## D. MAJOR POLITICAL RACES IN OHIO

### Senate

The race between Robert Taft, Jr. and Howard Metzenbaum is by and large a replay of their 1970 contest. Taft, having failed to solidify his position as a popular incumbent, is trying to answer Metzenbaum's charges of ineffectiveness. Metzenbaum, backed by labor but without strong support from Senator Glenn, is trying to carve out a political base from which to operate. Currently the polls give Taft a narrow lead, but the situation is volatile and the outcome uncertain. Coattail effects, along with voter turnout in the urban and southern areas of the state, will make an important difference in this race.

### House of Representatives

Of Ohio's 23 congressional districts, 11 are safe for incumbent Republicans and 7 will remain in Democratic control. The contested districts fall into two categories -- those where Republicans are in serious trouble and those that are close but likely to come through next Tuesday.

Two problem districts for Republican incumbents are:

-- 2nd District (western -- Cincinnati and suburbs): Incumbent Republican Donald Clancy is being challenged by former Rep. Thomas Luken. Clancy is better financed than Luken and has had a better campaign in recent weeks, but the race is considered a toss-up. Luken, who moved into this district following his loss in the 1st district in 1974, has strength in urban areas. Clancy is launching a strong media campaign that may save the day.

-- 17th District (central -- Mansfield, Newark): Incumbent John Ashbrook faces John C. McDonald, a hardworking Democrat who is well-known in the district. Ashbrook's mistake at the beginning of the campaign was to remain in Washington, but he has begun a campaign blitz and has the advantage of a strong Republican organization. McDonald challenged Ashbrook to debate and is attacking Ashbrook's conservatism. This district has to be considered a possible loss, though it will be hard fought in the final days of the campaign.

The remaining districts are:

-- 9th District (northwest -- Toledo): Republican challenger Carleton S. Finkbeiner is giving incumbent Thomas Ashley a run for his money. Finkbeiner is attacking Ashley on the issues of big government and big spending. He has a campaign organization of young and energetic volunteers, and has been getting first-rate support from both moderates and conservatives in the party. Finkbeiner almost beat Ashley two years ago, and this year it looks as if he will win.

-- 12th District (central -- eastern Columbus and suburbs): Incumbent Republican Sam Devine was in trouble earlier in the campaign but his fortunes are improving. His opponent, City Councilwoman Francine Ryan has been hitting him hard, but she is likely to lose needed black voters in Columbus to William Moss, a black Independent. Devine is running well in the rural counties and, despite a tight race, he is likely to remain in office.

-- 19th District (northeast -- Youngstown, Warren): Youngstown mayor Jack Hunter, who has just pulled his city through a difficult municipal workers' strike, is likely to upset incumbent Democrat Charles Carney. Labor is trying hard to give Carney a boost; Hunter, a popular four-term mayor, has the backing of the business community. This district looks like a good shot for a Republican pick-up.

## E. PFC CAMPAIGN OVERVIEW

### Overview

Ohio does not require statewide registration; consequently, voter turnout projections are difficult to predict. Of the approximately 7.1 million persons of voting age, roughly 4 million, or 57%, are estimated to go to the polls this November, based on previous turnout statistics.

PFC strategy is built on a tight precinct organization in cooperation with the Republican State Committee, and concentrates on voter identification and turnout. Programs ongoing include:

1. Advocates Program -- Senator Dole's trip into the southern parts of the state created much enthusiasm for you, and the over twenty out-of-state advocates have added to your visibility and support.
2. Youth Efforts -- College campus voter identification and encouragement in absentee balloting, as well as a state-wide caravan program are considered to be generating very positive results.
3. Farmer and Special Groups Programs -- Again, voter identification and turnout encouragement are the primary focus of PFC efforts with these groups.
4. Press Actualities -- Radio statements have been widely circulated and are considered to be successfully maintaining press attention.

### RNC Phone Centers

Canvassing is concentrated in six counties which comprise approximately 46% of the GOP vote in Ohio: Cuyahoga, Hamilton, Franklin, Montgomery, Summit, and Stark. The 32 phone centers in Ohio with 199 phones have completed 260,726 calls as of October 22, or roughly 30% of the 866,420 calls to be made by November 1.

The phone canvassing has been fully operational as of October 6, and Senator Taft's campaign organization has been most helpful in supplying volunteers and aiding your voter identification effort.

## Advertising

The advertising effort in Ohio consists of a mix of network television, spot television and radio, newspapers and selected special voter group media.

Network advertising is made up of 5-minute films and one-minute spots dealing with your Presidency, your family, and your record in office. Also, beginning this week, a series of "man-on-the-street" spots reinforcing positive impressions of you is running on network prime time.

Spot television features your conversations with workers and farmers, and the man-on-the-street package. Two radio commercials featuring Ohio State coach Woody Hayes are running currently.

Spot television and radio began the week of October 11th.

F. CARTER CAMPAIGN - OHIO

Carter has made four campaign trips to Ohio. He is now scheduled for Cleveland on October 28 and Toledo on October 29.

In Cleveland on September 8 Carter said he opposed forced busing. He visited the Slovenian Society Home where he proposed shifting the cost of government programs from the real property tax to sales, corporations and income taxes. He was dogged by the abortion issue on this trip. Later, he went to suburban Columbus where he responded to the President's criticism of Carter's stand on FBI Director Clarence Kelley. He continued to call for his dismissal.

Carter continued his comments on the President's Rose Garden campaign. He said that when a President "isolates himself in the White House, as Hoover did and as Ford is doing now, the strength and resources of the American people cannot be tapped effectively."

While Mr. Carter said he did not question Mr. Ford's integrity, he said, "I think he has not been a leader."

