DETAILED TOUR ITINERARY

GREENBRIAR NURSING HOME

Mrs. Nixon
Mrs. George P. Shultz
Mrs. Blanche D'Amour-Director Nursing Services
Ginger Kanzer-Ass't D.N.S.

3:05PM Start tour from main entrance proceed to building #2 - Nurse station

Mrs. D'Amour will outline the basic function of building #2 which houses those patients with little or no rehabilitation potential, but needing great amount of personal care. Possibility exists to meet John West, 23 year old wheelchair patient who would like to make an afghan for Mrs. Nixon. If this is possible, he will offer her a choice of colors.

Another possibility may have Mrs. Nixon meet a young girl with multiple sclerosis who is one of the very few patients under "remotivattinn" (putting extreme cases back in touch with reality). ei: getting them to read magazines etc.

3:15PM Proceed through dining area towards nurses's station in building #1.

Mrs. D'Amour will explain that building #1 houses patients who are immediate post hospital and require generally the most medical attention.

Possibility exists to have Mrs. Nixon meet Jim Atwood a young victim of multiple sclerosis, also, and a former advertising executive. After suffering several strokes, as recently as two weeks ago, Mr. Atwood has finally completed a book of poems which he has typed by using a pencil in his mouth. (perhaps it would be appropriate for Mrs. Nixon to request that she be sent a copy.

3:20PM Depart building #1 area and return to front entrance and await Presidential tour.
