

Pool                      Ford to NE GOP Conference at Twin Bridges Marriott

Trip over uneventful and right on schedule.

As President Ford emerged from the motel following his speech he was greeted by about twenty delegates to the conference, most of them women wearing President Ford '76 boaters (hats). They applauded politely as the President and VP Rockefeller walked by, shaking hands with each of the cheerleaders.

President Ford and Rockefeller rode back to the White House together in the President's limousine. Apparently they were engaged in conversation for when the motorcade pulled to a stop outside the Oval Office they stayed in the limousine ~~for~~ a minute or two longer.