On October 9, Carter returned to Cleveland where he made some of his harshest criticism of the President. He told a black church audience: "I think Gerald Ford is on shaky ground when he talks about experience. If we'd wanted experience, we'd have kept Richard Nixon.

"At least other Presidents who've been to Poland knew whose tanks they were," he said.

He told labor leaders that Ford "had hidden himself from the public even more than Richard Nixon did at the height of Watergate." He repeated his accusation that the President had been brainwashed.

On October 15 Carter spoke to an airport rally in Cincinnati. He hit unemployment, taxes--citing the Ford Motor Company for not having paid any taxes in two years. He blamed the Ford Administration for the rise in hospital costs and extolled Water Mondale's debate prowess.

G. PUBLIC OPINION POLLS - OHIO

The Cleveland Plain Dealer revealed a Caddell poll taken before the second debate:

Carter	49%
Ford	44%
Undecided	7%

On October 23 another Caddell poll published by the Plain Dealer showed the following

Carter	45.0%
Ford	43.0%
McCarthy	1.5%
Undecided	10.5%

This latest poll showed Carter ahead in Northeast Ohio by 5%. He was even in the rural areas and trailing Ford by 10% in Columbus and Cincinnati. This poll also showed Carter had a narrow margin in Dayton.

OHIO  
ISSUES GUIDANCE

## OHIO ISSUES OVERVIEW

### GENERAL

Ohio is very diversified in population and economic structure. The general issues are high taxes, unemployment and a strong national defense.

#### (1) Nuclear Facility Power Plant at Portsmouth

See "Questions and Answers".

#### (2) Agriculture

Ohio's farmers have had a bumper crop and good harvesting conditions. In this state crops account for larger farm sales than do livestock. Farmer concerns are grain embargoes, price supports, and the direction of farm policy.

### CINCINNATI

General issues that would be well-received are reducing big government and relief for the small businessman. The voters are conservative to moderate. There is strong support for you and concern about Carter's fiscal irresponsibility.

#### (1) Financial Status

The city's operating budget has risen, while its income base has fallen, causing a serious financial problem. An earnings tax, which would add approximately \$12 million annually, is on the ballot. The GOP has been silent on this issue, although individual GOP officials have spoken out against it.

#### (2) Urban Development

City officials wish to meet the housing problem by reclaiming and renovating old housing, but are having difficulty raising the funds. There is a hassle with HUD right now, involving a private group that is attempting to buy run-down housing at a price HUD believes is too low. According to the mayor, HUD stresses new housing and underrates the advantages of renovating old housing.

#### (3) Employment

Unemployment in the corporate area of Cincinnati is at 9+%, down about one percentage point from the spring months. The trend this past year has been good, and the mayor thinks the situation is improving.

(4) Industrial Development Patterns

The disproportionate amount of defense work going to the southern and southwestern states, along with national oil and energy policies, is causing some enterprises to leave Cincinnati. Although the problem is not yet serious, the developing pattern has city officials concerned. There is a feeling that Federal programs and policies are hurting cities like Cincinnati which depend heavily on industrial growth for viability.

(5) Crime

The city's crime rate is moderating, although it is still a key citizen concern. The November ballot includes a curfew provision, placed there by petition.

(6) Busing

There is no extensive busing, and it was not ordered by the courts. This continues to be a hot issue, surfacing most visibly in school board elections.

(7) Mayor Bobbi Sterne

The mayor is a political independent who bends over backwards to maintain neutrality. She is a former city councilwoman, and is exceptionally articulate, bright, and sophisticated regarding city government and the problems of urban areas.

(8) Other Issues

Representative Gradison suggests the following:

-- A local General Electric plant, which employs 10,000 to 12,000 people and produces B-1 bomber engines, would be affected by a Carter victory.

-- Carter has refused to take a position on the effort by some Democrats in Congress to move the new facility of the National Institute of Occupational Safety and Health to another location.

CLEVELAND

Cleveland has a very large, liberal Democratic population (Jewish) and a large conservative Democratic ethnic population (Eastern European). The former are upset by General Brown's remarks and the latter are uncertain because of the Eastern Europe matter. The major issues are the economy, safe streets, and urban problems.

(1) Unemployment

Unemployment is high and, with many workers recently having been out on strike, the realities of unemployment are uppermost in many minds.

(2) Busing

The school system is under Federal court order to implement, within the next few months, a new busing plan whose effect will be to break up the traditional ethnic character of some neighborhood schools. The ethnics do not want black children coming into their schools, and vice-versa.

(3) Federal Outlays to Cleveland

The city receives approximately \$1.3 billion annually from the Federal government, through all combined Federal programs, contracts, and grants-in-aid. It is currently receiving the following specific Federal assistance:

-- Revenue Sharing: \$16 million

-- Community development grant: \$16 million

-- Health grants: \$5 million

-- CETA assistance: 70,000 people trained during the past 3 years, 10,000 youth employed each summer, and 2,000 public service jobs funded in the immediate area (including two neighboring counties).

(4) Mayor Perk

You have strong, vocal support from Mayor Perk, who backed you on several decisions/vetoes that were popular with the big city mayors, including the public works counter-cyclical bill. He played a key role in your endorsement by the Cleveland Plain-Dealer. He is also closely identified with the ethnics.

COLUMBUS

This is the state capital and the most rapidly growing city in the state. It is conservative and Republican (as is Mayor Tom Moody) but becoming more liberal. An interesting local issue on the ballot is the school levy, which may be defeated because it is widely perceived as making funds available for busing.

