MEMORANDUM FOR: MAX FRIEDERSDORF  
FROM: JACK MARSH  
SUBJECT: Legislative Plan

It is my view that the coming ten days will be one of the most critical periods we have faced since the President took office. This will be compounded by the Congressional Recess on August 1, and by the President's departure to Finland the end of this week.

In light of these two events, I think it is essential that we assess, as best we can, what will be the major items of legislation that will come before him, and in what manner they will be presented. To the extent that we can develop a timetable or calander, as well as a sequence, it will be extremely helpful.

In order to accomplish that, I think before you and I go in to meet with him in the regular morning briefing, we should sit down and come up with a summary of the legislative program for this week in order that we can present a plan of action to work key votes that will occur on the Hill. No doubt substantial guidance will be received from the Leadership Meeting this morning.

Energy

The energy vote, as you and I are aware, could evoke some very hard feelings on the Hill, would could adversely affect other measures, particularly the Turkish aid vote.

In order to address the energy matter, I would suggest some of the following. You may wish to add to it:

1. Let's get our energy task force together, consisting of Zarb, Morton, his key guys, and talk about who will take various assignments in the next several days.
2. I think it would be very helpful if today, shortly after noon, we can have a meeting of the old Energy League which brought in the people we worked with earlier and who can undertake some voter assignments.
3. Let's pull together all the favorable editorial and press comment and put it into a package which we can deliver to John Rhodes and Bob Michel and one or two others on the Hill. They may wish to reproduce it and circulate it; however, that's up to them.
4. I think a good round-robin letter would be in order. Let's see if John Rhodes or some others might not be able to give us a hand on that.
5. I think this is an area where our Cabinet officers can give us a hand. Not all of them, but there are some who have a special relationship with certain Members on the Hill.
6. Let's have Bob Wolthuis pull together a list of Members who need to be contacted.
7. Let's have somebody working on some good major speeches that can be given during debate, as well as some short speeches that can be joined in on the Floor.
8. Let's identify individuals who will make speeches and who will actually take part in the Floor action. I think this is extremely important.
9. Whatever efforts that we direct at the House in this field, we must also develop a similar plan for the Senate. In identification of those individual who need to be contacted, either because they are wavering, on the fence, or on the opposite side, let's assign to various Members, such as Michel and others, listed in cloisters of 3 to 5 for people they should see.

10. Let's be sure we have sufficient quantities of materials to include fact sheets and other data which can be used for the purpose of argument.

11. Let's think in terms of arranging meetings on the Hill of small or large groups of the Members which individuals like Zarb, Morton can attend. Let's not limit our efforts to these two, but also draw in, as spokesmen, John Hill and Eric Zausner. Let's see if we can get some of our friends to set up these meetings.

12. If it is necessary to have personal calls on people, let's make those assignments. They can be undertaken by Cabinet officers or other senior officials here in the Administration.

13. Let's think in terms of a smoker here at the White House one afternoon for Members who particularly need attention.

14. It is essential, I believe, today that we make a direct contact with Dave Satterfield and Joe Waggoner to enlist their support.

15. Let's pull out past voting lists and identify those individuals who have been going with us on this issue, particularly on the Democratic side.

16. I think ~~it is~~ important that Bill Kendall touch base with Russell Long to ~~get~~ an assessment of how this impacts on the oil States.

17. In our energy efforts, let's not overlook Holly Cantus and his crew.

18. In your opinion, would it be helpful to put together a one or two page fact sheet that outlines to the Members how these issues will come up. I suspect that many of them are not aware that they really have two major energy votes and perhaps three, depending on what happens. One vote we know is the decontrol plan. Another vote is the extension of the Act, and then, of course, the possible veto vote. It is essential that the Members understand what is happening and why they are getting a series of energy votes.

THE WHITE HOUSE

WASHINGTON

July 26, 1975

MEMORANDUM FOR: MAX L. FRIEDERSDORF

FROM: WILLIAM T. KENDALL <sup>WTK</sup>  
PATRICK E. O'DONNELL <sup>POD</sup>

SUBJECT: Issues requiring Presidential attention  
prior to the August recess

In response to your request, we believe the following Senate actions may require immediate Presidential attention prior to the Congress recessing on or about August 1.

1. The President's compromise oil decontrol plan may be up for a vote in the Senate, depending on what action the House takes.
2. The Senate Foreign Relations Committee will be taking up the matter of Hawk missiles for Jordan. You will recall that the President has indicated that we would be back in touch with Senator Case on Monday on this matter.
3. The Voting Rights Bill may be on the President's desk before the week's end depending on House acceptance of the Senate changes.
4. There may be several appropriations bills ready for signature before Congress recesses, i. e., Transportation; Agriculture; Treasury, Post Office; HUD; State, and Justice. An attempt may be made to amend the State Appropriations Bill to hamper negotiations on a Panama Canal Treaty.
5. There is some discussion, but no final consensus, about repassing Turkish Aid as an amendment to the State Appropriations Bill.
6. The attempt to disapprove Diego Garcia, S. Res. 160, will be voted on early in the week.

