## **Gerald R. Ford Congressional Papers: Films/Video, 1946-1973**

### **Series Descriptions**

#### ***Videotape, 1972 (30 minutes)***

The series consists of one 3/4" video cassette. The tape is a compilation of four separate programs originally recorded in 1972 on 2" tape. The House of Representatives film office produced three of the programs while the fourth came from WKZO-TV, Kalamazoo, Michigan.

The programs are arranged chronologically with the exception of the last, which is undated.

#### ***Motion Picture Films, 1946-1972 (196 reels)***

The series contains 196 reels of 16mm film, comprising nearly 55,000 feet. The majority are black and white with sound. Only 19 reels (8,300 feet) are in color. The films include Ford's reports to constituents, some of his campaign commercials, and documentaries relating to Space and Military programs. Among the subjects covered in Ford's "Reports from Washington" are discussions on legislation to alter the Social Security Act, create a G.I. Bill for Korean War veterans, provide appropriations for the construction of the St. Lawrence Seaway, and revise the Internal Revenue Code. Other titles deal with the Korean War, Chinese Communist aggression in Southeast Asia, U.S. intervention in Cuba, the efforts of the Justice Department and the Immigration and Naturalization Service to remove subversives from the United States, and Defense Appropriations. The documentaries include subjects such as "Operation Ivy," the first above ground test of the hydrogen bomb; "Countdown to Polaris," and several NASA films on the Gemini and Apollo Space Programs. Most of the films are in the public domain. Related materials can be located in the Photographs and Audiotapes series as well as in the Ford Scrapbook Collection.

The films are arranged chronologically.