OHIO  
QUESTIONS & ANSWERS

**POSITION ON CONSTRUCTION OF GOVERNMENT-OWNED ADD-ON URANIUM  
ENRICHMENT PLANT AT PIKETON (NEAR PORTSMOUTH), OHIO**

---

- Q. Are you firmly committed to build the add-on Government-owned uranium enrichment plant at Piketon (near Portsmouth), Ohio? Or, are you going to insist on turning uranium enrichment over to private industry?**
- A. I am committed to the completion of the Portsmouth -- or Piketon add-on plant -- subject, of course, to completion of the necessary environmental requirements.**

The Congress has approved some of the money I requested for planning and engineering work for the plant, and that work is underway. I will ask the next Congress for additional funds to continue work on the plant.

**Background**

The commitment on plant completion is the same as the one you made to Congressman Harsha in a July 29, 1976, letter. The environmental qualification is necessary because of potential court challenges and because of opposition from Ohio environmentalists..

The specifics of your record on the Portsmouth plant are:

- On June 26, 1975, you proposed the Nuclear Fuel Assurance Act which contemplated private industry involvement but also provided for construction planning and design for expansion of a Government-owned enrichment plant.
- On May 5, 1976, you asked Congress to approve \$12.6 million for continuing design work for Portsmouth through the remainder of FY 1976 and the transition quarter.
- On May 26, 1976, you announced in Columbus that you would accept the NFAA as reported by the JCAE on May 14, 1976, which bill included authorization of \$255 million for Portsmouth.
- On June 4, 1976, you requested \$178.8 million for FY 1977 for design, planning and long lead-time procurement for the Portsmouth plant. Congress appropriated the money but both bills containing the authorization failed (the NFAA and the 1977 ERDA authorization bill).
- On October 11, 1976, you signed the continuing resolution which permits ERDA to obligate about \$50 million up to March 31, 1977 (additional Congressional action needed to spend the rest of the \$178.8 million).

The plant was estimated to cost \$2.8 billion (1976 dollars). Current estimate is that costs will rise to \$4.4 billion.

GRS 10/26/76

ECONOMIC DEVELOPMENT IN CINCINNATI AND CLEVELAND

Q. What is the Federal government doing about economic development problems in Cincinnati and Cleveland?

A. Both Cincinnati and Cleveland have shared in the nation-wide research and technical assistance studies conducted by the Economic Development Administration.

Job-development programs conducted by the City of Cincinnati and the Determined Young Men, an organization established to encourage Black entrepreneurship, have received grants from EDA to help provide assistance for minority workers.

Cleveland, also, has pursued programs to assist minority group workers with EDA assistance. The Black Economic Union has received financial support from the agency, as have a small business center and business education programs operated by the City.

EDA also has participated in studies for a multi-level industrial building and an international trade center to stimulate jobs for minority group workers in Cleveland.

On the construction side, the agency has approved grants totaling more than \$1.7 million for new construction at the Port of Cleveland and approved another \$1 million grant for water and street improvements in the city.

PCL 10/21/76

(Ohio)

PUBLIC WORKS PROGRAM

- Q. How much can Ohio expect to get from the new Local Public Works Capital Development and Investment Program?
- A. Ohio and its communities will receive a total of \$59,578,000. All cities may apply for 100% grants to construct public facilities, with priority going to those with unemployment above the national average. The Economic Development Administration began accepting applications for grants on October 26, and expects to process them within 45 days so that construction can get under way quickly.

Background

Under this \$2 billion program the basis for allocating funds to the states will be the actual number of unemployed workers and the state unemployment rate compared to the national rate. State allocations will range from a minimum of \$10 million to a maximum of \$250 million.

In approving individual project applications, first priority will be given to the projects that provide the largest number of jobs and that can be started immediately.

PCL  
10/21/76/AB

CETA -- CLEVELAND, OHIO

Q. Why was the city of Cleveland ordered by the Department of Labor to reimburse the CETA program to the tune of over \$1 million?

A. Several unauthorized expenditures by the Cleveland prime sponsor were identified and reimbursement was necessary. Over 80% of the unauthorized expenditures (\$863,690) occurred because salaries in excess of the \$10,000 limit were paid.

Background

The CETA program in Cleveland has had some significant problems in the past, including high drop-out rates, high administrative costs, and inadequate program monitoring. DOL has noted satisfactory progress in Cleveland's efforts to correct all deficiencies.

Other unauthorized expenditures were a \$170,000 monitoring contract and \$20,000 for T-shirts.

WMD  
10/20/76/AB

## MINORITY BUSINESS

- Q. In any adverse economic situation, it seems minority business is hardest hit. What are you doing about the problems that minority businesses face?
- A. We are seeing some very favorable trends for minority business in the United States. The minority financial community is strengthening -- more banks, more S-and-Ls, more venture capital -- and the tight money problems historically experienced by minority business firms are easing. We expect minority business receipts to double between 1972 and 1977, from \$16 billion to \$32 billion. Then, by 1982, we expect them to have doubled again, from \$32 to \$67 billion. The Office of Minority Business Enterprise in the Commerce Department and the Small Business Administration have strong programs to assist minority business, and I fully support these efforts.

As for Ohio, Commerce Department figures show that our programs to encourage minority business are catching hold. In Cleveland and Cincinnati, our funded organizations last year helped minority business secure 156 procurement contracts totaling about \$13.2 million. They also helped minority business prepare some 56 loan packages having a total value of about \$4 million.

MEDICAID FRAUD AND ABUSE -- OHIO

Q. What is being done to combat fraud and abuse in the Medicaid program?

A. A Federal-State team is currently in Ohio investigating fraud and abuse. HEW is also adding additional investigators, and the State is stepping up its monitoring and surveillance efforts.

Let me add that about two weeks ago (October 15) I signed into law a bill creating an independent office of the Inspector General in the Department of HEW. The task of the Inspector General is to ferret out the abuses. My choice for the position will be made solely on the basis of demonstrated ability and poiltics won't enter into it.