7. Agreement may be reached on several conference reports: Defense Procurement Authorization Bill; School Lunch and Child Nutrition Act (H. R. 4222); Development Disabilities and Facilities Construction Act (H. R. 4005); and the Older Americans Act (H. R. 3922).
8. An attempt will be made to remove the strip mining section (Title II) from the Federal Coal Leasing Amendment Act of 1975.
9. There is a possibility of Deregulation of Natural gas coming before the Senate.
10. There is a possibility that the Senate will attempt to override the President's veto of S. 66, the Nurses Training/Health Services legislation. (The bill was overridden Saturday, 67-15).
11. A six month simple extension of the petroleum control legislation, S. 1849, (passed by the Senate) could be acted upon or amended by the House and sent to the White House.
12. There is a possibility that the Finance Committee will report out its version of H. R. 6860, providing a comprehensive national conservation and conversion program; however no floor action is expected.
13. The Interior Committee might report out S. J. Res. 107, approving the covenant to establish a commonwealth of the Northern Marianas in political union with the United States.

THE WHITE HOUSE

WASHINGTON

July 28, 1975

MEMORANDUM FOR: THE PRESIDENT

THROUGH: DICK CHENEY

FROM: JACK MARSH 

1. The Senate took favorable action on Diego Garcia today by a vote of 53-43.
2. In reference to the Turkey matter, your letter was delivered to the Speaker and has been released to the press. Max and I have talked with the Speaker, Rhodes and other House leaders and they are of the view they should try to bring this up again this week. Question now is how to accomplish this. A suggestion has been made by Bolling to attach it to a Senate bill in order to obtain a better chance for a rule in the House. Morgan and Zablocki are exploring possible pending measures to accomplish this. Hamilton and Fraser also support reconsideration. Contacts are being made on both sides of the aisle to obtain vote switches with some progress being made, but not as much as we would like. Most Members indicate a need for some change in language or other provisions in the bill in order to justify a switch in position. Key sponsors here are aware that we cannot go with any substantial changes beyond the present House bill.
3. We also talked with Senator Scott, as well as others in the Senate, and there seems to be a favorable reaction there to working with the Administration in getting a reconsideration of the Turkish matter.

The major difficulty faced at present in both Houses is finding a legislative vehicle to get the bill to the Floor. We will be meeting again with leaders in House and Senate on this Tuesday.

~~SECRET~~  
DECLASSIFIED

E.O. 12255, Sec. 3.4 (b)

White House Clain Lines, Feb. 24, 1983

By DAD NARA Date 1/14/86

4. The question involving arms sales to Jordan has been deferred in both Houses until after the August Recess.

5. The House will consider Nurses Training override attempt Tuesday. Republican Whip check indicates that the Administration cannot sustain the veto, with maximum of 80 Republicans expected to support the veto.

6. The Rules Committee has delayed action on the Resolution of Disapproval of the President's Decontrol plan and requests that Frank Zarb testify before the Rules Committee Tuesday at 10:00 a. m. before taking final action.

MEMORANDUM FOR: DICK CHENEY

FROM: JACK MARSH 

You may have heard on the news service that Secretary Coleman made a decision against I-66 coming from the Beltway into the City. This is getting big play here.

We have had an inquiry as to whether or not the President's been able to focus on the Cape Canaveral Bicentennial memo. If not, this is a matter that can wait until he returns.

Additionally, Max was advised this morning the bill extending the Petroleum Allocation Act will not be sent down until late August which will preclude the possibility of a pocket veto.

cc: Don Rumsfeld

Further note: Mike Mansfield called Max to advise that he departs for Portugal tomorrow (Sunday), and will be there for approximately one week. He wants the President to be aware that he stands ready to assist if there might be something the President might like for him to do while in Portugal.

Tiger Teague hospitalized with possible stroke. He's in Bethesda Naval Hospital. Congressional Relations Office have sent flowers on the President's behalf.

7/31

RELATIONS BETWEEN THE UNITED STATES, GREECE AND TURKEY

The Senate continued with the consideration of the bill (S. 2230) to authorize appropriations for the Board for International Broadcasting for fiscal year 1976; and to promote improved relations between the United States, Greece, and Turkey, to assist in the solution of the refugee problem on Cyprus, and to otherwise strengthen the North Atlantic Alliance.

Mr. MANSFIELD. Mr. President, I am glad that someone has finally gotten around to talking about Cyprus, and, incidentally, about Greece.

I can say this to my distinguished colleague from Minnesota: Unless something is done, there will be no give, and there will be no relief for the tens of thousands, the hundreds of thousands of Cypriot refugees. If something is not done, the situation in the Aegean area is going to remain in the status quo, and that means there will be no settlement in sight, and the impasse which confronts that area and us at this time will remain.

Around the year 1960, the Republic of Cyprus was founded. Its future, its freedom, its independence, its integrity were guaranteed by Greece, by Turkey, and by Great Britain.

Some months ago, the Greek tyrants who were in control of Greece launched an attack against Cyprus, tried to kill Makarios, and put in temporarily a man by the name of Samson, a gangster and a thug, who tried to take over control of that island republic, and when he started on other Greeks, other Cypriots and Turks living on that island, it was then that the Turks came in.

I hold no brief for what the Greek colonels did. They were wrong.

Mr. STENNIS. May we have order, Mr. President.

The PRESIDING OFFICER. The Senate will be in order.

Mr. MANSFIELD. I hold no brief for what the Turks on the Island of Cyprus did, because they overreacted.

But I want to call to the attention of the Senators this fact, if the Senators believe in the most vital alliance with which this country is aligned, NATO, in the minds eye of Senators visualize a map, Portugal on the west end, a very precarious country—we do not know what is going to happen there—Italy in the middle, the Communists have won sweeping elections in regions of Italy in the past several weeks; the Greeks are out of NATO, and Turkey with a 1,000-mile frontier with the Soviet Union, trying to get arms, for which it has already paid, which are in storage in this country and on which they are paying rent.

