Dear Ms. Kunz:

Thank you very much for your recent letter describing the Denver nutrition project sponsored by the Volunteers of America. I especially enjoyed reading some of the many personal responses by the participants in the program.

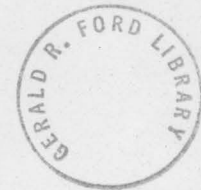

It is very gratifying to hear first-hand from our older citizens that this program created by the Older Americans Act is proving so beneficial. Certainly, a major reason for its effectiveness is a direct result of the outstanding contributions made by organizations such as the Volunteers of America. Only with the cooperation of the private sector of our nation, can this people-oriented nutrition program be operated successfully and expand to reach more of America's older citizens.

I hope you will convey my congratulations and thanks to all of the participants in the Volunteers of America Denver program. Their efforts are greatly appreciated.

With my warm best wishes.

Sincerely,

GERALD R. FORD

On the President's behalf, I want to acknowledge your message. As he values the views of his fellow citizens, he appreciated hearing from you and sends his thanks and best wishes.

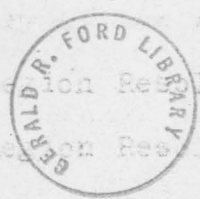

Sincerely,

I heard on the radio news this noon that you were still considering assigning your veto to the strip mine legislation now before you.

This is hard for me to believe after all of the information which this organization of **Roland L. Elliott** has furnished to the Congress of the United States. **Director of Correspondence**

The Watergate and Elleberg break-in's were only a drop in all of the oceans in the world, compared to the scandal which will break loose when the public learns of the cover-up you are giving to the coal industry, the gas industry and the oil industry, in the pollution of our water resources in this country, and the President of our gas and oil sends by flooding with pollutants.

Dear Mr. Stoddard:

Your letter of April 9 addressed to the President and enclosing the Resolution of the Marquette County Commission on Aging concerning the funding of programs under Title III and Title VII of the Older Americans Act has been referred to me.

As you know, the funding level of these programs is determined by law. Congressional action restored all funds appropriated by the Congress for programs under Title III of the Older Americans Act (\$105,000,000) and Title VII (\$125,000,000). These funds have already been released to the State Agencies on Aging.

The President appreciates and shares your concern and interest in programs that benefit our older citizens. Thank you for writing.

Very sincerely and cordially yours,

/s/ Arthur S. Flemming

All those who have been associated with the Isabella Geriatric Center can take great pride in its century of humanitarian service.

Eliska Hasek

The most modern concepts of geriatric care have gone hand in hand with meticulous individual attention at this outstanding home. Ministering to the total needs of the aged and representing the highest traditions of voluntary endeavor in our country, your institution is a credit to our national heritage and way of life. It fully embraces our determination to provide for our older citizens the kind of care which they deserve in their golden years.

You have my very best wishes for the years ahead.