Background

A Federal-State team of investigators is currently in Columbus reviewing the Medicaid program for fraud and abuse. An investigation of nursing homes in Ohio is expected to be undertaken in the near future.

## GRAIN RESERVES

- Q. Why don't you tell Kissinger to forget about building up international grain reserves? They'd just depress market.
- A. Republicans at Kansas City simply said: "We oppose government-controlled grain reserves..." I agree.

Some reserve guidelines are helpful for meeting unusual situations. The important thing is who controls those reserves. My position is that each nation should be free to control its own reserves. For us, that means the reserves will be carried by farmers and the private trade.

Reserves in the hands of government cost millions of dollars to store, require massive bureaucracy, lead to strict acreage controls and political manipulation, and depress prices to farmers. The United States ends up in the position of a residual supplier of global markets. We've had enough of that.

### Background

Mr. Carter and the Democratic Platform call for the creation of a predictable, stable, reasonably small grain reserve, with up to a two-month supply. Prominent groups like the Committee for Economic Development (CED) and the National Planning Committee have also suggested the need for government-held grain reserves.

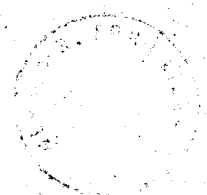

In the past, large surplus grain stocks held in the US, Canada, and Australia served as the world's reserve system. Now those surpluses are gone and other countries -- the grain importing nations among them -- must help carry a larger share of the load.

Two principles now guide the United States on the issue of reserve stocks:

First, given the fact that the United States supplies more than half the grain moving in world trade, our market-oriented full-production policy makes an important contribution to world food security.

Second, It is up to each government to determine how to hold reserves. Given US reliance on market orientations, our grain reserves will be under private ownership.

PCL  
10/20/76/AB

## FARM PRICE SUPPORT LEVELS

- Q. Some agricultural interests advocate setting farm price supports at least equal to the cost of production. At what level would you set target prices and farm price support loans if you had your way?
- A. I favor increasing protection levels somewhat because of rising farm operating costs, and I'll ask Congress to make some changes when it convenes in January.

As for target prices, they should be high enough to protect the farmer from heavy loss, and yet not so high as to stimulate over-production. During weak markets, adequate target prices encourage farmers to maintain production and to continue to produce a quality product.

As for loan levels, in early October, I directed the Secretary of Agriculture to use existing authority to increase the loan rate on wheat and feed grains so that farmers could hold these commodities off the market while waiting for a better time to sell. The higher loan rate will provide growers with more interim operating capital.

### Background

Under our market-oriented food policy, net farm income has averaged \$28.4 billion annually for the three-year 1973-1975 period, compared with only \$12.3 billion in 1968.

The old and new per bushel loan rates (national average) on wheat, feed grains, and soybeans are as follows:

	<u>Old</u>	<u>New</u> (10/13/76)
Wheat	\$1.50	\$2.25
Corn	1.25	1.50
Soybeans	2.50	2.50
Sorghum	1.19	1.43
Barley	1.02	1.22
Oats	.60	.72
Rye	1.00	1.20

PCL  
10/19/76/AB

## AGRICULTURAL EXPORTS

- Q. The prosperity of American farms is tied closely to agricultural exports. Is there a danger that foreign countries will not want our agricultural production?
- A. I see little danger of this. In the first seven months of 1976, \$13 billion in agricultural products were exported, slightly ahead of the same period last year. With severe droughts having curtailed farm production in several European countries, their demand for US farm products has increased.

As for the long term, there is very, very little likelihood that we will have a surplus of US agricultural production as long as we keep open our exports to foreign countries. Our farmers, the most productive and efficient farmers in the world, can compete effectively in world markets.

Moreover, foreign markets should continue to grow. Our Long-Term Grain Supply Agreement with Russia alone ensures the sale of 6 million metric tons of US corn and wheat tons of US corn and wheat each year. And, many countries, unable to raise enough to feed their growing populations, need not only products from US farms but also need our advice and technological expertise. The world population will almost double by the turn of the century. The farmers of America and the world are going to be hard-pressed to keep up.

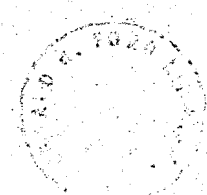

### Background

US agricultural exports are up 4% for the January-July period of 1976. Gains have occurred for all major commodities, except wheat, rice, cotton, vegetable oils, and dairy products.

During fiscal year 1976, US farmers:

- Sold the production of nearly one crop acre in three on global markets.
- Earned almost 25% of their cash receipts in the world market.
- Exported:
  - 55% of their wheat
  - 51% of their soybeans
  - 50% of their cowhides
  - 47% of their rice
  - 40% of their cotton
  - 25% of their feedgrains
  - 20% of their tobacco

PCL  
10/19/76/AB

## SOYBEAN SITUATION

Q. In recent years the growth of uses for soybeans has spurred increased plantings. Markets for soybeans, soybean oil, soybean oil meal, and other by-products are increasing both at home and abroad. What is the outlook this year for soybean growers?

A. Soybean production this year is forecast at 1,250 million bushels. This is about 2% (or 25 million bushels) below earlier forecasts and about 18% below last year. This is a short crop, and current prices show it. The crop, however, is not what you would describe as "alarmingly low".

The harvest of soybeans was finished mostly ahead of other years (only a small acreage remains unharvested).

Note: There is some concern among soybean growers that the sharp increase in palm oil production and imports in the last five years will erode the market for US soybean oil. It is estimated that projects financed by international development banks accounted for about a fourth of the increase in world palm oil production and about a fifth of the increase in exports. Last summer (July 26) the US indicated it would no longer support loans by international development banks to expand palm oil production for export trade purposes. This, plus the fact that palm oil no longer enjoys a price advantage over our soybean oil, should cause the threat to our market to decline.