Do the Senators believe in NATO?

The Senator from Missouri is right when he brings to our attention the legality of the question which he raises. There is no doubt about it.

But what are we going to do to bring a settlement in that area? We cannot even move there now.

What about Karamanlis, one of the great statesman in Europe, buffeted on the right and the left? What is the albatross around his neck? Cyprus and its future.

What are we going to do to bring about hopefully a settlement in that area so that the Turks will withdraw their forces from Cyprus, so that the independence of Cyprus, which is composed of two nations, even at this time, really within one, so that the refugees can be taken care of? What are we going to do if we do not give some assistance at this time, not so much to maintain our bases in Turkey, important though they be, but to help the Cypriots, to help the Greeks? If they are going to be helped, they have to be helped from the outside, and the only country not a signatory to the integrity and the independence of Cyprus, the only country in a position to do so, if given the opportunity, is the United States of America.

So I say I hope that this motion to commit this bill to the Committee on Foreign Relations will fail.

I would hope that we would be aware of the fact that the House of Representatives is still in session, and three attempts to adjourn it tonight beginning at around 8 o'clock have failed.

What is the House of Representatives waiting for? Hopefully for action by the Senate.

Look at Turkey. If the Senators do not think it is not an important country, think of the thousand-mile frontier with the Soviet Union; think of the fact that Turkey is a Moslem country, which has down through the years adopted a hands-off policy as far as the Middle East is concerned.

Where are they going to get their arms—in Western Europe, in Eastern Europe, or in the Soviet Union?

I noticed by the ticker that the Soviets are contemplating sending helicopters to Turkey at the present time. I would be quite a coup for them.

Where are the Turks going to get the money—from the Arab countries?

And where are the Turks going to become more interested—in the Middle East, a cockpit if ever there was one.

I hope, may I say to our colleagues, that they will take all these factors into consideration, because the President is trying to bring about a settlement of sorts. He needs support. If our colleagues want to do something for Cyprus, if they want to do something for Greece, I say vote against the motion to commit and vote to pass the resolution reported out of the Committee on Foreign Relations.

I yield back the remainder of my time.

SEVERAL SENATORS. Vote! Vote!

The PRESIDING OFFICER. Is all time

THE WHITE HOUSE

WASHINGTON

August 25, 1975

ADMINISTRATIVE-CONFIDENTIAL

MEMORANDUM FOR: JACK MARSH  
FROM: PATRICK O'DONNELL *POD*  
SUBJECT: Significant Pending Legislation(Senate)

Contemplating the return of Congress on September 3, the following information might bring you up-to-date on significant matters pending in the Senate.

1. ENERGY: The President's anticipated veto of S.1849 (6-month simple extension of petroleum control legislation) will be up for an override attempt. The exact timing is uncertain but some feel that Senator Jackson might delay until oil prices go up and thereby take advantage of the negative public opinion which will inevitably follow any measurable price hikes.

Twenty-nine Senators voted against S.1849 on final passage and we have already rounded up another five to sustain the veto (Goldwater, Pearson, Johnston, Bentsen and Cotton). This effort will receive priority attention by all concerned until the matter is resolved.

2. ENERGY: The Finance Committee will report out its version of H.R.6860 providing a comprehensive national conservation and conversion program (including a windfall profits tax).
3. CONFERENCE REPORTS: Agreement may be reached on several conference reports: Defense Procurement Authorization Bill (H.R.6674); School Lunch and Child Nutrition Act (H.R.4222); Development Disabilities and Facilities Construction Act (H.R.4005); the Older Americans Act (H.R.3922); and Revision of the Rules of Federal Criminal Procedure (H.R.6789).

4. NATURAL GAS DEREGULATION: Some floor action is expected on natural gas deregulation (S. 692) during September. Senator Stevenson is working with Senator Hollings and others on a yet to be identified approach which will, no doubt, be unacceptable to the administration.
5. OVERRIDE ATTEMPT: The Senate is expected to follow suit if the House votes to override the President's veto of the Labor-HEW Appropriations Bill on September 9.
6. MARIANAS COVENANT: The Senate Interior Committee might report out S.J. Res. 107, approving the covenant to establish a commonwealth of the Northern Marianas in political union with the United States.
7. PANAMA CANAL: A floor attempt will probably be made by Senator Harry Byrd (I-Virginia) to amend the State Department Appropriations Bill to hamper negotiations on a Panama Canal Treaty. Vote is scheduled for September 3 or 4.
8. URANIUM ENRICHMENT: No action in the area of uranium enrichment from the Joint Committee on Atomic Energy. A few well placed public remarks about Senator Pastore during the President's appearance in Newport, Rhode Island, on August 30 might be of assistance.
9. REGULATORY REFORM: Despite a growing consensus for changes in federal regulation of the economy, there is still much debate over specific goals and how to achieve them. No floor action expected in foreseeable future.
10. NO-FAULT INSURANCE: Senate passage of a no-fault insurance bill (S. 354) should not be difficult, particularly since an identical bill cleared both Commerce and Judiciary Committees and passed the Senate by a 53-42 margin in 1974. The House again will be the key.
11. CONSTRUCTION-SITE PICKETING: This July, the House passed H.R. 5900 giving construction trade unions an exemption from the ban on secondary-boycott picketing. At the President's request, the Leadership has agreed to delay action on the bill until it can be combined with the Administration's proposals for a major overhaul of collective bargaining procedures.

