Hannelore Schmidt

Hannelore Glaser was born in Hamburg in March 1919. Her father was a worker. She was the eldest of four children. In spite of the fact that her father was unemployed at the time, she was sent to Hamburg's well known Lichtwark school where she was in the same class as her future husband.

She passed her higher school certificate in 1937 and afterwards studied education in Hamburg. In April 1940 she passed the first state examination which qualified her to teach at elementary and intermediate schools. She taught continuously from 1 May 1940 to 1967.

She married Helmut Schmidt in 1942.

Their daughter Susanne was born in 1947. Having taken an economics degree at the beginning of 1973, she is currently working on her dissertation for a doctorate in Hamburg. Frau Schmidt has many interests: science, especially minerology and botany, archaeology, painting, music (she plays the viola). When her husband has the time to spare they play chess.

At the end of 1973 Frau Schmidt took a Red Cross training course for auxiliary nurses in a Bonn hospital.

Dr. Mildred S c h e e l

Dr. Mildred Scheel, wife of the President of the Federal Republic of Germany, has been a resident of Bonn since 1969. No stranger to the Rhineland, Dr. Scheel was born in Cologne, 30 kilometers north of Bonn, the daughter of a physician and an American mother.

Prior to her marriage to Walter Scheel, Mildred Scheel lived in Munich pursuing a medical career which she had decided on while still a school girl. After graduating from secondary school, she began her medical studies in Munich where she accepted an appointment to a University medical clinic. Following her father's footsteps, intending to eventually take over his practice, Mildred Scheel specialized in radiology.

Long interested and active in the fight against cancer, Mildred Scheel founded the Deutsche Krebshilfe (The German Cancer Research Fund) shortly after the election of her husband to the Presidency of the Federal Republic on the 15th of May 1974.

The Scheels have two daughters, Cornelia and Andrea-Gwendolyn, and an adult son, Ulrich, from the President's previous marriage. They also have an adopted Bolivian son, Simon-Martin.

While extremely interested and active in political matters, Dr. Scheel manages to find time to pursue her interests in reading, music, the theater and skiing. She is known as an excellent hostess whose intelligence and natural grace are much admired. The First Lady is not only well liked but regarded by those who know her as a friend.

forward to this

The following is information received from the Desk Officers from the respective countries:

AUSTRIA

Climate is not extreme. Summers are relatively cool. Climate is similar to that of Washington. Clothing needs and tastes are about the same.

Sweaters or light woolen clothing are advisable during the summer. Also, rain clothing should be available.

Black Tie attire in Austria is the same as in the United States.

FINLAND

Even though Finland extends into the frigid zone, its climate is moderated by the influence of the Gulf Stream. Summer temperatures rarely exceed 75° and the evening temperatures vary around 65° in the evening.

Light coat would be useful.

Pant suits are not worn by the more matured women in Finland.

GERMANY

Summer temperatures average 65°. Annual rainfall occurring mostly in summer, ranges from 20" in northern lowlands to 79" in the Alps. Located in the temperate zone and is subject to frequent changes in weather. The same type of clothing may be worn as in the northeastern United States.

Lightweight summer clothing is seldom needed.

Tentatively, a Black Tie river cruise has been scheduled. The temperature for the cruise could be quite cool and a fur wrap would be appropriate for this event.

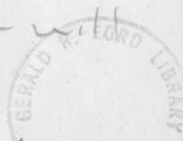

There will be no official airport arrival ceremony -- but the next morning, there will be an official welcoming ceremony and Mrs. Ford may wish to wear a hat and gloves for this event (but that is optional).

There could possibly be a tea and luncheon for Mrs. Ford and the dress for these events would be the same as in this country for such events.

The weather is very damp, so take lots of hair spray.

Men shake hands with the women and will extend first -- also, they kiss hands.

Men always walk on the right side of the women.
