NOTICE TO THE PRESS

HOSPITAL BULLETIN #8 - 11:00 AM

Dr. William Fouty, National Naval Medical Center at Bethesda, reports that Mrs. Ford had an excellent, restful night. Today she is moving about the suite at her own discretion. Her spirits are excellent, her appetite is good. Mrs. Ford had broiled chicken, vegetables, fruit cocktail and tea for dinner last evening, and poached egg, bacon, toast, cranapple juice and tea for breakfast.

Mrs. Ford's post operative recuperation continues uncomplicated, her vital signs remain stable, and her condition is excellent.