PCL  
10/27/76/AB

AGRICULTURE AND THE TRADE NEGOTIATIONS

- Q. In the current "Tokyo Round" of negotiations in Geneva, will agriculture be sold down the river again?
- A. I have directed our negotiators to insist that agriculture be an integral part of those discussions. The only way to obtain the best possible agreements for US farmers is for agricultural and industrial issues to be treated in one package. So far, we've been successful in this approach.

Under the Kennedy Round of negotiations a few years ago, agriculture did not fare well because agricultural tariff concessions were negotiated separately from industrial concessions. You have my assurances that farmers will not be sold down the river by my Administration during the current negotiations -- or at any other time.

I have also ordered our negotiators to vigorously represent our Nation's economic interests, guard against protectionism, and insist that the principles of fair trade be scrupulously observed.

PCL  
10/20/76/AB

INTERIM REPORT OF THE COMMITTEE ON  
URBAN DEVELOPMENT AND NEIGHBORHOOD REVITALIZATION

- Q. The Committee's report does not advocate additional Federal funds for cities. Isn't that what is really necessary to end urban blight, stagnant economies, and the deterioration of city neighborhoods?
- A. We all know that money alone will not solve these problems. The Federal government in past years has spent billions in misguided programs like urban renewal which have worsened urban difficulties rather than improve them.

What is required is community effort, real cooperation between local officials and Federal officials, and well-designed programs. I'm thinking here of Administration programs like Revenue Sharing and Community Development Block Grants, which furnished cities with the resources to deal with problems according to their own priorities rather than those directed by Washington. This approach is the democratic way to deal with urban problems.

The report of the Committee on Urban Development and Neighborhood Revitalization opposes massive additional Federal funding at this time. It concludes that if spending programs are properly coordinated and targeted, the billions of Federal dollars now being spent may be enough.

FLM  
10/20/76/AB

## HOG SITUATION

- Q. The number of hogs being produced is increasing. Does this mean that retail prices on pork will be falling? And what does it mean to farmers?
- A. It is clear that the hog cycle, in terms of numbers is on the upswing, but retail pork prices may not fall too much. That's because, while the amount of pork is increasing, so is the demand. In the third quarter of this year, almost 3 billion pounds of pork were produced, 15% more than in the third quarter a year ago. The average retail price per pound was \$1.38 compared to \$1.49 a year ago.

### Background

Farmers received an average of \$43.33 per hundred weight last quarter compared to \$56.20 a year earlier. There was a 21% increase in the number of hogs farrowed this summer, which means that the supply of pork probably will increase in 1977. Hog slaughter could be 18% above 1976 during the first half of 1977.

PCL

OHIO (Buckeye State)

Capital: Columbus

Area: 41,222 sq. miles (ranks 35th nationally)

Famous Citizens: General Sherman, Eddie Rickenbacker, Edison, Orville Wright, George Bellows, Ambrose Bierce, Sherwood Anderson.

Demographics:

- Population: 10,737,000; 5.0% of U.S. total; ranked 6th nationally.\* Urban-44%; Suburban-31%; Rural-25%.
- Median Age: 27.7 years (28.1 nationally).
- Education: (over age 25) - Four Years High School-53%, Four Years College-9%.
- Median Year Education: 12.1 (12.1 nationally)
- Median Family Income: \$10,309, ranked 13th nationally. White Families-\$10,521; Black Families-\$7,763; Families Below \$3,743 - 8%.
- Work Force: Women - 1,545,425 (36%); Men - 2,709,528 (64%)  
Civilian Work Force: Craftsmen, foremen - 14%; Professional, technicians, administrators, managers, clerical - 36%; Operatives and non-farm laborers - 24%; Other - 36%. 20,495 workers were employed in the Armed Forces, or .4% of the total work force.
- 1974 Share of Federal Tax Burden - 5.16% of U.S. total, (ranked 5th)
- Racial/Ethnic Groups: White-90.6%; Black-9%.  
Total Foreign stock-12%; Germany, Italy - 2% each;  
Poland, United Kingdom - 1% each.
- June 1976 Unemployment: 7.2%

Economic Base:

Agriculture: Despite industrialization, farming is still important in the state. Livestock - state ranks high in milk cows, hogs, and sheep. The most important crops are corn, oats, soybeans, grapes, and clover.

--Ranked tenth among the states with receipts totalling over \$2.7 billion.

Minerals: Principle minerals in order of value include bituminous coal, lime, clays, sand and gravel.

Manufacture: Ohio is the nation's third most important

\* 1974 U. S. Department of Commerce figure, Statistical Abstract of the U. S. 1975, p. 12.

OHIO

industrial state. Leading major industry groups in value added by manufacture include tires, machine tools, business machines, glassware, cutlery, clay, and metal products.

--Value added by manufacture totaled \$23.1 billion in 1974.

### History

- LaSalle visited and explored the region.
- 1685 - American fur traders arrived; the French and Indians sought to drive them out.
- 1774 - Virginians defeat Indians during Revolution.
- 1788 - Region becomes U.S. territory.
- 1794 - Indian warfare ends at battle of Fallen Timbers.
- 1803 - (March 1st) Ohio becomes the 17th State.
- War of 1812 ends British incursions.

FACT SHEET FROM ERDA

OHIO

ERDA activities in Ohio involve important and strategic efforts in both national energy and national security programs.

NATIONAL ENERGY

-- Uranium Enrichment

The Portsmouth Gaseous Diffusion Plant, operated for ERDA by Goodyear Atomic Corporation, produces enriched uranium used in fuel elements for nuclear power plants and for programs of national defense. Representing an investment of some \$785 million in plant and equipment, the facility employs about 2,500.