12. CLEAN AIR ACT AMENDMENTS: An 11th hour written appeal from the President has secured reluctant agreement from Public Works Committee Chairman Randolph and Ranking Member Baker to hold further hearings on the Administration request for a 5-year extension of present auto emission standards. The hearings have not yet been scheduled.
13. HAWK MISSILE SALE TO JORDAN: Resolutions of Disapproval (House and Senate). The Administration has agreed to keep the issue before the Congress by submitting successive letters of offer until September 26. It is clear the Congress expects a reduction of the original proposal of 14 batteries. State is staffing the issue. Have heard of no definite decisions.
14. FOREIGN AFFAIRS AUTHORIZATION BILL (ACDA AMENDMENTS): Presently pending before the Senate Foreign Relations Committee. While no definite dates have been set, it is anticipated that action will be scheduled shortly after the recess. HAK will recommend veto if this passes. Would require arms control impact statements on all foreign policy initiatives. Also expresses sense of Congress that the President enter into negotiations with the USSR in respect to arms control in the Indian Ocean.
15. 200 MILE FISHERIES ZONE: Before House Rules Committee on September 9. Strong support in both Houses; Presidential veto would be very tough fight.

MEMORANDUM FOR: JACK MARSH  
BOB WOLTHUIS

FROM: TOM LOEFFLER 

SUBJECT: Status of Major Legislation to be  
Considered in the near future by the  
House of Representatives

PRESIDENTIAL VETOES

- HR-5901, Education Appropriation. The House presently has scheduled a vote on the question of sustaining or overriding this veto for September 9.
- S. 1849, the Emergency Petroleum Allocation Extension Act of 1975. The Senate will first consider this veto. In the event the veto is overridden in the Senate, the House will act. The date upon which the Senate will act is not yet known.

PASSED HOUSE, AWAITING SENATE AND/OR CONFERENCE ACTION

DOMESTIC

- HR-49/S. 2173, legislation authorizing the production and exploration from the Naval Petroleum Reserve and establishing a Strategic Petroleum Reserve.
- HR-5900, Construction site picketing.
- HR-6860, Energy Conservation Taxes, including windfall profits, plowback, and rebates.
- HR-4222, Child Nutrition Programs.
- HR-8561, Agriculture and Related Agencies Appropriation Bill.

- HR-8773, Interior and Related Agencies Appropriation Bill.
- HR-8070, HUD and Independent Offices Appropriation Bill.
- HR-8121, State, Justice, Commerce, Judiciary, and Related Agencies Appropriation Bill.
- HR-8365, Transportation and Related Agencies Appropriation Bill.
- HR-8957, Treasury, Postal Service, and General Government Appropriation Bill.

#### INTERNATIONAL

- H. J. Res. 549, Northern Mariana Islands.
- HR-7500, State Department Authorization Act.
- HR-6674, Department of Defense Appropriation Authorization Act.

#### LEGISLATION AWAITING COMPLETION OF INITIAL HOUSE ACTION

#### DOMESTIC

- HR-7014, Energy Conservation Oil Policy Act (This is the Dingell legislation currently being considered by the House.)
- HR-7575, Agency for Consumer Advocacy.
- HR-8053, Post Card Voter Registration.
- Draft bill with no number, Tax Reform legislation.
- HR-982/HR-8713, Illegal Alien Legislation.

#### INTERNATIONAL

- HR-1287, Rhodesian Chrome
- HR-200, Fishing Zone Extension

- HR -9005, Foreign Aid--International Development and Food Assistance Act of 1975.
- S. 2330, Turkish Arms Embargo.
- H. Con. Res. 337/S. Con Res. 50, Hawk missile sales to Jordan.
- H. Res. 160/H. Res. 197, Strategic Arms Control--resolution of support of the Vladivostok agreement.

MEMORANDUM FOR: MAX FRIEDERSDORF  
FROM: WILLIAM KENDALL  
PATRICK O'DONNELL  
SUBJECT: Pending Legislation

The following issues are likely to be considered between the end of the present recess (10/20) and the end of this session:

1. Agency for Consumer Advocacy (S. 200, H.R. 7575).  
Passed Senate 5/15/75 and reported in House on 7/30/75. Expect the House to pass before end of year and a veto fight in the Senate.
2. Energy Conservation Taxes (H.R. 6860). To place an excise tax on industrial use of oil and natural gas and to provide for flexible use of quotas and import fees to curtail petroleum imports. Passed House on 6/19 and Senate Finance Committee began markup on 7/21/75.
3. Energy Conservation and Oil Policy (H.R. 7014, S. 622).  
In conference. Expect a veto.
4. Health Insurance for Unemployed (H.R. 5970, S. 625). Senate Labor Committee reported on 4/15. Finance Committee began hearings last March.
5. Natural Gas Price System (S. 692). To establish a new multi-tiered system of price controls for different categories of natural gas. Reported on 6/12/75.
6. Public Jobs (S. 1695, H.R. 2584). To expand the emergency public service employment program. Labor Committee concluded hearings on 6/6/75.

7. Uranium Enrichment. Senator Pastore has indicated that hearings will be scheduled in the near future.
8. Energy Independence Authority. Hope to have early hearings but facing much opposition, including Proxmire and Tower as Chairman and Ranking member, respectively, of the Banking Committee.
9. Revenue Sharing.
10. Food Stamp Reform.
11. The 200 Mile Limit on Fishing.
12. No-Fault Insurance (S. 354). Reported on 7/15.
13. Resolution relating to sales for export of wheat and other grain (S. Res. 234). Placed on calendar on 8/1/75.
14. Additional Judgeships (S. 287). Reported on 9/24/75.
15. Marianas Covenant (S. Res. 107)
16. Regulatory Reform (separate packages on air, rail, etc.)
17. Common Situs Picketing (much opposition)
18. Clean Air Act Amendments. Expect full Public Works Committee to address a Baker compromise on the auto emissions controversy.

