

Gerald and Betty Ford Family Photo Albums

These albums date from all periods of President and Mrs. Ford's lives and contain early family photographs, along with ones from the House of Representatives year, the Vice Presidency, the Presidency, and post-White House activities. Most of the photographs from the White House years are duplicates of those appearing in the White House Photographic Office collection. The staff has included in this item-level listing all photographs dating from before Gerald Ford's transition to the White House on August 9, 1974.

To obtain additional information about these photographs and others in this collection, please contact the Gerald R. Ford Presidential Library reference staff at ford.library@nara.gov.