The Administration plans to expand the plant, located at Piketon. Some \$13 million was provided in Fiscal Year 1976 and the Transition Quarter for architect-engineering work. \$170 million has been appropriated for FY 1977 but only about \$50 million of that is covered by the continuing resolution under which ERDA is proceeding (ERDA's Authorization bill failed.)

This expansion -- the Portsmouth add-on -- will require a large labor force to construct, and will employ approximately 450 additional operating employees when it is completed.

The add-on facility, which will cost about \$4.4 billion (\$2.8 billion in 1976 dollars) will provide new uranium enrichment capacity needed to fulfill existing contracts (not new contracts). It is expected to begin construction in the mid-1980's.

NATIONAL ENERGY (Con't)

-- Wind Energy

NASA/Lewis Research Center is performing experimental wind studies for ERDA. These include construction and operation of a 100 kilowatt wind generator at Sandusky, Ohio, which is the largest windmill operational in the U.S. It is yielding valuable data on the performance characteristics of such large systems to produce electricity.

NASA/Lewis is also helping ERDA assess and evaluate sites for installation of four larger wind turbines, up to 1.5 megawatts in electrical generating capacity, over the next two to three years.

NASA/Lewis will be responsible for building the first two based on its design of the wind turbine at Sandusky. They will be 150 kw and 200 kw respectively.

The General Electric Co. and Hamilton Standard have been selected by ERDA and NASA/Lewis to build the third machine, a 1.5 megawatt system, with an option to build the fourth.

NATIONAL SECURITY

-- Mound Laboratory

Operated by Monsanto Research Corporation, Mound Laboratory is a research, development and production facility which manufactures detonators and other explosive components

(MORE)

NATIONAL SECURITY (Con't)

for weapons. Mound is also responsible for fabrication of Plutonium 238 heat sources for electric power generators used in the space program. Monsanto employs about 1,400 with a payroll of about \$32 million. The FY 1977 operating budget is \$43 million.

JRH 10/20/76

OHIO  
PRESS ANALYSIS

CINCINNATI ENQUIRER

LOCAL ISSUES

Backed by a GAO report, Rep. Clancy asked Air Force to reconsider its decision to contract with private manufacturers to produce special armor piercing ammunition for the A-10 weapon system. Clancy wants to restore full use of a government owned plant being phased out in North Hamilton County. (8-26-76)

Reps. Gradison and Regula of Ohio were making plea for their election. Poll shows 7 of 10 disapprove of Congress, 8 of 10 feels a change in make-up would make a difference. Two to one feel its more important to change Congress than the White House. (8-18-76)

Interviews with several prominent black Republicans expressed shock and indignation at the Butz remark and all called for his resignation. (Article, 10-4-76)

Cleveland Mayor Perk announced a Republican mayors campaign to keep GOP in White House...he praised federal revenue sharing program. Indianapolis and San Diego mayors joined in and will enlist GOP mayors of cities of all sizes. (8-18-76)

Gradison aide Ron Roberts has taken a leave of absence to assist National Republican Committee to win additional GOP seats in Congress. (8-19-76)

Ohio Governor Rhodes disagrees with GOP plan that spells out the party's opposition to federalization of the welfare system.

CAMPAIGN

Supports Ford now more than ever...his congressional leadership, unclouded personal integrity makes him superior candidate. (Editorial, 8-15-76)

Credit of national recovery (unemployment dropping, stock market humming and economic indices bright) should go to Ford...vetos have been gratifying numerous... mood of prosperity in nation, public should not "rock the boat." (Editorial, 8-1-76)

## CAMPAIGN

Reacting to Ford primary losses, column urges "more news from the White House showing President acting as President and not as a candidate." Predicts American people will see Ford as a "leader in domestic and foreign affairs and as the man they have no choice but to support." (Column, 5-11-76)

Examines similarities between President Ford's position in polls and Harry Truman's in 1948. Concludes Ford "is realistic enough to recognize the odds against him; but has his sense of history to tell him that his challenge is no more formidable than the challenge that beset Truman in 1948." (Column, 8-15-76)

Predicting the 1976 Democratic and Republican party platforms give voters a clear idea of what they can expect after the elections, editorial chides Democrats for advocating socialized medicine, a "meddling" consumer protection bureaucracy, a federally guaranteed income, all of which will result in a "vast inflation of the federal bureaucracy." Calls the Republican platform "most realistic in a generation." (Editorial, 8-22-76)

Examines the considerations given by Ford and Carter to choosing their running mates. (Column 8-22-76)

Claims selection of Dole, a conservative in philosophy but flamboyant in style, will permit the GOP to concentrate on very liberal Mondale Senate record. Dole's 'persona non grata' status at the White House during the Watergate era should also be effective in defusing Democratic hints at GOP corruption. (Editorial, 8-22-76)

Questions whether the GOP has the strategy to put Ohio in the Ford column in November. Quotes GOP State Chairman Kent McGough that Ford will need 15% of the Democratic vote plus one-half of the independent vote to assure victory. (Column, 8-22-76)

## PARDON

The Nixon pardon was legally and morally necessary... its issuance constituted a singular act of courage by Ford...Mr. Nixon has not escaped punishment. It started putting Watergate behind us. (Editorial, 9-8-76)

## BUSING

The Enquirer thinks busing should be an issue...Ford is so far behind he should gamble on emphasizing issues which have nothing to do with being Democrat or Republican... should sell the voters that it is in Congress where changes in Washington are needed. (Editorial, 8-31-76)

"'Silent Majority' Blacks Back GOP" - Mrs. Mary Parrish Walton is black and opposes busing for racially balanced classrooms...she was campaigning for GOP and tells why blacks should get active in Republican party. Money would have been better spent on quality education...also uses up valuable and costly fuel. (Article, 8-20-76)