Conference Reports:

Transportation Appropriations (H. R. 8365)  
Agriculture Appropriations (H. R. 8561)  
Education for Handicapped Children (S. 6)  
Older Americans (H. R. 3922)  
Maritime Authorization (S. 1542)  
ERDA Authorization (H. R. 3474)

cc: Jack Marsh ✓

October 14, 1975

PROBLEM CHILDREN

BILL

STATUS

COMMENT

1. Rural Development Act (Title V). House Cte. reported H.R.6346. Extends and amends authorization for college research concerning rural development, small farm research and extension program. The desirability and benefits of such research is questionable, and it overlaps existing authority to fund meritorious rural development research.
2. Livestock Packer Bonding, S.1532. Clark (D) Iowa and 11 others; and H.R.5493, Thone (R) Neb. Hearings held by House Cte and Senate Ctes. Amends the Packers and Stockyards Act to require (1) the bonding of packers (privately) for the payment of livestock they purchase and (2) other measures to protect livestock producers. Bills are inconsistent with the Administration's broad movement toward less economic regulation.
3. Coastal Zone Management Act Amendments, S.586, Hollings (D) S.C. and 4 others; and H.R.3981, Murphy (D) N.Y. Senate passed S.586. House Subcommittee ordered bill reported to full Committee. Extends and expands Coastal Zone Management Act grants, establishes a new \$200 million Coastal Energy Facility Impact Fund, requires that OCS leasing be consistent with Coastal Zone programs, authorizes Federal guarantee of State and local OSC related bonds, and reduces the Federal while increasing State share of non-OSC mineral leasing revenues. (Revenue sharing options under executive branch study.)

<u>BILL</u>	<u>STATUS</u>	<u>COMMENT</u>
4. Outer Continental Shelf Land Act amendments, S.521, Jackson (D) Wash. and 3 others, and H.R.6218, Murphy (D) N.Y. and 2 others.	Senate passed S.521.	Provides for extension and unwarranted Federal involvement in OCS leasing and development at great cost to the Federal budget (roughly \$500 million annually in initial years).
5. Naval Petroleum Reserve, S.2173, Cannon (D) Nev., and H.R.49, Melcher (D) Mont.	Senate passed S.2173 and redesignated it as Title I of H.R.49. House passed its version of H.R.49.	Fails to authorize the full and timely development of NPR-4 (Alaska); contains an unconstitutional one-House veto provision; and does not support the Administration's funding needs for a National Strategic Petroleum Reserve (Senate bill only).
6. Federal Coal Leasing Act Amendments, S.391, Metcalf (D) Mont. and Jackson (D) Wash., and H.R.6721, Mink (D) Hawaii and 8 others.	Senate passed S.391.	Applies to Federal lands and Federal coal the basic surface coal mining and reclamation standards of the recently-vetoed strip mining bill; reduces Federal while increasing State share of non-OCS mineral leasing revenues; and contains other objectionable provisions which limit the Executive's discretion to manage the coal leasing program.
7. Milk support prices, S.J.Res.121, Humphrey (D) Minn. and 7 others.	Passed Senate.	Requires quarterly adjustments in milk price supports and further moves this sector of agriculture from a market-oriented program.
8. Land and Water Conservation Fund and National Historic Preservation Fund authorization increases, S.327, Jackson (D) Wash. and Johnston (D) La., and H.R.2763, Taylor (D) N.C. and 24 others.	Senate Cte reported S.327.	Increases annual authorization by another \$800 million.

BILL

STATUS

COMMENT

- 9. Hells Canyon National Recreation Area, S.322, Church (D) Idaho and 3 others, and H.R.30, Ullman (D) Ore. and 30 others.

Senate passed S.322. House Cte. ordered reported H.R.30 amended.

These bills go considerably beyond what is necessary to maintain the Middle Snake River as a free-flowing and protected river. Both bills impose unnecessarily restrictive land use requirements and would unduly limit multiple land management.
  
- 10. Strategic Energy Reserve Act, S.677 Sen. Jackson (D) Wash. and Title II of H.R.49 as passed by the Senate.

In conference.

Departs from Administration proposal to establish national reserves of crude oil and petroleum to be used in the event of a significant interruption of imports.
  
- 11. Emergency Natural Gas Act Amendments, S.2310, Sen. Hollings (D) S.C., et al.

On Senate Floor.

Likely that legislation to deal with natural gas problem on an emergency interim basis will pass but uncertain whether or not it will conform sufficiently to the Administration proposal to be acceptable.
  
- 12. Tax-exempt financing for American Falls Dam, Idaho, S.1152, Church (D) Idaho.

Senate passed, House Cte. reported.

Provide exemption from general rules covering tax-exempt industrial bonds.
  
- 13. Standby energy authorities, S.622, Jackson (D) Wash., and H.R.7014, Dingell (D) Mich.

In conference.

Subjects requested Presidential authorities to deal with acute shortages to tight congressional control; overturns efforts to decontrol price of oil; mandates far-reaching conservation program.
  
- 14. Solid waste disposal and energy resource recovery, H.R.5487, Rogers (D) Fla.

