Grand Rapids, Michigan 49505

Dear Mrs. Kimmel,

de

Your recent letter with the enclosed clipping regarding two elderly gentlemen who died in a hospital while waiting to be admitted to a nursing home has been received.

I wholeheartedly agree that this is a most deplorable situation. President Nixon and his Administration has recognized the need to initiate programs to assist the elderly in their retirement years, and if and when these programs can be implemented, many situations such as the one about which you wrote can be eliminated or at least alleviated.

An Administration on Aging has been established in the Department of Health, Education, and Welfare. This Administration has the responsibility of developing programs to assist the elderly in many ways. Right now the emphasis seems to be on programs that would enable older people to continue living in their own homes.

I am enclosing a coph of the President's Message to the Congress in which he makes recommendations for action on behalf of older Americans. I would like to call your particular attention to the section relating to nursing homes and the action of the federal government to upgrade the quality of these homes.

I certainly share your concern that conditions such as the article describes exist anywhere in our country. You may be certain that I will do my best to see that corrective legislation is considered.

Warmest personal-regards.

Sincerely,

Gerald R. Ford, M.C. GRF:rl

Elderly Wait for Space to be Found for Them in Nursing Homes

# Old, Ill and Penniless, Two Die Unnoticed in Hospital Wheelchairs

IAMI (AP) — Volton Jordan and ence Brinson were critically ill, homeand penniless. They died sitting in elchairs in a hospital emergency ward, no one noticed for hours.

ospital officials said both men had been d for several hours before someone ced them slumped over in their elchairs this past week.

**RINSON AND** Jordan, like many other itute and elderly people, had been ight to the busy corridors of Jackson norial Hospital to wait until nursing e space could be found.

"here is no dignity for these people," a kson Hospital administrator said. ey are a forgotten breed. They have no e to go. This is their home until they a place."

ficials said Brinson, 54, had been ing three days in the hospital. Jordan, ad been sitting in his wheelchair for two days. A medical examiner said Jordan died last Friday of heart disease, with other complications. He said Brinson died last Tuesday of chronic pulmonary disease.

TEN PATIENTS like Brinson and Jordan were waiting at the hospital Sunday.

They are indigent elderly, dependent upon public money. They are put in wheelchairs in the hospital's emergency ward, brought there from private homes and residential hotels to wait for admittance to nursing homes that will accept welfare patients.

Officials say that process normally takes two or three days. It can be longer. The patients sit and wait until a home is found.

"WE CONSIDER them boarders rather than patients," hospital spokesman Bill Keck said of the welfare patients. "They are in wheelchairs because we have no beds to admit them.

"Nurses and nurse assistants feed them

three times a day and care for any other needs that boarders may request."

Officials say finding nursing home beds for the indigent is becoming more difficult because many homes say they can't afford to keep patients for the \$13.50 a day the county pays them.

THEY SAID the 10 patients who were waiting Sunday for a nursing home bed is about the average number of welfare "boarders" at the hospital. Earlier this year it was worse.

At one time about 30 "boarders" were stacked up in the waiting room. That problem was solved when the county raised from \$11.50 to \$13.50 the daily allowance it would pay nursing homes to take the patients.

"It's the same all over in every big city," a hospital administrator said. "It's a state problem, a national problem. I just don't know what it takes to get the public to start caring."

October 3, 1973

Representative Gerald Ford House of Representatives Washington D.C.

Dear Sir:

do

The enclosed article appeared in the Grand Rapids Press on Monday, October 1, 1973.

I was appalled to learn that such conditions exist in our United States. How come our government cannot provide for these people? They seem to have enough to send help over the entire world - Vietnam, Nicaragua, - where ever there appears to be a need - we furnish three mansions for Nixon and what happens to the untold millions of dollars that flows through Washington? I believe it is about time we start looking out for our own people - the aged - the needythis is truly a disgrace to our nation. I hope something will be done to alleviate such situations.

Sincerely,

no