## ABORTION

"We would hope the Senate would recognize the validity of the House position that the American people should not be forced to finance abortions for the poor, or anyone else for that matter." (Editorial, 8-16-76)

## B-1 BOMBER

Discusses GOP platform from a national, as well as state level of significance, including the B-1 bomber: "This will mean 10,000-12,000 jobs in our area, with GE's Evendale plant making the engines," the column quotes Republican Congressman Donald Clancy. (Column, 8-17-76)

## DAY CARE

Editorial is against new efforts to pass a day care bill saying "it only delays, not kills, absurd staffing standards" and is no better than a similar bill vetoed by the President on April 6. (Editorial 5/26/76)

## JOBS BILL

Strongly endorses President Ford's veto of the public works job bill which would have cost \$3.95 billion. Saying it "would be tempting to take the easy way out...and this bill would not produce the 300,000 jobs, but only about one-half that number at a cost of higher inflation...." The editorial urges a continuation of the Ford anti-inflation program and calls it a "success story." (Editorial)

## FOREIGN POLICY

Supports U.S. role in helping Latin American become more economically strong through backing of their drive for higher and more stable prices for their commodity exports. Points out, however, a gap between Kissinger's policies and that of other departments, including Treasury which opposes the U.S. joining in international commodity agreements setting prices at higher levels than in the free market of the past. Predicts "disastrous" results if no agreement is reached on one foreign policy on Latin America. (Editorial, 2-27-76)

Editorial strongly supports President Ford's veto of a \$4 billion authorization bill covering foreign military aid. It condemns Congressional attempts to "create" foreign policy and said the President acted "to preserve long-established presidential prerogatives." (Editorial, 5-12-76)

## FOOD STAMPS

Urges House to reject Senate food stamp bill it claims would help the "working poor" at the expense of taxpayers. Suggests a better bill is Ford reorganization plan to limit food stamps to those at poverty level and save \$1.2 billion. (Editorial, 4-26-76)

## MEDICARE

Examines President Ford's proposal to save up to \$1.7 billion in the cost of Medicare and protect elderly citizens by placing \$500 ceiling on what senior citizens must pay in one year for medical costs. While urging further study and analysis, editorial is generally favorable to Ford initiatives. (Editorial, 4-3-76)

CLEVELAND PLAIN DEALER

CAMPAIGN

Carter Humanizes Issues

Political writer Joseph Rice said a recent visit by Carter to Cleveland showed he "is much better at humanizing things than Ford." He cites a visit by Carter to the black Olivet Institutional Baptist Church where "he moved the audience when he talked of poverty and the need to end it and the Civil Rights Act". Says Carter has been able to humanize unemployment and other issues while President Ford only spews statistics.  
--Analysis (10/17/76)

Abortion

The Bishop of Cleveland's Catholic Diocese, James A. Hickey, issued a statement reiterating his anti-abortion stand and asking Catholics to press for an amendment to the Constitution. Hickey said hunger, inadequate health care, lack of decent housing and quality education and proliferation of weapons of destruction are also pro-life issues.  
--Article (9/26/76)

Carter in Youngstown

Jimmy Carter accused President Ford in an appearance in Youngstown of lying about his positions on the issues of defense, taxes, new federal programs, and home mortgages. He also appeared in Cincinnati where he said there were 2½ million more people unemployed now than when Ford took office.  
--Article (10/17/76)

Carter's Peanut Brigade in Ohio

A nine-day, 2400 mile bus trip through rural Ohio by a group of Carter supporters known as "The Peanut Brigade" apparently met with mixed reactions from Ohio voters. One man, unused to attention from candidates in the country, said he would vote for Carter but there was some evidence of hostility by those Ohioans who resented the Bridage's visit.  
--Article (10/17/76)

CLEVELAND PLAIN DEALER

Reagan in Ohio

In an interview with the Plain Dealer while campaigning for President Ford in Ohio, Ronald Reagan said he believed the President should be more aggressive. Soviet domination of Eastern Europe began during the Roosevelt administration, and Secretary Kissinger has been an albatross around President Ford's neck. Reagan also hinted that he would be the Republican candidate in 1980 if President Ford loses the election.

--Article (10/21/76)

Plain Dealer Endorses Ford

Saying both President Ford and Carter "agree on the broad design of the balance of power politics currently pursued by the U.S.", editorial believes Carter's differences with President Ford's administration are "centered on style and nuance rather than substance." Says Carter "naively condemned what he described as secrecy with which the administration pursues foreign policy." Characterizes President Ford's Eastern European remark as "seen as the major misstatement of either of the two debates."

--Editorial (10/8/76)

Butz

Reaction to the resignation of Earl Butz in Ohio is described in this article. It includes remarks from Director of Ohio Department of Agriculture John M. Stackhouse, "he is the greatest Secretary of Agriculture and the person who has done more to restore dignity to the profession of farming than any man in my lifetime."

Morris E. Alton, VP of Ohio Farm Bureau: "Remark was bad but I'm not sure it was worth the sacrifice of the best man I've seen in that job in my 28 years here."

--Article (10/5/76)

CLEVELAND PLAIN DEALER

Hometown Folks on Carter

In the first of a series to learn how Georgia blacks react to Jimmy Carter, the article detects no groundswell of sentiment for Carter among the blacks in Carter's homestate. Indifference was more often the case. Of special interest was an interview with Plains, Georgia's leading black entrepreneur, Charles Hicks. He describes various members of the Carter family. "Jimmy has never been as bad about blacks as his brother, Billy" they said, and "neither Carter is as bad as their father, and no one is as bad as Jimmy's uncle." The Hicks recalled the days when civil rights workers were run out of town by local whites: "Jimmy wasn't chasing anybody but he wasn't rrying to stop it," they said.