Senate Cte. prepared draft bill, House hearings completed.

May contain massive new spending program of demonstration and State grants.

BILLSTATUSCOMMENT

- |   |   |  |
|---|---|--|
| 15. Mandatory fuel economy standards for new cars, S.1883, Magnuson (D) Wash.   | Senate passed.  | Mandatory fuel economy standards are not needed at this time in view of efforts being made by automobile companies in response to both the Administration's voluntary fuel economy program and higher fuel prices. In addition, bill's advanced auto prototype program duplicates an ongoing \$100 million program.  |
| 16. Clean Air Act Amendments (motor vehicle emission) -- numerous bills to set varying levels of emissions controls.  | Senate and House Ctes, are now marking-up.  | Whether a bill that may be enacted would be a candidate for veto is uncertain.   |
| 17. Energy Conservation and Conversion (tax) Act, H.R.6860, Ullman (D) Ore.   | House passed. Senate Cte. marking-up.   | Contains import quotas, gasoline taxes, energy trust fund, mandatory gasoline mileage standards for cars.  |
| 18. Extension of U.S. fisheries jurisdiction to 200 miles on an interim basis pending negotiation of a Law of the Sea Treaty, H.R.200, Studs (D) Mass, et al., and S.961, Magnuson (D) Wash. et al. | House passed H.R. 200. Senate Commerce Cte. reported S. 961 -- it has been referred to the Foreign Relations Cte. | Contrary to multilateral efforts in the Law of the Sea negotiations and to new, bilateral efforts announced recently by Secretary Kissinger.   |
| 19. Federal indemnification of art exhibits, S.1800, Pell (D) R.I. and Javits (R) N.Y., and H.R.7216, Brademas (D) Ind., and Bell (R) Cal.  | Senate passed S.1800.   | Provides indemnities not appropriately limited to international art exchanges pursuant to international (i.e., intergovernmental) agreements. Effectively establishes a new agency to administer indemnities, permits backdoor financing, and does not establish appropriate limits on Federal liability.  |
| 20. and 21. OBE.  |   |  |
| 22. Consumer Product Safety Commission Improvements Act, S. 644, Moss (D) Utah and Magnuson (D) Wash., and H.R. 6844, Van Deerlin (D) Cal. and 2 others.  | Passed Senate. Due for final House Floor consideration in October.  | Amends Consumer Product Safety Act to permit CPSC to represent itself in court proceedings and appoint personnel without complying with civil service rules and regulations. Authorization levels are excessive. The Administration has asked the House and Senate Minority Leaders to amend the bill through Floor action to delete those provisions and to repeal the existing Subsection 27 (k) of the law that provides for concurrent CPSC submission of budgets and legislation to OMB and Congress. |

<u>BILL</u>	<u>STATUS</u>	<u>COMMENT</u>
23. Consumer Protection Act, S.200, Ribicoff (D) Conn., and H.R.7575, Brooks (D) Texas, Rosenthal (D) N.Y., and Horton (D) N.Y.	Senate passed S.200. House Cte. ordered H.R.7575 reported.	Establishes an Agency for Consumer Advocacy as an independent, nonregulatory agency of the executive branch. Authorizes Agency to intervene as a party on behalf of consumers before other Federal agencies and in Federal courts, and to obtain broad access to agency records. The President has proposed improvement of existing agencies rather than creating another one and has specifically announced on Sept. 5 his intention to veto legislation of this kind.
24. Consumer Fraud Act, S.670, Moss (D) Utah.	Senate passed.	Provides criminal penalties for knowing commission of fraudulent practices relating to sales of consumer goods or services. Language is vague and broad in specifying what deceptive practices constitute criminal offenses. Would overload Federal courts with remedial actions more appropriately handled in State and local courts. Experience should be gained under recently enacted Magnuson-Moss FTC Warranty Improvement Act before passing new measures for the same purpose.
25. Government in the Sunshine Act, S.5, Chiles (D) Fla. and 39 others.	Senate Cte. reported out S.5 with amendment.	Requires open meetings between the heads of collegial-headed agencies and public notice of such meetings and the meeting agendas; requires records and transcriptions of all meetings (open or closed) be made available to the public in accordance with the Freedom of Information Act; limits <u>ex parte</u> communications to specific circumstances. The mechanics proposed are procedurally problematic and cumbersome; many other provisions are questionable in view of requirements of the Administrative Procedures Act and the Freedom of Information Act.

<u>BILL</u>	<u>STATUS</u>	<u>COMMENT</u>
26. Railroad public works (track upgrading and rehabilitation grant program), S.1730, Hartke (D) Ind. and 31 others; H.R.8672, Rooney (D) Pa. and 11 others.	Senate passed S.1730 H.R.8672 reported by House Cte.	S.1730 authorizes \$700 million in grants and \$100 million in loan guarantees to be used for salaries and materials for upgrading rail track and facilities. H.R.8672 authorizes \$240 million in grants for salaries only.
27. Third-flag shipping rates, S.868, Inouye (D) Hawaii; H.R.7940, Sullivan (D) Mo., Downing (D) Va., McCloskey (R) Cal.	S.868 ordered reported.	Places discriminatory restrictions on rates charged by third flag carriers (e.g., a Norwegian carrier plying a U.S. to Japan route).
28. Postal Service Reorganization Act Amendments, H.R.8603, Hanley (D) N.Y. and 5 others.	Reported by the House Cte.	Greatly increases the Federal subsidy to the U.S. Postal Service and erodes the possibility of eventual U.S. Postal Service self-sufficiency.
29. Protective services for foreign missions, H.R.12, Jones (D) Ala.	House passed. Senate Cte. reported amended H.R.12 on September 17.	<p>Extends protective services to 5 cities where 20 or more foreign missions exist; authorizes reimbursement for services of local police in those cities where "extraordinary protective need" exists; increases authorized staff of EPS from 850 to 1,200. House version includes (1) unlimited authorization for reimbursement of State and local governments for undefined services provided for protection of foreign dignitaries, and (2) special authorization for 10 supergrades for the Secret Service; and fails to define clearly that the Secretary of the Treasury has sole authority and discretion in deciding if and when EPS officers should be deployed or local police should be reimbursed for protection of foreign missions.</p> <p>Senate version deletes special supergrade authorization and limits reimbursement of State and local governments to \$3.5 million each fiscal year. Senate version expands reimbursement provision to include temporary domicile of foreign officials (e.g., hotels).</p>