--Column (8/11/76)

GENERAL ISSUES

pro-Ford

Praises President Ford for casting 54th veto of bill to give members of Congress a special tax exemption to keep them from paying Maryland state and local income taxes.

--Editorial (8/5/76)

anti-Ford

Columnist George P. Rasanen writes that despite President Ford blaming the Congress for nation's economic ills, the record does not substantiate Ford's claim of a do-nothing Congress. Recalling October 1974 and the Ford proposal of a 5% tax surcharge and WIN buttons, Rasanen says the Ford program of tax increases and federal spending reductions would have triggered an even worse recession.

He says the Congress, in early 1975, replaced Ford's \$16 billion tax cut with a \$22.8 billion program distributed more evenly to assist the poor and middle class. He quotes Brookings Institute economist Arthur Okun and U. S. Trust Co of New York Vice Chairman James O'Leary as "giving Congress a higher grade for performance in response to the recession and doubting anyone would take the Ford budget seriously."

--Column (8/30/76)

CLEVELAND PLAIN DEALER

anti-Ford

On Congress' plan for oil price rollback plan which would allow prices to raise 10% a year until 1977 when they would be even with current prices: "Mr. Ford has wanted higher prices, not lower ones. He has wanted to discourage use of fuel. This will encourage use of it... Mr. Ford is fearful of voter disapproval. That is clear from his softening on issues such as this one on energy conservation. Such switches of position do nothing to enhance his stature."  
--Editorial (11/17/76)

Neutral

On legislation to prohibit foreign bribery by American corporations: "If the administration and Congress, not to mention the American business community, wish to foster respect for American ideals abroad, they must move with greater dispatch to make foreign bribery illegal."  
--Editorial (8/28/76)

FOREIGN POLICY

pro-Administration

Strongly supports American show of military might following the killing of two American officers by North Korea. Calls the cutting down of the poplar tree an "effective gesture" which caused the North Koreans to lose face. Claims continuing presence of U.S. in Korea is "essential" to avoid necessity for Japan to adopt either neutrality policy or rearmament program which would include nuclear weapons. This despite editorial reservations about S. Korean regime.  
--Editorial (9/5/76)

U.S. Vietnam Veto  
pro-Administration

Supports the U.S. veto of Vietnam membership in the United Nations. Says the U.S. should not cooperate with Vietnam until the MIAs are accounted for.  
--Editorial (9/15/76)

CLEVELAND PLAIN DEALER

U.S./Taiwan

Urges the U.S. not to turn its back on Taiwan to get favorable treatment from Red China.

--Editorial (9/19/76)

Arms Sales  
pro-Administration

While the U.S. may be the world's arms suppliers, there are benefits which justify that title. The sales permit the U.S. to maintain relations while allowing customer nations to guard key areas. In addition, the sales counterbalance heavy costs of imported oil and reduce the cost of arms bought by the Pentagon.

--Editorial (9/14/76)

pro-Administration

Saying Secretary of State Kissinger is "acting correctly for peaceful solutions to its troubles and deserves the backing of the American public," the editorial strongly endorses Kissinger as a "new but energetic champion of black rights in South Africa." The editorial cites Marxist victories in Angola and Mozambique as reasons for the new Kissinger role, including the continuing presence of 12,000 Cubans in Angola, ready to fight to help other black nationalist groups.

--Editorial (9/6/76)

## OHIO

Since the first general revenue sharing payments were made in December of 1972, Ohio State and local governments have received more than \$1.1 billion in shared revenues to meet those needs which you and your officials consider to be most pressing.

Through general revenue sharing, Federal money is returned to your governments to be used in ways that you think are best. We in Washington do not presume to tell you what we think your priorities should be or how to spend this money. Revenue sharing also helps relieve pressure on regressive local real estate taxes by helping to bridge the gap between the budgetary needs of your government and locally raised revenues.

The State government of Ohio has received more than \$380 million to date in shared revenues and can look forward to another payment of \$22.4 million in January. The State has chosen to use the bulk of this money in support of education throughout Ohio and to allocate significant additional amounts for health services, environmental protection, corrections, public safety and economic development. Use of revenue sharing funds in this manner has helped Ohio hold the line on state tax increases.

The 88 counties, 936 cities and 1,320 townships of Ohio which receive regular quarterly revenue sharing payments have spent their money for a variety of purposes to insure that services needed by their citizens are maintained. One of the more interesting discoveries I made is the popularity of certain township names in Ohio. I found that there are in the state 25 Liberty Townships, 26 Perry Townships and 28 Union Townships. Those townships which have been named for U.S. Presidents, however, are greatest in number with 22 named for Monroe, 24 for Jefferson, 37 for Jackson and fully 43 for President Washington.

Fortunately, we have not had any problem making certain that each of these townships receives the correct amount of revenue sharing to which it is entitled, since each of the 38,000 governments throughout the country has its own, unique, identifying account number.

As far as uses of these funds are concerned, the City of Dayton has spent the bulk of its shared revenues for such basic services as waste collection and street maintenance. Columbus has used nearly half of its revenue sharing funds for planning and implementing a new solid waste disposal system plus major expenditures for neighborhood health centers, alcoholism treatment, economic development, child care services and summer recreation programs.

In Cleveland, early revenue sharing receipts were used for salaries and other operating expenses of the police and fire departments as well as a housing demolition program, street lighting and an expanded recreation program. More recently, however, the rising cost of basic municipal services has forced the city to spend an ever larger portion of its revenue sharing allocation to maintain police and fire services by paying for salaries and other operating expenses.

Cincinnati has devoted its revenue sharing allocation to the operation and maintenance of such basic city services as police and fire protection, sanitation services, public transportation, health services, recreation, financial administration and social services for the poor and aged.