BILL

STATUS

COMMENT

30. Special Action Office For Drug Abuse Prevention, S.2017, Hathaway (D) Ma.

Senate passed S.2017. House amended the bill and returned it to the Senate for further action.

Extends life of SAODAP beyond June 30, 1975, expiration date, renames it Office of Drug Abuse Policy, extends appropriation authorization for HEW's drug abuse grant authorities for three years, and renews special research authorities for three years. The Administration opposes reestablishment of SAODAP because the basic coordination purposes for which it was created have been met and other Federal agencies have sufficient capability to administer prevention and treatment programs. HEW appropriation authorization levels exceed those proposed by the Administration. The bill's research authorities duplicate existing authorities.

31. Small Business Emergency Relief Act, H.R.5541, Smith (D) Iowa.

House passed. On Senate calendar.

Authorizes agency heads to modify or terminate, at the convenience of the Government, contracts with small business concerns affected by certain cost increases. Standards are ambiguous, could be expensive and inequitable, and would adversely impact established procurement practices.

32. Public works program, H.R.5247 Jones (D) Ala.

Passed House; passed Senate, amended.

Authorizes \$5 billion program for public works projects designed to stimulate construction employment. Excessive funding; long planning-delays before fund would be used for construction wages; new formula to allocate water pollution control funds is unacceptable; Senate version includes new countercyclical assistance grant program.

BILLSTATUSCOMMENT

- |   |   |  |
|---|---|--|
| 33. Small business loans for utility disruption, H.R.4888, Addabbo (D) N.Y.                                     | Passed House.   | Authorizes SBA to make loans available to small businesses suffering economic injuries as a result of disrupted utility operations, retroactive to January 1, 1975. The bill is overly broad; SBA already has this authority where appropriate.  |
| 34. Health professions education, S.989, 991, 992, Kennedy (D) Mass., and H.R.5546, Rogers (D) Fla.             | House passed H.R.5546.<br>Senate Cte. holding hearings.       | Continues and increases capitation grants for all health professions schools, imposes numerous Federal requirements on medical schools to correct geographical and specialty maldistribution, continues various categorical grant programs, and contains excessive funding levels. Administration proposes to limit capitation to medical and dental schools agreeing to address maldistribution and other national priorities and to place more emphasis on student aid through scholarships. |
| 35. Indian Health Care, S.522, Jackson (D) Wash., and H.R. 2525 Meeds (D) Wash.                                 | Senate passed S.522.<br>House Cte. held hearings on H.R.2525. | Authorizes over 20 new categorical health programs for Indians, with higher authorization amounts. All program activities can be conducted under existing legislative authority. Administration proposes to meet health needs through broad-based programs such as Medicare and Medicaid.  |
| 36. Education of handicapped, S.1256, Mathias (R) Md., S.6, Randolph (D) W.Va., and H.R.7217, Brademas (D) Ind. | In conference.  | Calls for funding substantially in excess of President's budget; entails increased Federal involvement in education of handicapped children and rapid infusion of funds likely to be ineffective.  |
| 37. Older Americans programs, H.R.3922, Brademas (D) Ind., Perkins (D) Ky., Quie (R) Minn. and 22 others.       | In conference.  | Extends and amends Older Americans Act with excessive authorizations and new programs, some of which duplicate existing programs; extends with large authorizations Older American Community Service Employment Act, originally enacted over executive branch opposition and for which no funding has been requested.  |

BILLSTATUSCOMMENT

38. Supplemental Security Income (SSI) Amendments of 1975, H.R.8911  
Mr. Corman (D) Cal. and 3 others.
- House Subcte. ordered reported.
- Contains many constructive changes to the SSI program which the Administration supports. However, includes several objectionable and costly provisions: e.g. (1) mandates that States "pass through" to SSI beneficiaries all Federal CPI increases, with the Federal Government paying the cost in certain States and (2) permits Section 8 housing payments to be disregarded in computing SSI eligibility, thereby doubly benefiting individuals who participate in both programs.
39. Youth camp safety, S.422, Mondale (D) Minn. and 5 others, and H.R. 46, Daniels (D) N.J. and 24 others.
- House passed H.R.46.  
Senate Subcte. approved S.422, amended.
- Imposes on Federal Government traditional and appropriate State responsibility of establishing standards and conducting enforcement activities for all youth camps; authorizes an unwarranted new Federal grant program.
40. Public Service Jobs, S.1695, Nelson (D) Wisc. and 8 others, and H.R.2484, Daniels (D) N.J.
- House completed hearings on H.R.2584. Senate has recessed hearings on S.1695 subject to call.
- H.R.2584 and S.1695 each increases the authorization from \$2.5 billion to \$5 billion for Title VI of CETA-Emergency Jobs Program - to provide additional public service jobs for unemployed and underemployed persons. S.1695 also contains other objectionable amendments to CETA. The authorization level is excessive and it could not be effectively or efficiently used. There are limits to the use of public service employment as a job creation measure in a serious and prolonged economic downturn. The public service employment programs are costly, temporary, something of a stopgap, and can employ only a limited fraction of the large number of unemployed persons.

<u>BILL</u>	<u>STATUS</u>	<u>COMMENT</u>
41. Intergovernmental Personnel Act amendments, S.957, Muskie (D) Me., Brock (R) Tenn., Chiles (D) Fla., and H.R.4415, Clay (D) Mo.	House passed H.R.4415. Senate Subcte. held hearings on S.957.	Bills as introduced are Administration proposals. House-passed bill now includes authorization for direct grants to unions which have no governmental responsibilities.
42. Federal employee life insurance benefits, H.R.7222, Daniels (D) N.J.	Scheduled for floor action shortly.	Increases Government's share of premium cost of employee life insurance. Present rates are equitable; review is underway of total compensation of Federal employees.
43. Federal civilian employee retirement, H.R.5397, White (D) Texas.	Scheduled for floor action shortly.	Allows optional retirement after 30 years of service regardless of age, subject to a reduction in annuity of 2% a year for each year the employee is under age 55. The Administration is opposed to the use of the extremely expensive "service-only" retirement test instead of the more meaningful combination of age and length of service requirement in present law.
44. Retirement benefits for Customs and Immigration Inspectors, H.R. 7110, White (D) Texas.	House Cte. ordered reported.	Extends to customs and immigration inspectors the preferential early retirement benefits which now apply to FBI agents and other law enforcement employees. The Administration is opposed to extending these benefits to a group whose "hazardous duty" responsibilities cannot be equated with those now receiving them, and whose work does not require special liberal retirement to maintain a young vigorous workforce. Such an extension would serve as a precedent for other "hazardous duty" employees to seek special benefits also.
45. Federal employee political activities (Hatch Act), H.R. 8617, Clay (D) Mo.	House Cte. reported H.R. 8617.	Eliminates nearly all Hatch Act prohibitions on active participation in partisan political activity by Federal employees, permitting them to freely campaign for office, to manage campaigns of others, and to solicit and receive political contributions from each other. Would shift Hatch Act enforcement from CSC to a new Board of Political Activities.

OCT 31 1975

THE WHITE HOUSE  
WASHINGTON

October 31, 1975

MEMORANDUM FOR THE PRESIDENT

FROM: MAX L. FRIEDERSDORF *M.L.F.*  
SUBJECT: Legislative Schedule

The Democratic leadership expects to schedule the following significant legislation on the House Floor during November:

1. Consumer Protection Agency (GOP whip check looks good and we can either defeat on the Floor or sustain a veto)
2. Conference Report on Energy (S. 622/H.R. 7014)
3. Minimum Wage (\$3.00 per hour)
4. Unemployment Compensation (now in Ways and Means mark-up)
5. Tax Reform (Ways and Means mark-up near completion)
6. Second Concurrent Budget Resolution
7. Federal response to New York City

The following bills are nearing completion in Committee and are expected after November, possibly before adjournment of the First Session:

1. Postcard Voter Registration
2. Conrail/Transportation Regulatory Reform
3. Strip Mining (attached to Coal Leasing)

Long term measures on track but consideration before adjournment not certain:

1. Higher Education Act extension
2. General Revenue Sharing (no action this year)

3. Clean Air Act extension
4. Food Stamp Reform
5. Natural Gas Deregulation

THE WHITE HOUSE  
WASHINGTON

November 11, 1975

MEMORANDUM FOR THE PRESIDENT

FROM: MAX FRIEDERSDORF *M.F.*

SUBJECT: Probable Legislative Schedule Prior to Adjournment of  
94th Congress - First Session

Listed below for each house and by category are the legislative items  
scheduled for committee and/or floor action before adjournment in  
mid-December.

*Max desk*

House

Appropriations Bills

- H. R. 10647 Supplemental 1976 reported and scheduled for House floor action this week.
- H. R. Foreign Aid Appropriation. Pending in HAC.
- H. R. Continuing Resolution - Undergoing staff review in HAC.
- H. R. D. C. Appropriations. Pending in HAC.

Legislative Bills

- H. Con Res. 466 Second Concurrent Resolution on the Budget for 1976 which sets binding levels on FY 1976 spending and revenue. House floor action Tuesday, November 11.
- H. R. 10585 Debt Limit. Scheduled for House Rules Tuesday, November 11. Ways and Means will request an open rule to allow Latta to offer spending ceiling amendment.
- H. R. 10481 New York City Loan Guarantees. Reported by House Banking and referred to Ways and Means. Not scheduled in House Rules for Tuesday, November 11.
- H. R. New York City Bankruptcy Reform. Considered in full House Judiciary Committee on Monday, November 10, 1975. Clean bill.
- H. R. 10612 Tax Bill. Reported Friday, November 7 by vote of 20-17. Not yet scheduled in Rules. Chairman hopes for floor consideration by Thanksgiving recess.
- H. R. 6461 Public Broadcasting Financing. Open rule scheduled for floor action November 10-14.
- H. R. 5512 National Wildlife Refugee System Administration. Open rule. Floor action scheduled November 10-14.
